The Best Cough Syrup is Easily Made at Home

Costs Little and Acts Quickly. Money Refunded if It Fails.

This recipe makes 16 ounces of cough syrup, and saves you about \$2.00 as compared with ordinary cough remedies. It stops obstinate coughs—coughs in a hurry, and is splendid for sore lungs, asthma, croup, hoarseness and other throat troubles.

Mix two cups of granulated sugar with one cup of warm water, and stir for two minutes. Put 2½ ounces of Pinex (fifty cents' worth) in a 16-ounce bottle, and add the Sugar Syrup. Take a teaspoonful every one, two or three hours. Tastes good.

This takes right hold of a cough and gives almost instant relief. It stimulates the appetite, and is slightly laxative—both excellent features.

Pinex, as perhaps you know, is the most valuable concentrated compound of Norway white pine extract, rich in quinine and the other natural healing pine elements.

No other preparation will do the work of Pinex in this recipe, although strained honey can be used instead of the sugar syrup, if desired.

Thousands and Canada now use this Pinex and Sugar Syrup recipe. This plan has often been imitated, but the success of the formula has never been equaled. Its low cost and quick results have made it immensely popular.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Toronto, Ont.

The Neal Three-Day Drink Habit Cure

The Neal Treatment consists of the administration of a perfectly harmless and purely vegetable medicine taken internally only and without any hypodermic injections.

The Neal Treatment and the methods of its administration are pronounced and conceded, by all who have investigated, to be not only ethical and professional, but entirely satisfactory. The sureness and success of the treatment in all cases has been demonstrated and proved by Doctor Neal, who during the past ten years has successfully cured upwards of five thousand of bad cases of the drink habit, without a single failure—each one in just three days.

The Neal Treatment is simple, yet very effective. Doctor Neal, after many years of the most painstaking professional and thorough study, experiment and investigation, has found and demonstrated that the drink habit instead of being a disease or an inherited affliction, is due to the stored-up poison in the system, coming from the continued and excessive use of alcohol.

After making this discovery and demonstration he found the antidote for alcoholic poison. The administration of this antidote results in the neutralization of the poison. Thus the doctor neutralized the poison is eliminated from the system, and the desire, appetite and craving for drink is at once destroyed or lost.

This is all accomplished in each case in from one to thirty-six hours, depending entirely upon the physical and mental condition of the patient. With this accomplished, nature, aided by the recuperative and building-up treatment, soon asserts its power, and at the end of three days the patient returns to his home in a normal and healthy condition.

The Neal Cure is the most effective and safest ever dedicated to the cause of greater human happiness. There is a buoyant air in the "God-bless-you" which daily are showered upon Neal Institutes by men redeemed.

WEST LONDON TO SECURE BRIDGE

County and St. Thomas Engineers Say Cost Can Be Kept Below \$25,000.

COST OF BREAKWATER

Report Requested By Ald. Richter Cannot Be Found—Lights For New District.

West London's bridge is almost an assured fact now, owing to the diligent efforts of members of the West London Progressive Association, and those members of the council whose aim it is to see fair play and justice given to that and every other section of the city.

A lengthy report made by Engineer Charles Talbot and Engineer Bell, of St. Thomas, to the city council Monday night on the advisability of erecting a concrete bridge with two piers in the middle of the stream, was read, and a guarantee made by the engineers that the bridge could be built for less than \$25,000 was explained by Mayor Graham.

With scarcely any discussion a motion was passed to call for plans and specifications for a steel bridge to conform to class "A." Ontario Government specifications, and that tenders be called for the erection of a bridge of three spans of 130 feet each in the clear, with two piers in the river, and a roadway 18 feet wide, with a sidewalk 6 feet wide. A motion to make provision for the city of London to pay a further issue of \$2,000 debentures for the erection of the bridge was passed.

As to the Breakwater. When all discussion of the bridge was quieted, Ald. Ashplant wanted to know what was being done about the breakwater, and if any steps had been taken to prepare an estimated cost of a permanent wall.

Ald. Richter asked if a report on the cost of a permanent breakwater had been prepared some years ago by Engineer Jennings, of the C. P. R. He was informed that the city clerk had made diligent search for the report, but could not find it. The discussion was then dropped, but it is likely that Ald. Ashplant or Richter will move to have an expert give an opinion on the question.

Ald. White asked if any move had been made to secure an expert to go over and make a report on the London and Port Stanley, but was informed by the mayor that the committee was still working on the appointment.

