MARKET REPORTS
indicate that there is no surplus of Anthracite Coal in the U.S. The shortage caused by the strike of Anthracite Miners last year has not been made up, and American hard coal will, in all probability, be hard to get and high priced. Coke is an excellent substitute for hard coal, and we have on hand a stock of same that will soon be disposed of, because a shortage of hard coal invariably creates an increased demand for our product.
We advise our customers to book their requirements as soon as possible.

The Will
There comes a time in the life of every man when he must leave his worldly possessions to the care of another. In anticipation of this, therefore, the first obligation resting on an individual who is possessed of property is the making of a will, and this should be done before the capacities become impaired by time or the ravages of disease.
THE MONTREAL TRUST COMPANY will act as Executor for Estates large and small. It is thoroughly equipped to efficiently and economically undertake the administration of Estates and will carry out the intentions and desires of the Testator, bearing in mind at all times the best interest of the Estate.
