THE TORONTO WORLD

SATURDAY MORNING, MARCH 21, 1883.

LOCAL NEWS PARAGRAPHED.

St. James' choir now consists of some 60 members.

Col. Moran, M. P. P. for Welland, is at the Rossin.

No. 2 Grand Trunk express from the east was on time last night.

Richard Harcourt, M. P. for Monck, is stopping at the Rossin.

A little boy was placed in the cells of No. 4 police station yesterday for larceny.

Mr. Marcus Smith, chief engineer of the Canadian Pacific railway is a guest at the Rossin.

Up to date Mr. Dexter has received 236 applications for tavern and 110 for shop licenses.

Mr. Jardine of Bleeker street has fallen heir to $5000 through the death of an aunt in England.

Rev. Mr. Hooper of this city left yesterday morning to take charge of a baptist church in Kingston.

The medical health officer will visit the cities in the west end next week to find their sanitary condition.

The annual interchange of pulpits by over forty ministers of different denominations takes place to-morrow.

A son of Professor Davis, 80 Wilton avenue, strayed from home on Thursday morning and has not been heard of since.

The mayor's office hours will be from 9.30 a.m. to 11 a.m., from Monday, instead of 10 a.m. to 11.30 a.m., as formerly.

A very successful party was held at the residence of Mr. Tarleton, Queen street west, Thursday evening. Dancing was kept up till a late hour.

Mary Berry was arrested on a warrant last night by the police of No. 1 division on a charge of keeping a disorderly house on York street. She is out on bail.

The board of works committee is about to be fitted up as an office for the medical health officers. The committee on works will hereafter meet in the executive committee room.

The Credit Valley excursion which left here on Tuesday, arrived at Winnipeg yesterday morning. The trip was made in 67 hours, which is 10 hours ahead of express time.

H. Hirschfelder will read a paper on "The practical and theoretical study of archæology" to-night at the Canadian institute. The lecture will be illustrated by specimens from the professor's private collections.

Wm. Butler, the post office clerk who has been missing since Wednesday morning, was found yesterday in the bay near the Northern railway flour shed wharf. No inquest will be held, as the cause of death is but too manifest.

John Hislop, E. J. Davis, Joseph Davis, H. Bollard Selby, Allan Milloy, G. W. Norris, Lem Fetcher, J. Gooderich, were discharged of the lottery charges against them yesterday. D. C. McCulloch had a fine of $20 and costs or three months imposed on him.

The Queen's Own rifles have declined the invitation of the Thirteenth regiment of Brooklyn, N. Y., to visit that city this year. Col. Otter says it the same invitation is extended next year and the Canadian government gives permission the visit will be made.

A meeting of the Royal Antediluvian Order of Buffaloes took place on Tuesday evening at their rooms, in the Genuine Hall, Thorne street, for the election of officers. Seven gentlemen were proposed and accepted members, and the following officers will fulfill their duties for the ensuing month, viz: S. P., Primo H. Dinsdale; C. C., Bro. J. Hogg; C. M., Bro. Monte; C. T., Bro. Armstrong; C. C., Bro. Bland; R. R., Bro. Walton; C. M., Primo Kershaw; C. P., Bro. Geo. Jennings; C. T., Bro. Lane; A. B., Primo Kershaw; C. T., Bro. E. Jennings; C. S., Bro. F. Hance.

At the regular meeting of Loyal Parkdale lodge, No. 74 C. O. O. F., the following officers were elected for the ensuing six months: N. G., Bro. Wm. Stewart; V. G., Bro. J. A. Clarke; secretary, Bro. C. A. Walker; warden, Bro. A. H. Welsh; conductor, Bro. J. Davis; L. G., Bro. W. King; O. G., Bro. J. Martin; R. S. N. G., Bro. A. Meddex; L. S. N. G., Bro. S. Hobbs; R. S. V. G., Bro. L. L. Hannah; L. S. V. G., Bro. J. L. Moffatt; section master, Bro. E. J. Voss; P. N. G., Bro. R. S. King. The officers were duly installed by Bro. Barnes, D. D. G. M.

