The Standard Recipe

for Home-made Self-Raising Flour.

To every pound of ordinary flour add 2 ozs. (one 5 cent tin) of

**"Paisley Flour"**  
The SURE raising powder.

and mix dry. Mix it fresh every time—it only takes a minute. Stir round till the lighter coloured Paisley Flour disappears and sits through a dredger.

In this way you have a self-raising flour superior to anything you can buy—one in which the raising powder has lost none of its virtue by waiting, exposure to air or damp in shops, etc. And it will cost you no more, if not less, than ready-made self-raising flour.

Paisley Flour is sold in 22c, 11c and 5c. tins. The 22c. tin will raise 7 pounds of flour.
