

The Toronto and Scarborough Railway are making rapid progress with the work of laying their line of the new railway in East Toronto. Two miles of grading is completed with turnouts at the Woodbine, Norway, East Toronto and Blantyre Avenue. The rails are now being laid and the Company expect as promised to be operating this section of their road by the 24th of May. The work is being carried out under the management of Mr. John Galt, C. E., whose assistant is daily on the ground superintending the operations. The company have completed arrangements with the Toronto Electric Light Company to supply the necessary motive power, and a wire for this purpose is now being strung from that company's station on the Esplanade along Front street to George and then along King and Queen streets to the Woodbine. Mr. A. W. Dingman, manager of the street railway company has purchased from Messrs. Patterson & Corbin, of St. Catharines, two vestibule cars supplied with Thomson Houston w. p. motors of 25 h.p. each, and furnished with a Taylor truck.
