FARM HAND IS VICTIM OF HEAT

Arthur Sherwood Found Dead Under Tree Near Simcoe.

[Special to The Advertiser.] SIMCOE, July 13.—Arthur Sherwood, aged 33, a returned soldier was found dead under a tree tonight on the farm of W. McCoy of Windham Township. Death was due to heat prostration. Sherwood had been at work in the field all day shocking corn and apparently went to lie down late in the afternoon. When he did not come in for supper an investigation was made and his body was discovered. He was an Australian by birth. An inquest will be held.

TRIED TO SAVE HOSPITAL SHIP

Petty Officer Says Commander Would Not Listen To Pleas.

LEIPZIG, Germany, July 13.—At the continuation today of the trial in the supreme court here of the two German submarine lieutenants, Ludwig Dittmar and Johann Boigt, charged with murder in the first degree for firing on lifeboats off the Canadian hospital ship Llandovery Castle had been torpedoed in the summer of 1918, Petty Officer Poutz of the submarine which sank the ship said the German always suspected hospital ships, which they considered a danger to submarines. Poutz declared he and Lieutenant Dittmar tried to persuade Commander Patzig of the submarine not to attack the hospital ship, but the submarine diver, fired two torpedoes and came to the surface. The witness testified he saw three or four lifeboats and several men swimming, then the crew of the submarine was ordered below deck. The general feeling prevailed that something unfortunate had occurred, Poutz declared. Later he heard firing and assumed lifeboats were being fired on.

MRS. MARTHA LLOYD FOUND DEAD IN HOUSE

Mrs. Martha Lloyd, an aged woman living alone at 16 Bathurst street, was found dead at her home last night by Mrs. Florence Nixon, her daughter. Mrs. Nixon called at her mother's home on Sunday last, and as the door was locked she concluded that Mrs. Lloyd was away. Last night she called again, and on receiving no answer to her knock she entered, finding her mother dead. None of the neighbors recall seeing Mrs. Nixon during the past few days. It is thought that death was due to heat prostration. The deceased was 64 years old.

STOP ADVERTISING FOR IMMIGRANTS

TORONTO, July 13.—A deputa-tion of ratepayers urged the board of control today to petition the Dominion Government to stop advertising in Great Britain for immigrants. The suggestion was accepted, and if the Government declines to comply the board will advertise Canadian unemployment conditions in the English papers.

WORMS DESTROYING MANY TOBACCO PLANTS

LEAMINGTON, July 13.—The crops of tobacco in this district are being damaged by the tobacco worm. This worm, if allowed to remain on the plants, causes much destruction, as it eats the leaves. The farmers are combating the worm by allowing chickens and ducks to remain in the fields, and in this way get rid of a large number of the pests. The most common method of destroying them, however, is the use of a mixture of paris green and arsenate of lead mixed with water. Care must be exercised, however, in the use of this solution that the plants are not burned by using too strong a solution.

OFFERS PRIZE FOR SINKING WARSHIP

PATERSON, N. J., July 13.—The first United States crew to capture or sink a Japanese warship in event of war between the United States and Japan would receive a prize of \$500,000, according to the will of O. H. Fritzsche, former Paterson engineer, made public today. It was received here from his son, Dr. Fritzsche, who died on January 1.

DEATH ACCIDENTAL IS JURY'S FINDING

Majority Vote Rules After Two Hours of Ineffective Argument.

[Special to The Advertiser.] STRATFORD, July 13.—After being out until 12:45 this morning the jury which investigated the death of Gordon Schmidt, who was killed at Shakespear yesterday, returned a verdict that death was accidental. For two hours the jurors argued, some of them being in favor of blaming the driver of the car, it is stated. Finally feeling that there was no possibility of a unanimous verdict a vote was taken, and the majority voted in favor of accidental death. Schmidt was killed by being struck by an auto driven by Robert Reiger of Woodstock.

MANY THIRSTY ONES WILL BE DISAPPOINTED

TORONTO, July 13.—Ontario goes "bone dry" on Monday next, July 18, and many Ontario people who neglected to order their wet goods from the eastern exporters until the last minute will be disappointed. A number of brewing companies are being flooded with orders from local people through the exporters, but they have already notified the exporters to send no more, as they cannot fill all they now have before Monday. After Monday Ontario people will have to depend on cellar stocks and the government dispensaries, which will deal out quantities for sacramental and medicinal purposes.

CROPS WERE GREATLY BENEFITED BY RAIN

Splendid Growth Now Being Made in Granton District.

