#### The Russian Seizures.

German steamer by a Russian volunteer ship, which passed through the Dardanelles and the Bosphorus under a mercantile flag. Today the British and Oriental Line, arrived at Suez, in Que., in September, charge of a Russian prize crew, flying naval docks at Hong Kong.

An international question of the first has the right to search vessels under a neutral flag for contraband of war, but the right of seizure is hedged about with many restrictions, and must be exercised with the greatest caution. uation is the conduct of Russia in send- ing her wooers according to her whims. ing ships through the Bosphorus, ostensibly as merchantmen, and arming them when they reached the Mediterranean. At the close of the Crimean war the treaty of Paris guaranteed the neutrality of the Black Sea. Its waters and ports were "formally and in perpetuity interdicted to the flag of war, either of the Powers possessing its coasts or of any other Power." This clause in the treaty reflects Great Russia from the shores of the Mediterranean. She feared the Mediterranean would become a Russian lake if Russia were allowed to build warships in the Black Sea and send them through the Turkish Straits.

tunity to repudiate this article of the der. treaty. At a moment when she knew it could not be enforced, she suddenly declared that she would no longer be bound by the restriction. In this she showed an utter contempt for international engagements, and placed the western powers of Europe in a hu- duty on tobacco did not afford the miliating position. Prince Bismarck Canadian tobacco grower more protecsummoned a conference and in March, tion. Mr. Brodeur, the Minister of In-1871, the clause was abrogated, though land Revenue, produced leaflet No. 4 the Bosphorus and the Dardanelles of the Conservative campaign literawere still interdicted to warships. At ture, in which smokers were called the outset of the present war the British Government formally declared that the treaty of Paris must be observed. Technically, Russia may not be violat ing it by sending merchantmen through the straits, and afterwards arming them, but there can be no doubt that the subterfuge is a breach of the spirit of the treaty. In the House of Commons, yesterday, in reply to General Laurie, the Under Secretary of State for Foreign Affairs admitted that the subject was of the utmost importance and was engaging the earnest attention of the Government. Naval orders have been issued, which indicate that Great Britain will enter more than passive protest. The Mediterranear squadron has been ordered to proceed at once to Alexandra and two fast cruisers will go through the Suez Canal and take their station in the Red Sea the scene of the Russian seizures.

It is reassuring to learn that Germany has taken the initiative in repudiating Russia's high-handed course. As an ally of Japan, Great Britain would be charged with seeking to take advantage of Russian misfortunes if she adopted energetic methods, while Germany remained inactive. The close friendship between Germany and Russia has not deterred the German Government from a vigorous assertion of its rights, and this example has made it easier for Great Britain to pursue a similar policy.

#### Commercializing Courtship.

A hero has been defined as "one who interprets and brings to a head the tendencies of the age." It is something in the conduct of the Montreal lawyer who is suing the father of his recreant spent in courting.

Toronto Saturday Night goes for the political parson without gloves in this

William Lowe, grand chaplain of Ontario West, the principal speaker at Wingham, is reported to have made some very sarcastic references to Sir Wilfrid Laurier's re fusal to adjourn Parliament over the 12th of July. His appears to be an instance of the bitterly partisan politician garbed in the vestments of the church and adorned with the regalia of the Orange Order. When Sir Mackenzie Bowell, for years grand master of the Orangemen, was in power at Ottawa, did he ever adjourn Parliament to further the 12th of July demonstrations? Mrs. Fairbanks tells how neglect of warning symptoms will soon prostrate a woman. She thinks woman's safeguard is Lydia E. Pinkham's Vegetable

Compound. "DEAR MRS. PINKHAM: - Ignorance and neglect are the cause of untold female suffering, not only with the laws of health but with the chance of a cure. I did not heed the warnings of headaches, organic pains, and general weariness, until I was well nigh pros-trated. I knew I had to do something. Happily I did the right thing. I took Lydia E. Pinkham's Vegetable Compound faithfully, according to directions, and was rewarded in a few weeks to find that my aches and pains disappeared, and I again felt the glow of health through my body. Since I have been well I have been more careful, I have also advised a number of my sick friends to take Lydia E. Pinkham's Vegetable Compound, and they have never had reason to be sorry. ## WONDERFUL CURE OF SORE HANDS

By Cuticura After the Most Awful Suffering Ever Experienced.

### **EIGHT DOCTORS**

And Many Remedies Failed to do a Cent's Worth of Good.

"About five years ago I was troubled with sore hands, so sore that when I would put them in water the pain would very nearly set me crazy, the skin would peel off and the flesh would get hard and break. There would be blood flowing from at least fifty places on each hand. Words could never tell the suffering I endured for three years. I tried everything that I was told to use for fully three years, but could get no relief. I tried at least eight different doctors, but none of them seemed to do me any good, as my hands were as bad when I got through doctoring as when I first began. I also tried many remedies, but none of them ever did me one cent's worth of good. I was discouraged and heart-sore. I would feel so bad mornings when I got up, to think I had to go to work and stand the pain for ten hours, and I often felt like giving up my position. Before I started to work mornings I would have to wrap every finger up separately, so as to try and keep them soft and then wear gloves over the rags to keep the grease from getting on my work. At night I would have to wear gloves in bed. In fact, I had to wear gloves all the time. But thanks to Cuticura, the greatest of all great skin cures. After doctoring for three years, and spending much money, a small box of Cuticura Ointment ended all my sufferings. It's been two years since I used any and I don't know what sore hands are now, and never lost a day's work while using Cuticura Ointment."

On the other hand, if he dislikes the noise, why doesn't he bolt out of the circle of sound, which it would be easy for him to do in the case of the carpetbeating, whereas instead he draws in closer and closer?