The Association of Companies wrote saying that it had made application to the Dominion Railway Commission asking that the areas of the district mentioned does not include Port Stanley and certain other portions in the newly-annexed territory, and several firms have protested against the Finance committee will go into the question.

The fire and light committee recommended that 271 lights be erected in the new districts, and the council granted the necessary permission. A recommendation from the same committee that the council call for tenders for a tractor was referred back, and catalogues will be asked for instead.

A copy of the report of the county council, composed of Messrs. F. Boyes, J. W. Laidlaw, John Stuart, James Robinson and W. D. Stanley, gave notice that it would confer with the council on the cost of maintaining the court house and jail, and also as to the amount the county should pay for patients in Victoria Hospital.

MOCK CITY COUNCIL RAPS ELECTRIFICATION

"Alderman" Munnoch Leads Able Attack on Pernicious Proposal.

The city council, in all its wisdom and grotesqueness, was emulated by some nine members of the Epworth League of the First Methodist, who formed themselves into a governing body on Monday night and administered justice and legislation according to the statutes and bylaws of the city constitution. The personnel of this body of councillors was as follows: Mayor, E. Dennis; council, Messrs. Gordon Munnoch, Horton, Harter, Clifton Munce, Thos. Edworthy, W. McCormick, Chas. Eastwood, H. Corpe and Jack Evans.

The advisability of issuing \$10,000 debentures for electrifying the L. and P. S. Railway was made a subject of, and Ald. Munnoch and Ald. Harter debated warmly over the question. Ald. Munnoch advanced every possible argument he could think of, counselling delay in regard to electrifying. He ridiculed the Gabby and Storor report, and criticized Hon. Adam Beck for withholding his report until November when it might have been presented in the summer months. As a businessman, he could not possibly perceive how electrifying would pay, and thought that due consideration should be given to the C. N. R. offer. The only possible advantage to Ald. Munnoch could see which would accrue from it was the fact that it would benefit hydro.

Ald. Harter juggled over figures to an extent, and dwelt on the advantages of having a modern railway. His statistics did not prove convincing enough, however, for when the yeas and nays were called the council stood 5 to 3 against electrifying. Those voting for electrification were Ald. Harter, Ald. Edworthy and Ald. McCormick. Later in the evening, on receiving more information, Ald. Harter broached the question, and received a two-thirds vote for reconsideration of the matter. He immediately held a straw vote of the audience, and without counting the hands declared that the vote of the people had declared in favor of electrifying.

It was a most unsatisfactory ending for the majority of those present, but before an indignant protest was sent in, Mayor Dennis declared the matter closed. The police will not receive an increase in salary, while the firemen will. This question was quickly disposed of.

The matter of supplying the Epworth League with Bibles was laid over for future consideration. One of the aldermen considered that the league members were already proficient in religious matters.

Lights in the vicinity of the east end fire hall were also considered essential, and an order was given for their immediate installation. Council adjourned.

Mr. Ed. Webster favored with a solo during the evening.

LOVING CUP FOR MAJOR H. C. BECHER

Honored By His Old Company On Occasion of Appointment to Staff.

The annual banquet of B Company of the Seventh Regiment was held on Monday evening in the grill room of the Tecumseh House, and the attendance was the largest of any of the banquets held by this company, as the members wished to show their appreciation of Major H. C. Becher, who has been promoted to the staff. Major Becher has been connected with the Seventh Regiment for fourteen years, and for a number of years has been in command of B Company. Lieut. Biggar will have charge of the men until the appointment of Major Becher's successor.

The members of the company presented their retiring captain with an engraved loving cup, as a token of the

MAJOR H. C. BECHER, presented with loving cup by members of "B" Company, Seventh Regiment, on the occasion of his promotion to his present rank.

regard in which he is held by the non-commissioned officers and men of the company, which is one of the strongest in the regiment. The presentation was made by Sergt. Sangster, and the address was read by Color-Sergt. Butler. The speakers were Major Becher, Major Gordon-Hall and Lieut. Biggar.

Major Gordon-Hall gave an instructive and interesting address on military matters and made a comparison between the qualifications and needs of the soldier some hundred years ago and at the present time. The speaker pointed out that physical training plays an important part in the life of a soldier, and advised all present to do their utmost to improve their physical condition. The soldier of today does not need to be as well trained in manual drill as formerly, as much of the training of a campaign depends upon the officers in charge of the different units.

The election of officers and committees resulted as follows:

Secretary-Treasurer—Sergt. E. A. Gibson.

