How St. Lambert's Lost

Guelph, Ont., Nov. 25.—The Ontario Agricultural College brought the Dominion Junior Intercollegiate Championship to Guelph on Saturday, when they overwhelmed St. Lambert's, of Montreal, Junior, Intercollegiate Champions of Quebec, by a score of 50 to 2. The first quarter was the only one really hard fought.

The Aggies tackled sure, and their back division outbooted and outran

their opponents, while the line tore holes in the Saints' defense. Simpson starred for O. A. C., at one time going half the length of the field for a touchdown, while his sensational runs were the features.

Madden's head work, Herders kicking, and Websters tackling were also largely responsible for the one-sided score, though the whole team worked hard and steadily. Herder and Sibbitt were both laid out, but it is expected they can play against the O. R. F. U. champions here next Saturday, should the series be completed.

Good Night.

Sleep on, beloved, sleep and take thy rest;
Lay down thy head upon thy Saviour's breast;
We loved thee well, but Jesus loves thee best—
Good-night! Good-night!

Calm is thy slumber as an infant's sleep;
But thou shalt wake no more to toll and weep;
This is a perfect rest, secure and sleep—
Good-night! Good-night!

Until the shadows from the earth are cast;
Until He gathers in His sheaves at last;
Until the twilight gloom be overpast—
Good-night! Good-night!

Until we meet again before His throne,
Clothed in the spotless robe He gives His own,
Until we know even as we are known—
Good-night! Good-night!

No Shipping List

Editor Evening Telegram.
Sir—Why has the Daily News discontinued publishing the list of the schooners in port and the wharves at which they were moored? The Daily News used the business people and the outboard people whilst he was endeavouring to get a hold on the chest, but now that they have come in for the swag, the "Waterfront List" is a thing of the past and we can all go to Jericho as far as the Daily News is concerned.

The Editor used to boast morning after morning whilst publishing the list, that it was of great benefit to the people; but surely it was beneficial then it should be so this Fall. But there's no election on this Fall and that makes all the difference.

PORTER.

Fifty Dead In Show Panic.

Bilbao, Spain, Nov. 25.—A terrible panic was caused yesterday afternoon by the cry of fire at a moving picture show here. About fifty children and others were killed. Only one woman up to late hour—last night had been found among the dead. The number of injured is not known, as most of them were taken to their homes by friends.

The scene of the accident is a large circus, which had been converted into a continuous cinematograph show. As the price of admission was only two cents the building was crowded to its utmost capacity, for the most part with women and children.

The operator of the machine lost his nerve when a film ignited, and screamed "Fire!" He was able to extinguish the flames himself without difficulty, but the effect of his cry upon the audience was instantaneous. Almost everyone within the building sprang up. The police and attendants were powerless to control the panic-stricken people, and were swept away by the surging mass which sought to fight away to the exit. Scores were knocked down and trampled upon and many were crushed to death in the passages from the galleries to the streets.

Fashionable Company.

Mr. J. Buckland said the habit of wearing skins and plumage in ladies' hats was rapidly leading to the extermination of many birds, because they were being killed faster than they were breeding. Some types had already been lost to the world in this way. On an island in the North Pacific Ocean was found a heap of dead albatrosses, waist high, their bodies stripped of feathers, and many having been condemned to a lingering death.

The beautiful lyre bird of Australia had been reduced to a few specimens, and not long ago some sordid wretches surrounded and fired a patch of scrub where these remaining birds had sought shelter, and shot them down as they rushed out. One hundred and twenty tail quills of these birds had been sold in London at 2s. 6d. each, quills which took millions of years to evolve, and which were now lost to the world.

Every egret worn by a woman meant not only the death of the bird, who would rather give up her life than abandon her little ones, but it also meant the wailing cry of hunger from her offspring.

Great Britain was the receiver of the stolen goods. A little while ago, at the feather sales in London, a snowy heron's feather was sold at \$100 per ounce, which was at the rate of \$1,600 per pound. The exposure and imperilling of human life in the fever swamps to obtain these feathers men's carillon taste in millinery, should not be necessary to "glut wo-

A Wonderful Case.

Three Months in Hospital and came out Un cured.

"Zam-Buk Cured Him in Few Weeks.

