INGRAIN CARPET.

The high standard of manufacture which the owners have adopted. Extra-super ingrain, strictly standard in the number of "Ends" apparent in dissection of warp. The high grade of fulling yarns employed and careful attention to weaving minutiae. Exceeding, in weight per yard, the commercial standard governing extra-super ingrains; also tastefulness of design, and for matching qualities incident to even selvedge, and general uniformity.

AXMINSTER CARPET.

New principles in fabrication, imparting unusual stability and weight to finished product. Tenacious grasp of pile, obtained by exceeding care in the process of tying-in the formative knots, numbering one hundred to the square inch. An improved method of backing which insures evenness of foundation, and grateful wearing qualities.