Auditor—Sergt. Harry Sangster. Sports Committee—Lieut. Biggar, convener; Sergt. Penny, Ptes. Lashbrook, Brodhead and W. J. Smith.

First Committee—Color-Sergt. Chester Butler, convener; Corps. Frith, Steele, Ptes. McPhail, Webb and Watts.

Amusement Committee—Sergt. Sangster, convener; Corp. Groshev, Lance-Corp. Pope, Ptes. Paul and Wilson.

UNIVERSITY TO RECEIVE \$10,000 YEARLY GRANT

City Applies to Legislature For Permission to Double Amount.

A recommendation from the finance committee to the city council on Monday night that the city ask the Legislature for permission to pay to the board of governors of the University of Western Ontario, a sum not exceeding \$10,000, as may be agreed upon between the city and the board, commencing on the 1st of June, 1913. The grant recently expiring amounted to \$5,000.

A second recommendation that the board of governors be composed of the following carried: four members of the city council, one member of each faculty, when the number of its undergraduates does not exceed 1,000; and when they do, every affiliated college may appoint one representative when the number of its students taking the extended course exceeds 1,000; one member of the city council, one member of the university, and one member of the public body paying money yearly to the maintenance of the university may, in like manner as the city, appoint a member or members in number in the same proportion to the year as the number which the city may appoint bears to its yearly payment; all such appointments shall take effect in the year 1913.

TWO YEARS OF NEEDLESS PAIN

THEN MRS. MCREA FOUND A CURE IN DODD'S KIDNEY PILLS.

Other Medicines May Help, But Dodd's Kidney Pills Always Cure—That's Why They Are Woman's Friend.

Prevel, Gaspe County, Quebec, Feb. 17.—(Special.)—Mrs. John McRea, wife of a well-known farmer, living near here, tells of her remarkable recovery from an illness of two years' standing.

"I was a sufferer from kidney disease, brought on by a cold and a strain," Mrs. McRea says. "My eyes were puffed and swollen, my muscles cramped, and I suffered from neuralgia and rheumatism. My back ached and I had pains in my joints."

"For two years I was under the doctor's care, but he never seemed to do me any lasting good. Then, on the advice of friends, I started to use Dodd's Kidney Pills."

"Two boxes made a new woman of me."

"There's only one sure cure for kidney disease, and that is Dodd's Kidney Pills. Other medicines sometimes help, but Dodd's Kidney Pills always cure. If you are a suffering woman, here is a certainty, you have tried Dodd's Kidney Pills, for ninety per cent. of the ills of women come from bad kidneys."

first instance, on the 1st day of June, 1913, when the term of office of the members of the present board shall expire, in the event of failure, at any time, to make any of such appointments, for one month after notice of any vacancy, the then existing board shall fill all vacancies. The chancellor and the president of the university shall also be always members of the board ex-officio. Every member of the board must also be a British subject, domiciled in some part of the British Empire.

DRAYMEN ARE ALLOWED TO STAND ON YORK ST.

Aldermen Ashplant and Johnston Suggest Plan That Council Approves.

The draymen will again likely be allowed to stand on York street and so-called business at the rear of the Grand Trunk depot, some time ago, acting on a petition signed by the wholesalers, whose warehouses front on York street between Clarence and Richmond streets, the council decided to move the draystand from the rear of the depot to the corner of Clarence and Richmond streets. The draymen on several occasions have endeavored to have the council give them permission to go back to the old stand, and at the last meeting of the board of works the question was thoroughly discussed, and a motion to the effect that no action be taken on the request was sent to the council.

When the recommendation was read at the council meeting Monday night, Ald. Ashplant objected to saying that he thought a little consideration was due the draymen, and that the question should be sent back to a committee, composed of the chairman of the standing committees.

After considerable argument, during which several amendments were offered, it was decided to act on Ald. Ashplant's motion, and to add a rider made by Ald. Johnston to the effect that the committee consider the advisability of allowing the draymen to stand on York street between Wellington and Clarence streets, and that two men be allowed to stand behind the depot. When one man secured a job and moved, another from those waiting could drive up and take his place.

Mayor Graham threw a little cold water on the scheme by pointing out that he was doubtful whether the council had any right to give the draymen permission to stand or to aggregate in front of any ratepayer's property.

A bylaw to fix the salaries of two stenographers, the firemen and employees of the board of health, was referred back to the finance committee, after receiving its first reading.