The reason why the surgeons of the International Throat and Lung institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the institute. They adhere strictly to their specialty and they use the spirometer invented by M. Souvielle, ex aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to the parts diseased, which is the only way those diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. Send a three-cent stamp for a copy of their International News, published monthly at 173 Church street, Toronto. e-d

The Mount Forest Confederate contains a letter of great praise from J. L. Whiteside, LL. B., magistrate of Haliburton, concerning a lecture he heard delivered by a well known Toronto man. The lecturer has discovered a simple and very practical method of growing and developing fruit of all kinds, even in northern Canada. He asserts that "apples can be developed to an immense size, which when fullyripe have loose, thick, oily peelings, the cores dividing into partitions, forming divisions full of juicy cells." That "walnuts can be increased in size so as to weigh several ounces each." That "the wild plum can be improved so as to excel peaches in size and flavor." He promises a corresponding improvement in all other fruits. "Some of his 'friends' have produced strawberries in great quantities measuring three inches each in diameter." "One lady has a peach tree which she grew from a kernel, and it now bears extremely large peaches." He disapproves of animal manure and of chemically prepared fertilizers. He "feeds" his trees by a peculiar method best known to himself. Fruit growers and others are boring him for information on the subject, but he says he means to put his scientific knowledge fully to practice on land of his own, and then for a proper remuneration he will be prepared to instruct others.

The Quickest Thing on Record

Is Kraus's Fluid Lightning for Neuralgia, Headache, Toothache, etc. It does not blister or discolor the skin; requires but one application to banish all pain in magical manner without using any greasy liniment or carrying your head in a poultice for weeks. Try a twenty-five cent bottle from the druggist.

The New York Sun says:

"Hope township, Ontario, has passed a by-law, under the new tree-planting act giving a bonus of a quarter of a dollar for every tree planted and then protected for three years according to the requirements of the new law. When the three years are ended, the provincial government will return to the township one half the money thus expended. This is very well intended, but there is plenty of free planting. But this will avail but little if at the same time something is not done to prevent the ruthless slaughter of the forests both in this country and Canada."

THE THIRST FOR GOLD.

A VISIT TO THE SCENE OF THE KEEWATIN MINE.

An Interesting Description—Members of the Directory—Extent of the Work and of the Claim—Excitement Elsewhere Increasing.

From the Winnipeg Times.

That Canada possesses a section of country rich in gold is a fact that is beginning to be recognized, not alone by Canadians but by Americans and old country capitalists. For months past attention has been diverted to this particular section of country, and any information about it gathered is reliable and authentic sources is of interest. It will be remembered the Times suggested that the proprietors of these mines should have assays made by well-known competent assayers, other than those connected with the respective companies, and in a few cases this has been done, the result being that it is now established beyond a doubt that the section of country of which the Lake of the Woods is the centre is rich in gold-bearing quartz, and that a great rush will be made to this country before long.

Already the excitement has begun both in this city, in Rat Portage, and in other Canadian and American cities, the directors and officers of the different companies being constantly in receipt of telegrams from Scottish and American capitalists asking for circulars regarding the purchase of stock, etc. The value of real estate in Rat Portage is rapidly increasing, and it is safe to predict that before many weeks have passed there will be an excitement in this section of the dominion, unknown in its previous history. But, while all this is true, it is also well to remember that speculative sharks are taking advantage of the boom, and that many false statements have been circulated. Not alone is this the case but companies have been floated, and it is well that the public should understand this and be on their guard against unscrupulous men. Recognizing the importance of this, a Times representative has been engaged for the last ten days in making a thorough inspection of the mines in the Lake of the Woods district, and below is what he saw. The first mine visited was

THE KEEWATIN MINE

situated on Hay island, about ten miles from Rat Portage. In order to reach this mine from Rat Portage, visitors go by boat during the season of navigation, and by dog and other teams during the winter. Hay island is about twenty miles in circumference, is hilly, very irregular and therefore picturesque, and heavily wooded with poplar, tamarack and pine trees. The Keewatin Mining company own what appears to be only a comparatively small claim, but which in reality is a very large one. This seeming contradiction arises from the following circumstance:

The area of the claim on the island is about twelve acres, but as the lead, that is the vein of gold-bearing quartz, continues on under the lake for an indefinite and at present unknown distance, it is self evident that the company have here a true vein of great magnitude, as there is nothing to hinder them from following it under the waters of the lake. Added to this there are four parallel leads of veins of quartz, within a distance from either side of fifty yards; thus there are five distinct veins of quartz, any one of which would be deemed sufficiently remunerative to warrant development. The land on Hay Island owned by this company is situated in the north portion of the island.

The writer arrived at the Keewatin camp about noon and found it a scene of animation which he had not anticipated. On every side were indications of active, busy life. The blow of the hammer, the crash of falling trees, the discharge of explosives, all bearing witness to man's enterprise in

HIS THIRST FOR GOLD.