GRANTON, July 13.—Farmers all through this district have benefited greatly by the recent rains. There had only been one shower in this district in four weeks, and everything was burning up. So intense was the heat around here that horses were playing out at hayracks and cutting hay, while every farmer with windmills was experiencing great difficulty in getting enough water to keep his stock and crops. As there was no wind to pump in this district for six days. There is a lot of hay and corn on the ground, and also a lot of wheat. Some is stock and some is lying in sheaf. The general opinion is that those who have not cut are the best off, as it is remaining very close and hot, and the wheat may sprout and grow in the sheaf. Had the rain not come there would have been no early potatoes or turnips. Corn, oats and barley up to now have made little or no growth, but will advance very quickly. It is the opinion of the farmers in this section of the country is filling the silos with sweet clover. This scheme has been progressing during the past week, and if this idea proves a success when the farmers come to feed it in the winter, it will be a boon, as the corn crop each year costs the farmers large amounts of money and labor. The Methodist Sunday school held its annual picnic to the Osgoode Grove. Owing to the excessive amount of work not many men were there, however. All those present enjoyed a good time. Quite a large number from here attended a Orange parade in London yesterday.

REORGANIZED CHURCH OF L. D. S. AUTHORIZED TO PERFORM MARRIAGES

Rev. Frank Gray of this city, publicity agent for the Reorganized Church of Latter Day Saints, takes exception to the report from Toronto relative to the announcement that after October 1 no clergyman who is not registered with the provincial authorities will be permitted to solemnize marriage in the province, and that the act does not recognize in any event certain denominations, including the Church of Latter Day Saints, Mr. Gray declared to be incorrect. A decision, he avers, by the supreme court at Osgoode Hall in 1893 in a test case, gave the ministers of the Reorganized Church the right to perform the ceremony of marriage. The judgment was based, he states, on the revised statutes of Ontario.

INTERIM CERTIFICATES WILL BE GRANTED

TORONTO, July 13.—The minister of education, Hon. R. H. Grant, has announced the results of the courses of training for public and separate school teachers at the normal schools at Hamilton, London, North Bay, Ottawa, Peterboro, Stratford and Toronto. Candidates who failed to obtain the necessary standing for interim first or second-class certificates, but whose marks bring them within the provisions of the normal school regulations, will be granted interim second or limited third-class certificates, and upon passing at a later date will be granted interim first-class or second-class certificates as the case may be.

NEW OFFICERS ARE INSTALLED AT DURHAM

DURHAM, July 13.—At the regular meeting of Grey Lodge No. 183, I. O. O. F., last night, District Deputy Grand Master W. J. Burrows of Drayton, was installed as the new installation team, Messrs. Wilson, Smiley, Lee and Walker. They installed the officers for the latter half of 1932, as follows: N. O. W. Irwin, P. G.; Allan Bell; V. G. Bert Stonehouse; recording secretary, Calvin Kinney; financial secretary, J. A. Graham; treasurer, P. Ramage; warden, D. Nichol; conductor, R. Whitmore; chaplain, Chas. Ritchie; R. N. G. W. B. Vollett; S. N. G. Guy Kearney; R. S. V. G. John Ritchie; L. S. V. G. F. Murdoch; R. and L. S. S. V. G. Murdoch; J. G. Cameron; and O. G. John McKenzie. Following the installation a pleasant hour was spent in addresses by local and visiting brethren, followed by refreshments.

WAGE PAY CUT AT ONCE

Same Reductions To Become Effective As Were Made in States.

CUT AVERAGES 12 PER CENT

Wages and Working Conditions Being Discussed At Conference.

MONTREAL, July 13.—Thirty thousand men are affected by the tentative agreement reached tonight by the Railway Association of Canada and the representatives of the locomotive and car departments of the leading Canadian railwaymen. The reduction of wages effective immediately is eight cents an hour, and the railways involved are the Canadian Pacific, Canadian National, the Grand Trunk and the more important of the smaller Canadian railways. The agreement was signed by Grant Hall, vice-president of the Canadian Railway Association, and the representatives of the railwaymen. The tentative agreement does not preclude the pending negotiations for a general revision of rates of wages and conditions of labor.

