Mr. John Charlton Elected by Acclamation.

The Liberal Candidate for West

Dates of Meetings in the Interest of Middlesex Nominees-Bye-Election in Winnipeg.

MR. CHARLTON ELECTED.

Simcoe, Nov. 1 .- Mr. John Charlton and Mr. J. C. Ross, the two Liberal andidates in North Norfolk, met in Tilsonburg today with a number of the leading men of the party in the riding, and the result of the conference was to dissipate the misconceptions existing in many minds as to Mr. Charlton's position. Explanations satisfactory to all have been made and accepted, with the unanimous concurence of everyone present.

Mr. Ross placed his resignation in the hands of Registrar Donly, the returning officer. Mr. Charlton is now for the eighth time Liberal member-elect for North Norfolk. Mr. Ross stated his position in a most manly and straightforward manner. He was only solicitous that it should not be made to appear that the Liberals of North Norfolk were disloyal to the party or its Ottawa leaders. For his own part he did not desire a contest, and would be guided by advice from the local leaders. Mr. Charlton claimed that he should not be held responsible for constructions put upon what he had done by the Mail and other Tory papers. He was still a Liberal. He wished to be judged by his published address, and he was prepared to stand by it. If sent back to Ottawa he would accord the government a loyal support so far as he considered its future acts accorded with his published views. On a vote of confidence he would cheerfully support the government, and had given no pledge to

BAYLEY'S

The argument is often met with dured in the election of ex-Mayor Thomas ing the present campaign that many articles in common use are higher in price today than they were four years ago. Sometimes this statement is true, often as in the case of coal off it is entirely untrue. In no case can it be shown that higher prices are due to the Liberal party, but in every instance prices would be higher today than they are we dit not for the existing tariff. Binder twine is sometimes cited. The

truth is that the average selling price of binder twine during the Liberal regime has been lower than before, and the existing price, which is abnormally high, is due to the Phillippine war. The Laurier Government did all t could do to secure cheap binder twine by placing this article on the free list, and last year left in the cockets of the farmers of this country 102,000, which they would have paid in duties on the imported article had the Conservative porty been left in power. Barbed wire fencing and galvanized encing wire are sometimes mentioned, and yet both of these articles were, like binder twine, placed on the free list, thus saving to the farmer in the one case \$126,885, and in the other \$42,-980, being the amount of duty which the Conservative tariff would have collected on the importations into th

More particularly does it apply to cotton, woolens, lin ens, silks, fancy goods, hats, caps and bonnets, gloves and mitts, furs, umbrellas, drugs, dyes and chemicals, eurunenware, glassware, leather man-ufactures, books and printed matter, paper manufactures, vegetable clis, soap, and iron and steel manufactures. The total importations of these ar-

ticles last year amounted in value to \$50,000,000. Other articles could be mentioned, but these are the most important. In all of these lines Great Britain competes in our markets, and in most of them she supplies us with the largest proportion of our importa-It will be seen that the preferential

tariff compels a reduction in the price of most of the goods that come

from foreign countries, and this reduction benefits the Canadian people in addition to the direct reduction in the duties on goods imported from Great Britain. No Canadian government can control the price of commodities in the foreign market. All it can control is the rate of duty which is paid on such commodities when entering this country and in every instance it will be found that the Liberal Government has made substantial reductions. Republicans Says That Threats of

Democratic Leaders Will Prove of No Avail.

New York, Nov. 1.-The Republican national committee today issued a formal statement to voters, as follows: "Mr. Croker, the head of the Demo-cratic organization in New York, has ordered his associates to gather in force at the polls next Tuesday, and in case they see the result of the count going against them, to eject the election officers and take possession of the ballot boxes by force. This astounding anarchistic order has been approved and indorsed by Senator Jones, the chairman of the Democratic national committee.

The Republican party has always stcod squarely for a fair vote and an honest count. A dishonest election is possible only through has been threatened by the Democratic leaders because an equal number of is present at every polling place, and so long as these inspectors are not interfered with the voting must be conducted fairly. The Democratic plan officially declared now is to overpower the inspectors whenever their party exigencies appear to require violent in-20.19 terference.
"Notwithstanding the announcement

of this Democratic policy of terrorizing voters and burglarizing ballot boxes, the Republican national committee desire to state to the public that the Republic managers, national, state and local, have taken measures to insure the protection of the rights of every voter in the pending election, and that the votes shall be properly counted and The committee recorded as cast. therefore admonish all voters that they must not be deterred by these threats of the Democratic leaders from exercising the right of suffrage on Tuesday next; for every citizen is entitled by law to protection in this, his highest privilege, and we shall see to it that his vote shall also be protected, at all hazards."