After partaking of a hearty and substantial meal, Captain Dealy, acting superintendent, placed himself at the writer's disposal. The most object of interest visited was the shaft, a descent down which was made. On reaching the bottom, reasons were given for the confidence which the company has in the ultimate rich yield of this mine, for here were to be found every indication known to the practical miner, and upon which is grounded his belief in the richness of the mine. The surest indication is a true footwall. In this shaft the footwall is as smooth as though it had been artificially hewn down. For the benefit of those unacquainted with mining phraseology, and ignorant of the meaning of the term "footwall," it may be as well to explain a few technical terms which will be used hereafter. In all true veins there are two walls; one termed a "footwall," the other a "hanging wall." Between these two walls lies the quartz. As the vein rarely or ever descends perpendicularly, but always at an angle, more or less acute, from the horizon, the "footwall" is the one farther removed from the surface; in short, the gold-bearing quartz lies on top of the footwall and underneath the hanging wall. When these two walls are distinct and unbroken, and composed of different kinds of rock, it is safe to predict that the vein lying between them is a true fissure one. In the Keewatin mine all these indications are present, and so visible and plain are they that the merest tyro experiences no difficulty in describing them. The company has at no time denied the privilege to the general public of visiting their mines and thoroughly examining each one for himself.

The Keewatin mine is being rapidly developed in a systematic manner. No attempt is being made to select or prospect for exceptionally rich ore, but the shaft is being sunk preparatory to drifting and stoping. Only in this way can a mine be successfully developed. The shaft is a model in itself and is sufficiently large to admit of all necessary hoisting apparatus and pumping machinery. On the ascent the writer was shown the vein all the way to the surface, and here it may be stated that it has gradually widened and the ore increased in richness as the shaft was lowered. These two indications in themselves are most encouraging, and if the most sceptical were to pay a visit to the Keewatin mine, he would return thoroughly convinced that all that had been said and written about that particular mine was not in the least exaggerated, but on the contrary, fell short of the truth.

The writer was next shown

THE MILL SITE.

This on a plateau about one hundred yards distance from the mouth of the shaft following the declivity on the lake shore. Nature seems to have intended it for this very purpose, the water at the shore being twenty-five feet in depth, thereby admitting vessels of any required draft, to come up to the very mill side. Already most of the timber for the mill is prepared and its erection will be prosecuted forthwith. At present a full force of men is at work at this mine, and as more can be utilized they will be employed. The men camp on the spot in comfortable houses erected by the company, but in order to accommodate all the men who will be employed before next autumn a large building is now in course of erection, capable of housing seventy men.

After all, the great item of interest for the public is the richness of the gold-bearing quartz. In describing this the average of assays will be given and not exceptionally rich ones picked out. From twenty-two assays made by different assayers, ranging from Winnipeg to New York, the average yield at this mine has been found to be one hundred and sixty-two dollars worth of gold and silver to the ton of quartz. From that it will be seen, when it is borne in mind that the expenses are much lower than those in any of the mining regions in the United States, that the Keewatin mine takes first rank among the great bonanzas of the world. It is estimated that the cost of mining and treating a ton of quartz from this mine will be ten dollars. The amount of gold and silver which can be taken from a given ton equals 85 per cent of the assayed value of said ton, so that the net value of a ton of Keewatin ore will be $127.70. It requires no gift of prophecy to predict a success for this mine unequalled in the annals of Canadian mines.

The Keewatin Mining company was formed in March, 1882, but owing to the apathy of the Canadians at that time, and the scepticism of the outside-world, no development was commenced until last autumn, since which time, however, work has gone on uninterruptedly. The directors of the company are Hon. John Norquay, premier of Manitoba, Hon. C. P. Brown, minister of public works, Manitoba; Captain John Allan, M. P. P. for St. Clements; J. R. Cameron, alderman, city of Winnipeg; General T. E. Smith, John E. Ingersoll, of the United States Stamping company; W. T. McBride, of the Erie railway, and M. W. Meagher, counsellor at law, all of New York city. The officers of the company are: President, Hon. John Norquay; vice-president, M. W. Meagher; secretary-treasurer, Capt. John Allen, M.P.P.

With an undoubtedly rich mine, centrally located and accessible at all seasons of the year, a directorate composed of gentlemen of national standing, of well known integrity and business qualifications, the Keewatin Mining Co., is in the first rank, and will compare favorably with the best American companies.

Wrecks of Humanity,

who have wasted their manly vigor and powers by youthful follies and pernicious practices pursued in solitude, inducing Nervous Debility, Impaired Memory, Mental Anxiety, Despondency, Lack of Self confidence and Will Power, Weak Back, Involuntary Vital Losses, and kindred weaknesses, should address with three letter postage stamps for large illustrated treatise, giving unfailing means of cure, WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N.Y.