AGREEMENT REACHED. MONTREAL, July 13.—A tentative agreement has been reached by the Railway Association of Canada and the representatives of the locomotive and car departments of the leading Canadian railwaymen. The agreement was signed by Grant Hall, vice-president of the Canadian Railway Association, and the representatives of the railwaymen. The tentative agreement does not preclude the pending negotiations for a general revision of rates of wages and conditions of labor. A conference between shop employees of all roads and officials of the Canadian Railway Association took place today when a number of matters affecting wages and working conditions were under discussion. When maintenance-of-way men meet the association next week, practically all conferences will be completed. One result of the trip will be that a steady drive will be initiated in the United States for congressional action looking toward the introduction of legislation providing for the participation of the U. S. in the work. Will insist on this. The New England states are especially insistent on this course. C. P. Craig of Duluth, the managing director of the association, expresses the opinion that a bill will be introduced at the fall session of Congress and that the U. S. will be in a position to provide for the maintenance-of-way men. That such a move on the part of the U. S. would be treated from a co-operative viewpoint by Canada is indicated by the fact that the U. S. has already agreed to take on the maintenance-of-way men of the Canadian Government.

BROKE BLOOD VESSEL WHILE SWIMMING

W. R. Fulton Meets With Accident At Port Stanley Camp.

PORT STANLEY, July 13.—Mr. and Mrs. W. R. Fulton of St. Thomas, who are staying for the season at the Maple Leaf cottage, Williamstown, had their holiday marred today, when Mr. Fulton, while swimming, ruptured a blood vessel in his leg. Other relatives present tried to pull him to the shore, but he was unable to do so. A considerable time will elapse before he recovers. The Heights were gay today with about two dozen small family parties and several large picnics. Part of the Hamilton Road Presbyterian Sunday School, London, escorted by Mrs. J. J. McNeil, Mrs. D. Williams and Mr. J. J. McNeil, held a picnic on the hill today. Bathing was included in the program, followed by a hearty meal, which the children and adults enjoyed. The Edna Rebekah Lodge of St. Thomas, which held here today, about 50 members sat down to supper, during which Mrs. C. Burney presented a beautiful silver rose bowl as a gift from the lodge, to the newly-wed, Mrs. Maylon Potts. The Edna Rebekah Presbyterian Church choir, with their friends, numbering 50, held their annual outing today. Upon arrival the party enjoyed a dip in the lake, and later refreshments were served on the Heights.

ENGINEERS ACCEPT WAGE REDUCTIONS

Majority of Members in Favor of Taking Lower Wage.

LONDON, July 13.—The engineering unions today voted in favor of accepting the wage reduction proposed by the employers. There was a substantial majority in favor of acceptance.

TO MAKE VALUATION OF ELECTRIC PLANT

OTTAWA, July 13.—J. U. Fairlie, railway engineer of the Ontario Hydro-Electric Power Commission, who is in charge of the valuation of the plant of the Ottawa Electric Railway, has written Mayor Plant that the commission has no objection to his being present at the valuation of the plant. The valuation of the plant is being made by the Ontario Hydro-Electric Power Commission, and the Ottawa Electric Railway is being valued by the commission. The valuation of the plant is being made by the Ontario Hydro-Electric Power Commission, and the Ottawa Electric Railway is being valued by the commission.

PURSE FOR NEW RECTOR

[Special to The Advertiser.] STRATFORD, July 13.—Prior to his departure for England, the new rector, Father Gaffney, who has been curate at St. Joseph's Church here, was honored tonight by the men of the congregation by being presented with a purse of \$400. The presentation was accompanied by the good wishes of the church for his success at Clinton.

Committee Suggests Advance

of a Loan As Working

Capital.

LONDON, July 14.—The parliamentary committee's report on canteen funds states that there has been handed over to the United Services fund a sum of \$2,000,000. The committee is of the opinion that the maintenance of some permanent canteens organization is desirable, but considers that navy and army institutions should not be financed with money derived from ex-service men, even in the form of an interest-free loan. The committee suggests that the treasury advance the loan as working capital with repayment extended over a ten-year period. The committee has not solved the question of the canteens, but the total profits of the expeditionary force canteens were \$100,000,000. This organization is the most important of the expeditionary force canteens, and the committee suggests that the treasury advance the loan as working capital with repayment extended over a ten-year period. The committee has not solved the question of the canteens, but the total profits of the expeditionary force canteens were \$100,000,000. HOOVER UNABLE TO JOIN EXPEDITION

Delegates Are Now Enthusiastic Boosters of Waterways Plan.