Mr. Fred Mason, the well-known upholsterer and mattress manufacturer of St. Andrews, N.B., says:—

"I had eczema on my knee, which caused me terrible pain and inconvenience. The sore parts would itch and burn and tingle, and then when rubbed or scratched, would become very painful. When the knee got warm, it burned worse, and the itching and burning and smarting were almost unbearable. I tried various remedies, but got no better, so I decided to go to Montreal General Hospital for thirteen weeks, but at the end of that time I was not cured, and almost gave in. A friend advised me to give Zam-Buk a trial.

"Almost as soon as applied Zam-Buk stopped the itching and the irritation. I persevered with the balm and it was soon evident that it would do me good. Each day the pain was reduced, the sore spots began to heal, and by the time I had used a few boxes of Zam-Buk I was quite cured. "Since then Zam-Buk has cured blood-poison in my finger, and at a time when my finger was in such a terrible condition that I feared it would have to be amputated."

For eczema, blood-poisoning, piles, ulcers, sores, abscesses, varicose ulcers, bad leg, cold sores, chapped hands, cuts, burns, bruises and all skin injuries and diseases, Zam-Buk is without equal.

50c. box all druggists and stores or post free from Zam-Buk Co., St. John's for price. Refuse imitations.

Herring Shipment

The schooners Fanny A. Smith and Hiram Lowell left Bonne Bay yesterday with 1,425 and 1,508 barrels of herring, respectively. The former has gone to Gloucester and the latter to Bucksport, Maine. The schooner Elizabeth E. will load at Woods Island for Bucksport. The herring which were scarce at the beginning of the season are now becoming plentiful and the aggregate catch will likely be as good as last year.

Fishermen

Have Awakened.

The fishermen of this country are as progressive as those of other countries is proven by the number of engines daily being sold, and that they are wide awake as fishermen of other places is shown by the desire to get a FAIRBANKS when once they see it. Newfoundland fishermen have awakened to the fact that the FAIRBANKS Type "M" engine is the best engine for their purposes. It is simple yet durable and reliable, is made to run even though water is pouring over it.

Another Outbreak of Diphtheria.

Diphtheria is still on the increase and threatens to appear in every section on the different coasts. Yesterday afternoon Dr. Brehm was apprised by a message from the Magistrate at Burin that an outbreak of diphtheria had occurred there and that three persons had contracted it. Dr. Parker is attending to the sick ones and has taken all precautionary measures to prevent the disease from getting headway.

Big Snow Fall.

The storm which raged across country yesterday was the most severe for the season. A gale of N. E. wind blew and snow covered the ground to the depth of 2½ feet. In the afternoon the wind dropped off to the N. W. and it froze hard, though the trains were not impeded and ran with plows attached.

Hurt On Railway.

While one of the firemen of an engine on the Bonavista Branch was stooping over the steps of the cab, a couple of days ago, looking for a hot box, he was hit in the head by the cattle guard and thrown to the ground. He was badly cut about the face and bruised about the body and was taken to the residence of Mrs. Butler where he was looked after. The accident occurred near Shoal Harbour.

WITH THE ADVENTISTS.—"The Culmination of the Christian's Hope," is the subject at the Adventist Church, Cookstown Road, Sunday night. Come, you are welcome. Seats free. Service 6.30.

Beatrice Meets it Rough

The S. S. Beatrice put in here yesterday out of the storm. She was bound from Bell Island to Sydney, ore laden. The steamer met boisterous weather, making slow headway, and after being six hours out in it the captain decided to put into St. John's to await the storm to moderate. The vessel left for her destination to-day.

Minard's Liniment Co. Ltd.
Gentlemen,—In July 1905, I was thrown from a road machine, injuring my hip and back badly and was obliged to use a crutch for 14 months. In Sept. 1906 Mr. Wm. Outridge of Lacchu urged me to try MINARD'S LINIMENT, which I did with the most satisfactory results and to-day I am as well as ever in my life.
Yours sincerely,
MATTHEW B. BAINES, mark

WORK SUSPENDED.—All work on shipping along the waterfront yesterday was suspended owing to the storm. The upheaval of the sea in the harbor was great causing vessels to pound against the piers and a number of crafts had remove off in the stream to anchor where some of them dragged their anchors and drifted down the harbor.