CORRESPONDENCE

The A. O. U. W. Difficulties.

To the Editor of The Advertiser:

It is now a fact, as public property, that the A. O. U. W. is in serious difficulties. This is no surprise to me, as some time, fourteen years ago, I desired to satisfy myself for my own protection, as to the stability of the order. I purchased a most complete and accurate lodge, and from them I abstracted the number of members at the various ages, also the amount of their calls each month and from the probabilities of life. I estimated the loss which would sustain at the death of each member. Now there is a limit to the possibility of all things, and from the estimates I made, I arrived at the conclusion that the order, by a strict interpretation of Providence, which I had no right to expect, the order could not continue to exist longer than up to 1913. There was no guesswork about facts before me, and time will not alter my conclusions were right or wrong.

I am in correspondence with the inspector of fraternal insurance, and by his leave I abstract from his correspondence what I think every member and the public should know.

Toronto, Feb. 3, 1913.

Friend Attwood: I have to thank you for sending for perusal an article written by yourself, which appears in the "Crown Newspaper" published in Detroit, dated 1898. Of course, you were on the right track in those early days, and if the order had taken your advice of caution, contained in your article, and time will not alter my conclusions were right or wrong.

As a proof of the standing of the order, the total receipts for the month of September was \$75,372, and they paid out \$154,046, October receipts were \$74,372, and they paid out \$131,046. December receipts \$128,372, expenditures, including interest \$153,474. Like a waterlogged ship, the excessive payment over receipts shows something is seriously wrong. The pity of it is that many of the brethren have, and still are, inducing new members to save the order, as I understand there are 70,000 members, who are between sixty and seventy years of age, who will probably claim from the order in the next fifteen years, the sum of \$14,000,000. Perhaps you can tell where that money is to come from to pay those claims, for I cannot. The order meets in grand lodge in March of this year, and if they refuse or do not do something for themselves, most likely the Government will step in, take charge and endeavor to protect the old members. I return you the paper which I have read with much interest, and you are at liberty to use my letters in any way you deem advisable, yours truly.

(Signed) V. J. VALE, Registrar of Fraternal Insurance, Toronto, Ontario.

To A. C. Attwood, Esq., J. P. Van-der-Donk.

I am pleased to know that the stand I took and the article I wrote fourteen years ago, which was simply deductions from grand lodge reports, is today being published in such good authority. At one time the order had \$44,000,000. Today it has only \$29,000. It has lost during the past year 8,000 members, and is now losing about a thousand a month. It is now in a desperate straits, and is now looking for a loan of \$54,000 in options, shaking off those old members at a cost of \$400, each, saving thereby \$1,600, but it is something like the boy who lost out to the order, and he was doing so he was shaking off five times as many green ones. I have no desire to talk down the A. O. U. W. for it has been a grand old order, and has done a lot of good. The mistake was made by taking in middle-aged men and old men at too low a rate. Something like a boy I knew. He started to buy up old horses. The result was all the old horses in the country were brought to him and he bought them. Result, a bonanza at the back of his farm. Should the A. O. U. W. become bankrupt or defunct, it will be a great disappointment to myself as well as others, for at one time I regarded it as safe, as the Bank of Montreal, I do not believe there has been any Farm-

ers' Bank chizzling about it. Still the final result may be similar, yours truly, (Signed) A. C. ATTWOOD, Vanneck, Ontario.

LIEUT. RUEL SAVED LAD FROM DROWNING

Ventured Out Over Thin Ice, Which Broke as He Reached Boy.

SARNIA BRANCH OFFICE, 209 Front Street. Office hours, 9 a.m. to 5:30 p.m., 5:30 p.m. to 6:00 p.m.

[Special to The Advertiser.] Sarnia, Feb. 18.—Lieut. Andre Ruel, the well-known aviator and former officer of French cavalry, whose marriage to Miss Ankers-Holt took place at the Sarnia Indian reservation over a week ago, rescued a young lad from drowning in St. Clair River yesterday afternoon.

The boy had been playing on the thin ice, which gave way under his weight. The bystanders on shore were powerless to aid, apparently Mr. Ruel and his wife were walking down Cromwell street at the time, and noticed the struggling youth in the river.

The lieutenant did not hesitate an instant, and running to the scene he sprang upon the treacherous ice and made his way toward the drowning boy. He succeeded in reaching the lad, and had pulled him half-way out when the ice again broke, precipitating the two into the icy water. The lieutenant managed, however, to get both the youngster and himself to shore and safety after much struggling.