OGDENSBURG, N. Y., July 13.—(By Canadian Press).—Owing to the accident to the propellers of the steamer Cape Eternity at Niagara, the inspection tour of the delegates from the Great Lakes-St. Lawrence-Tidewater Association of the proposed St. Lawrence River deepwaterway has been materially changed. It was planned to inspect the Lower St. Lawrence today and proceed to Quebec tonight. Now, the delegates will be entertained by the St. Lawrence River commission, and the Montreal civil officials. The delegates will spend Friday in Quebec and disband there instead of in Montreal. This change of plans was arranged tonight following wireless communication with the officials at Montreal. The delegates will be entertained by the St. Lawrence River commission, and the Montreal civil officials. The delegates will spend Friday in Quebec and disband there instead of in Montreal. This change of plans was arranged tonight following wireless communication with the officials at Montreal.

Hoover Cannot Come. Telegrams received from Secretary of Commerce Herbert Hoover today confirmed the report that he would be unable to join the expedition as the official representative of the United States Government. Mr. Hoover was to have boarded the Cape Eternity here this morning. After leaving Toronto yesterday afternoon the Cape Eternity was the scene of many meetings as the delegates from the eastern and western states got together to discuss the developments. It was noticeable that those who were making the trip proposed "open minds" have since been more ardent advocates of the proposal. One result of the trip will be that a steady drive will be initiated in the United States for congressional action looking toward the introduction of legislation providing for the participation of the U. S. in the work. Will insist on this. The New England states are especially insistent on this course. C. P. Craig of Duluth, the managing director of the association, expresses the opinion that a bill will be introduced at the fall session of Congress and that the U. S. will be in a position to provide for the maintenance-of-way men. That such a move on the part of the U. VETS TO APPEAL FOR MCFADDEN

Plea For Clemency To Be Made At Ottawa.

TORONTO, July 13.—A plea for clemency for William McFadden, condemned to hang, with Roy Hottum, on August 3, will be made by the Great War Veterans' Association. McFadden served in France with the 4th Battalion. Provincial Secretary W. E. Turley of the G. W. V. A. will have a conference with the condemned man tomorrow. After which he will accompany McFadden to Ottawa to make an appeal to the minister of justice.

WALLACEBURG GETS NEXT CONVENTION

Grand Lodge of Knights of Pythias Officers Installed.

STRATFORD, July 13.—The Grand Lodge of Ontario, Knights of Pythias, will meet next year at Wallaceburg. At the closing session of the Grand Lodge this morning invitations were presented from Peterboro and Wallaceburg, the convention favoring the latter place. In view of next year being the 50th anniversary of the Grand Lodge, a special program will be arranged. The rate of allowance for mileage was increased to cents, and the per diem allowance set at \$3.50. Superintendent V. C. G. Cabell of Wallaceburg was presented with a silk Union Jack. The newly-elected officers were installed. A resolution was passed reducing the number of signatures on a charter list for a new lodge from 25 to 20. Plans were made for a big bowling tournament here on Wednesday next, July 29, and many outside rinks are expected.

FRANK STOCKFORD DIES AT AMHERSTBURG

AMHERSTBURG, July 13.—Frank Stockford, aged 58, died at his home last evening. Mr. Stockford came from Harrow about four years ago to engage with the Brunner Mond and later worked at his trade as a carpenter on different jobs around town. About three weeks ago he was with an accident, falling off a roof of a new house, where he was working. He leaves his wife and a well-known Odd Fellows and Orangemen. He was well known all over Essex County.

LACK OF WIND CAUSING HEAT

Atmosphere Has Become Stagnant Is Theory in Toronto.

TORONTO, July 13.—The mercury climbed to 95 in Toronto today, which was only three notches below the peak in last week's hot wave. A temperature of 95 to 96 was general throughout the province, except in a small portion of the eastern end. There is a promise in the forecasts that tomorrow will be slightly cooler, and that a number of sections will be visited by thunderstorms. The explanation of the usual length of the hot wave appears to be that the atmosphere has become stagnant. That means that owing to the lack of any strong winds or general disturbance for nearly two weeks the hot atmosphere is clinging to the same portions of the earth's surface, and the only thing which is apt to break it up definitely is a tremendous disturbance of some sort. Reports are again coming in from the farms and fruit districts saying that unless there is a let-up soon the crops are bound to be inferior. The raspberry crop is suffering, as they are berries are being ripened too soon, but the greatest blow will be at some of the eastern end. There is a promise in the forecasts that tomorrow will be slightly cooler, and that a number of sections will be visited by thunderstorms.

