

Fertilizers containing a **high percentage of potash** produce the largest yields and best quality of

## Wheat, Rye, Barley, Oats,

- and all winter crops.

Send for our pamphlets on the use of potash on the farm. They are sent free. It will cost you nothing to read them, and they will save you dollars. Address, GERMAN KALI WORKS, 93 Nassau Street, New York.

# To Unpaid Subscribers.

Knowing that it is not always convenient for our members to renew in time for our Annual Plant Distribution, and that some may prefer a book, we offer the following inducements for renewals:

1. Subscribers paying \$1 for one year's membership of our Association are entitled to receive—

- (a) The Journal for one year.
- (b) A bound copy of the Annual Report, containing also the First Annual Report of the Fruit Experiment Stations, and the Report of the Entomological Society of Ontario, and either
- (c) One plant, "Golden Bell" Abutilon, or
- (d) A copy of Terry's A B C of Strawberry Culture.

2. Subscribers paying \$2 for two years' membership are entitled to receive (a) and (b) and

(e) The binding of any volume of the Canadian Horticulturist.

Or for an extra 25c. a copy of Prof. Bailey's Horticulturists' Rule Book, revised edition; a perfect encyclopedia of information for the practical fruit grower. This book is not given as a premium for one year's subscription.

Address: **L. WOOLVERTON, Sec. Ontario Fruit Growers' Association,**  
**GRIMSBY, ONT.**

### YOUR

Poultry may be neglected, that is your fault, and your loss. Your

### GRANDMOTHER'S

ideas will not suit modern methods, however good these ideas might have been, they are

### OLD

now, and out of date. Everything connected with poultry is fully explained in the *Canadian Poultry Review*, Toronto, a large monthly magazine, sent at one dollar per year, or to two new subscribers for \$1.50. A free sample copy will be sent our readers on addressing a postal card to the publisher, H. B. DONOVAN. The *Review* is nearing its nineteenth year. Get rid of your old

### ROOSTER

and buy a young thoroughbred to grade up your flock

### A GOOD VASE PLANT.

An excellent plant for a large vase in the centre of a bay window is a *Yucca formosa*. This variety does not grow tall, and therefore will not obstruct the entrance of light, as some tall-growing varieties of this class of plants would. It has foliage of a pea-green color, each leaf being about an inch in width and two feet long, and these are produced so thickly on the short, stout stalk that a well grown specimen is a perfect mass of foliage, reaching out in all directions about the plant. It is valuable for house culture because it is so well able to withstand the effects of dry air, gas and heat.—VICK'S MAGAZINE for December.