WINTER NAVIGATION ON THE ST. CLAIR

Many Big Freighters Are Busy Unloading Grain at the Elevators.

[Special to The Advertiser.] Sarnia, Feb. 18.—The tug Fischer left for Point Edward again yesterday afternoon to shift one of the boats there from one dock to another. Winter navigation on the St. Clair River this year has become an accustomed sight, and it is worthy of note that this is the first winter in several years that there has been so much activity on the river during January and February.

The number of big freighters that have been unloading grain at both the Port Huron and the Point Edward elevators have kept the tugs fairly busy, and taken away to a considerable extent the appearance of desolation so common to the river front during the two coldest months of the year.

The clear weather that has prevailed ever since the first of the year has given several of the boats the opportunity to do much repair and painting work, thus giving them a chance to get a far earlier start when navigation opens.

The clear weather that has prevailed ever since the first of the year has given several of the boats the opportunity to do much repair and painting work, thus giving them a chance to get a far earlier start when navigation opens.

JUMPED HIS BAIL

Indian Lister Now Goes to Prison for Six Months.

[Special to The Advertiser.] Sarnia, Feb. 18.—William King was sentenced to six months in Central Prison for supplying liquor to an Indian and jumping bail. King was arrested three months ago on the first charge and allowed to go on bail till the time of his trial. He skipped across to the States, where he has been ever since. Sunday, however, he came over here doubtlessly thinking his offence had been forgotten. He was recognized and arrested.

BROKE HIS ARM

[Special to The Advertiser.] Sarnia, Feb. 18.—Gordon Hemstead, a 4-year-old boy while playing around his parents' home yesterday fell and broke his arm. Dr. MacDonald was called and the lad is reported to be improving today.

ARKONA MEETING

Splendid Program Has Been Arranged for Methodist Convention.

Arkona, Feb. 18.—A convention will be held in the Methodist Church next Friday. The afternoon session commences at 1:30 o'clock and the evening session at 7:30.

The following speakers will address the meetings: Rev. R. L. Wilson, Keweenaw; Rev. F. L. Barwell, B. A. T. U.; Rev. W. R. Pentland, Watford; Rev. H. E. Curry, Watford; Rev. H. Kennedy, B. A. D. Watford; Rev. H. D. Moyer and Mrs. G. W. Thompson, Petrolia.

Arkona, Feb. 18.—The Misses Dinah Dadds and Bena Bryson, of Watford, are visiting at Mr. Robert Riggs'. Mrs. (Rev.) Johnson, of Camanche, is also here.

Cold Settled On Lungs.

LEFT THEM IN VERY WEAK STATE.

A cold, however slight, should never be neglected, for if it is not treated in time it will, in all possibility, lead to bronchitis, pneumonia, asthma, or some other serious throat or lung trouble. Obsolete coughs and colds yield to the grateful, soothing action of Dr. Wood's Norway Pine Syrup, containing as it does all the lung healing virtues of the Norway Pine tree.

Mr. G. G. Rhynard, Mill Village, N.S., writes:—"I have had occasion to use Dr. Wood's Norway Pine Syrup, and can say that it is certainly a good medicine. About a year ago I contracted a severe cold, which settled on my lungs, and left them in a very weak state. The cough racked me terribly, and I was in despair, until a friend advised Dr. Wood's Norway Pine Syrup. I took five bottles, and it cured me of my cough, and left my lungs strong and well."

Price, 25c and 50c.

Be sure you get "Dr. Wood's" when you ask for it. See the three pine trees, and the trade mark.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Who's that knocking at the kitchen door?

Why, it's Mrs. Edwards round again—she's always ready to lend a hand with the cooking. That nourishing home-made Irish soup of hers is a real dish-of-all-work—useful in a hundred ways.

It's fine and tasty by itself. It's the secret of a savoury sauce. It's the making of a made dish. And, to bring out the goodness of your own soup and gravies and hashes and meat puddings there's nothing like adding

EDWARDS' DESICCATED SOUPS

Prime beef and the finest of Irish vegetables—that's what Mrs. Edwards puts in it; nothing but what's pure and delicious. As there is no strong added flavouring, it will blend perfectly with any other soup. Remember to boil it for half an hour.

5c. per packet.

Edwards' Desiccated Soups are made in three varieties—Brown, Tomato, White. The Brown variety is a thick, nourishing soup prepared from beef and fresh vegetables. The other two are purely vegetable soups.