AUSTRALIAN EXPORTS DECREASING, WHILE IMPORTS INCREASE

Weekly Bulletin of Dept. of Trade and Commerce Discloses Fact.

OTTAWA, July 13.—The forthcoming number of the Weekly Bulletin of the department of trade and commerce, Ottawa, dated July 11, carries a review of Australian trade during the fiscal year ending June 30, 1930, the figures of which disclose a contraction of \$3,360,257 in the value of the imports, and an expansion of no less than \$23,855,525 in the exports when compared with the previous year. The value of Canadian goods imported into Australia during 1929-30 was \$12,531,760, showing a decrease in comparison with the previous year of \$396,222. Australian exports to Canada were valued at \$1,315,156, a decrease of no less than \$2,814,314 in comparison with 1928-29.

Anticipate Expansion. A report from Mr. C. Hartlett, office of trade commissioner in Melbourne, states that when the schedule rates on woolen goods, which provides for a 15 per cent reduction in the duties on British preferential to 45 per cent general tariff, were before the Australian customs authorities, the latter announced that they had received information that if the duties now in operation were reduced some of the great manufacturers in the United Kingdom intended to establish extensive works in Australia. The Forest Products Laboratory in Western Australia, which, on behalf of newspaper owners, has been conducting a series of experiments in the manufacture of newsprint from eucalyptus wood, claims that newsprint equal to the best Scandinavian can be produced from eucalyptus wood. The paper is a very hard timber, the inner portion of which is a managony color, but no difficulty was experienced in bleaching it out. The breaking strength of this paper is stated to be 1.2 per cent greater than Scandinavian newsprint. It is confidently expected that it can be produced at less than \$12 per ton. At present enormous quantities of waste are burned at the timber mills in Western Australia, which could be obtained for paper-making at a nominal cost.

Canadian Footwear Market. Major Gordon B. Johnson, trade commissioner in Glasgow, says there are market possibilities for Canadian shoes and shoes in Scotland, and when conditions become more settled, in Ireland also. The market demand is for damp-proof shoes of medium to good quality, returning 32 shillings to 30 shillings, and following the prevailing Canadian fashions without any aggressive or extreme features. Women's footwear, rather than men's would find the readier acceptance.

English Fruit Crop. Mr. J. Forsyth Smith, Canadian fruit commissioner in Liverpool, reports that present indications are that the apple crop in England will be above the average; plums and pears a 25 per cent crop; cherries, gooseberries and strawberries below the average, with jam manufacturers not buying much of the latter, owing to the depression and currents varying from a fair crop to considerably below the average.

OPPOSING INCREASE IN JUDGE'S SALARY

WINDSOR, July 13.—Objection to raising W. E. Gundy's salary from \$500 to \$600 a year made by the Windsor Council at its regular meeting. The judge will be asked to meet the finance committee and discuss the matter with them.

PRINCE OF WALES INVITED TO JAPAN

LONDON, July 13.—The Prince of Wales has received an official invitation from the Japanese Government to visit Japan at the conclusion of his tour of India, which, according to recent announcement, is to begin about the end of October. The prince, who recently contracted a cold, has been resting this week on orders of his medical advisers. This has necessitated the cancellation of several engagements. QUESTIONS LEGALITY OF WINDSOR BYLAW

WINDSOR, July 13.—Twenty-five drivers of racetrack taxis, who were arrested by traffic officers during the rush hour and later released, cashed their \$20 cash bonds brought before Judge Gundy today charged with violating the special bylaw governing the race-track traffic. W. H. Furling, acting for thirteen of the men, who were holders of the regular taxi licenses, questioned the legality of the bylaw passed by the board of police commissioners. He advised the petitioners to plead not guilty and their cases were adjourned until Thursday. The other twelve, holders of special taxi licenses, were also remanded until Thursday. They also pleaded not guilty, in view of the arguments pending in the case of the bylaw.

WHEELS TORN OFF IN LEAMINGTON SMASH

LEAMINGTON, July 13.—What might have resulted in a serious accident happened last evening when a motor car of M. C. Cunas, Smith came up Talbot street heading east, and when he attempted to pass the car driven by Mr. Cunas, his rear wheel caught on the other car and caused him to suddenly swing towards the curb in front of C. W. Gale's store. Both front wheels were taken off and the car smashed. Smith escaped injury but was once locked up by Chief L. Marsh. The car of Mr. Cunas was not damaged to any extent and the occupants escaped.
