Business Education!

THE importance of a thorough Business Education is pressing itself upon the attention of commercial circles more and more every day, and its advantages are perhaps more emphatically shown by nothing more than by the vastage ground on which it places the fully trained clerk above the imperfectly trained one, when looking for a situation.

THE BRITISH AMERICAN COMMERCIAL COLLEGE has in full operation such a course of instruction as to give it practical fitness to do the work proposed. An important characteristic of this Institution is its maturely organized actual business system, whereby the College is made a type or model not only of an extensive business house, but even of a large trading community. Another distinctive feature of this College is that it attends to no extraneous teaching. Its work is one, and to the accomplishment of that work every effort is directed. Just as the University and Grammar Schools must be separate institutions, so the Commercial College and the Elementary School must be distinct. Common sense and experience alike show that such a combination is not compatible with efficiency.

The time required to complete the full course varies considerably, according to the attendance, attention and ability of each student. Young men however are earnestly cautioned against the injurious practice of hurrying through the course from the mistaken idea that they will thus be gainers by the saving of money in the item of board. Infinitely more advantageous would it be to the student, since his full course of tuition is already paid for, to incur the comparatively small additional expense of a few weeks board in order to make himself completely master of the course; and thus, by a small present outlay, qualify himself for some lucrative situation. The crudeness that such haste entails is highly detrimental, not only to the student himself, but also to the College where he graduates; and, besides, it brings reproach on Commercial College generally. The common practice, therefore, of holding out this crowding system as an inducement to students is most deceptive and highly reprehensible.

We were again awarded the First Prize at the late Provincial Exhibition, Kingston, for the best specimen of Business Penmanship, and an Extra Prize for our system of Writing.

INDIA & CHINA TEA COY.

Home Depot at London and Liverpool.
Canada Depot, 23 Hospital Street,
Montreal.

THIS India and China Tea Company beg to call the attention of the Canadian community to their directly imported Teas, which for purity and excellence will be found unequalled.

The Company have made arrangements whereby they have secured the entire produce of some of the best plantations in Assam and on the slopes of the Himalayas, and by a judicious blending of these magnificent Teas with the best varieties of Chinese produce they are enabled to offer to the public Teas of quality and flavour hitherto unknown to the general consumer. These Teas are in high favour in England and France, and a single trial will prove their superiority.

The Company supply two qualities only, either Black, Green or Mixed. Their Black Teas will be found to possess great brilliancy and flavour, combined with colour and strength, and to be entirely different to the flat and rapid article usually sold as Black Tea; while their Green Teas are altogether free from the deleterious mineral powder so commonly used for coloring the leaf.

PRICES: Rich, full-flavoured Tea, for family use a real genuine and fine article 70 cents per lb. Finest quality procurable, one dollar per lb.
The above can be had either Black, Green or Mixed.
To be had in packets of Quarter Pound Half Pound, One Pound, and upwards, or in tin canisters of 5 lbs. and upwards, from the Company's Agents in all the chief towns of Canada—N.B. All the packages are lined with tin foil paper, and the Tea will consequently retain its flavour any length of time.

OSWEGO—All packages have the Company's trade-mark, without which none are genuine.