THE THEATRICAL WORLD.

It is proposed in New York to form an actor's library.

The Black Venus is perambulating the southern states.

The Boston Juvenile Opera company have stranded at Anderson, Ind.

Mlle Rhea is to open the new Park theatre, at Cleveland, O., Oct. 15.

A white baby camel was born at the gardens in San Francisco on Feb. 24, last.

Nilsson has signed a contract with Abbey to appear at the opening of new New York opera house on March 26.

Managers Palmer and Stetson have quarrelled about the actor's fund benefit and the question now is will it be held or not.

The question as to whether the mayor shall be compelled to issue a license to Mr. Salmi Morse for the production of the Passion Play will be considered by the court of appeals on Tuesday next. Mr. Howe, counsel for Mr. Morse, goes to Albany on Monday to argue the case.

Augustus Levick takes a prominent part in Liberia, now acting at Haverley's theatre. The other night Max Freeman, the stage manager, made some remark to him after the play, when he turned and struck Freeman a heavy blow on the side of the temple, knocking him down a flight of stone stairs. Freeman was carried unconscious to a hospital and Levick was arrested.

At St. Louis on the 24th inst., while driving to the Grand for the evening, Mrs. Langtry narrowly escaped serious injury by the viciousness of a runaway team going in an opposite direction. By the greatest effort of the driver of Mrs. Langtry's carriage, the sidewalk was reached, when the team with the heavy wagon dashed by, grazing the carriage and stranding a few rods further on. This delayed the performance twenty minutes.

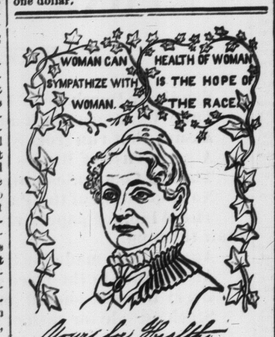
Negotiations are pending with Louis Ballenberg, business manager of the Cincinnati orchestra, to furnish the music for Brighton Beach this summer, but have not concluded. He offers to furnish a band of forty men, to be directed by Michael Brand, once a member of Thos. Thomas's orchestra. The directors have refused to re-engage Levy at $500 a week, and say that he must greatly reduce his terms if he wants to play at the beach.

Calvert's Carbolic Cerate.

The finest healing compound under the sun. There is no sore but will succumb to its wonderful healing propensities. It is an invaluable dressing for Cuts, Burns, Bruises, Pimples, Scalds, Boils, Festerings, etc. Price twenty-five cents at the Drug Store.

At a Samai, Mo., theatre a few days ago the candelebra fell from the ceiling, causing considerable excitement, also burning and wounding several of the audience.

Robert Munroe, engine-driver between Kincardine and Hamilton, says: "It was impossible for any person to be a worse subject of Dyspepsia and a greater sufferer than I was. I often had to lie down in the caboose, and actually thought I would die before I reached my destination. I purchased a bottle of McGregor's Speedy Cure, and it cured me." Free trial bottles at Drug Store. Regular size, fifty cents and one dollar.



LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

AUCTION SALES.

AUCTION SALE OF VALUABLE FREEHOLD PROPERTY

On Dovercourt Road, Toronto.

Pursuant to the power of sale contained in a certain mortgage bearing date the 14th day of May, 1880, and registered in the registry office for the city of Toronto as No. 1560 M. W., which said mortgage will be produced at the time of sale, there will be sold by public auction, by Messrs. John McFarlane & Co., auctioneers, at their auction rooms, 67 Yonge stre t, Toronto, on Saturday, the 14th day of April, 1883, at twelve o'clock noon, that freehold property comprised in said mortgage, being composed of lot one hundred and twenty-five, on the east side of Dovercourt road, in said city, according to a plan registered in said registry office as Plan No. D. 44.

Upon the said property, which is situate between Argyle and Queen streets, on the east side of Dovercourt road, is erected a 2½ story rough-cast dwelling, with brick front, containing nine rooms and a frame shed.

Terms, ten per cent cash at the time of sale, balance within fourteen days thereafter.

Further terms and conditions of sale will be made known at the time of sale, and may be had meanwhile from the vendor's solicitors. LEITH, KINGSTONE & ARMOUR, vendor's solicitors, North of Scotland Chambers, 18 King street West, Toronto. Dated the 21st day of March, 1883.

AUCTION SALE OF FREEHOLD PROPERTY IN THE TOWNSHIP OF YORK, PART OF THE RUNNYMEDE ESTATE.

Pursuant to the Power of sale contained in a certain mortgage bearing date the 11th day of August, 1881, and registered in the Registry Office for the County of York as No. 12,909, which said mortgage will be produced at the time of sale, there will be sold by Public Auction, by Messrs. John McFarlane & Co., Auctioneers, at their Auction Rooms, No. 67 Yonge street, Toronto, on Saturday, the 14th day of April, 1883, at 12 o'clock noon, that Freehold Property comprised in said mortgage, being composed of lot No. 100 as shown on a plan of the Runnymede Estate filed in the Registry Office for the County of York, and designated therein as plan No. 166.

The said property is a vacant lot, and is situate near the stations of the Grand Trunk, Toronto, Grey and Bruce and Credit Valley Railways, at or near the Village of Carlton, and is about two miles from the west limit of the City of Toronto.

Terms—Ten per cent. cash at the time of sale, balance within fourteen days thereafter.

Further terms and conditions of sale will be made known at the time of sale, and may be had meanwhile at the office of the Vendor's Solicitors, where a copy of the said plan can be seen.

LEITH, KINGSTONE & ARMOUR, Vendor's Solicitors, North of Scotland Chambers, 18 King street west, Toronto. Dated the 21st March, 1883.

MEDICAL

DR. TYRRELL HAS REMOVED FROM ADELAIDE street to 32 Bloomfield Avenue Queen street West.

CONSUMPTION,

CATARRH, THROAT DISEASES BRONCHITIS, AND ASTHMA,

Together with diseases of the Eye, Ear and Heart, Successfully treated at the

ONTARIO PULMONARY INSTITUTE

125 Church street, - - Toronto, Ont.

M. HILTON WILLIAMS, M.D., M.C.P.S.O., Proprietor.

The only Institute of the kind in the Dominion of Canada. Permanently established for the cure of all the various diseases of the Head, Throat and Chest, viz:—Catarrh, Throat Diseases, Bronchitis, Asthma, Consumption, Catarrhal Opthalmia (Sore Eyes), and Catarrhal Deafness. Also Diseases of the Heart.

Our system of practice consists in the most improved Medicated Inhalations, combined with proper Constitutional Treatment. Having devoted all our time, energy and skill for the past eighteen years to the treatment of the various diseases of the

HEAD, THROAT and CHEST,

during which time we have successfully treated over 40,000 cases from nearly every part of the Civilized World.

We are enabled to offer the afflicted the most perfect remedies and appliances for the immediate cure of all these troublesome afflictions. By the system of

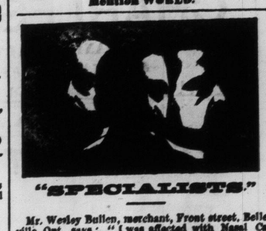
MEDICATED INHALATIONS,

Head, Throat and Lung affections have become as curable as any class of Diseases that afflict humanity.

The very best of references given from all parts of Canada from those already cured. If possible, by all means call personally for Consultation and Examination. But if impossible to call personally at the Institute, write for "List of Questions" and "Medical Treatise." Address,

ONTARIO PULMONARY INSTITUTE, 125 Church Street, Toronto, Ont.

P. S.—Send a three cent stamp and get a copy of our new book just published. M. H. W. Mention WORLD.



"SPECIALISTS."

Mr. Wesley Bullen, merchant, Front street, Belleville, Ont., says: "I was affected with Nasal Catarrh for fifteen years, and after using Dr. M. Souvielle's Nasal Spirometer and medicines, am entirely cured. I can recommend any one troubled with the above-named disease to try his wonderful cure. It will cure the worst cases of Catarrh."

Respectfully yours, WESLEY BULLEN.

THE INTERNATIONAL THROAT AND LUNG Institute is the only one in Canada where diseases of the air passages alone are treated. We have twelve eminent specialists employed in our practice in Canada alone. With the aid of Dr. M. Souvielle's invention, the Spirometer, and the new treatment we adopt, we are making wonderful cures of Catarrh, Catarrhal Deafness, Bronchitis, Asthma, Consumption, and all diseases of the head, throat and lungs. Consultations and a trial of Spirometer free. Those unable to come to the Institute, or see our surgeons, who visit all the principal towns and cities of Canada, can be successfully treated by writing. Send stamp for a copy of our International Record, published monthly, which will give you full particulars and references, which are genuine.

Address 173 Church Street, Toronto, or 13 Phillips' Square, Montreal.

NOTICE

Is hereby given that I will make application to the City Council of Toronto for exemption from taxation of my Carpet Factory in the Ward of St. Paul under regulations referring to new industries.
