Molassa-Mosts with rather more enquiry, but the market is bare of any of good quality.

Since-le very firm. We note several sales of Arracan at \$3.95 to \$4.

Scoatt. - There is an improved enquiry for grocery sugars, but the demand is less than usual at this season of the year. Sales are in small lots at \$71 to \$8 for Cuba and Barbadoes, and \$8; to \$8; for Porto Rico.

SALT - With the opening of navigation a better de-

SALT—With the opening of navigation a better demand for Liverpool coarse has spring up, and sales have been made within the limits of our quotations.

Texts—liava been in fair consumptive demand such has failen chiefly on I wankays, Joang (tysons, and Japans and several lines of Gunpowder have been placed, Prices are exceedingly firm, owing to the lain advices from England, which note an advance of to to 3d in all these qualities, with very small stocks.

MONEY MARKET.

THERE is no increased demand for money, no appensance of any stringency. Sterling Exchange is anchanged, the quotation being less for bank and use to 109 for private Goday drafts. In New York, bankers are drawing at 1001. Gold dratts on New York are bought at par to 1 premium.

tone in New York has received from the high figures of last week US Bouds and Cotton advancing in the English markets, and the Europe so was being of a more pacific character, the "bulls" nere acable to maintain gold at the price to which they had forced it up, and it fell off as rapidly as it had advanced. It closed yesterday at 1353 Silver continues abundant, buying at \$15, and selling at 4 per cent. discount.

(If E have more activity to notice in business, bartely having communed to having commenced to run, and orders are flow-

laving commenced to run, and orders are flowing in very fast. I're ces of general goods are fully maintained until new stock arrives

I'm inon—Quotations for actual stock are still unsettled. Lots are offering to arrive at following rates it. Lartsherine 225, Summeriee 23, Eginton 225, Dirom ship's side. We hear of sales at prices Dic. to \$1 over these for hist arrivals

Ran inon.—Lots have been sold to arrive at \$2.50 Large transactions are taking place.

Ildoor AND BAND IRON.—Some lots of hoop from have been sold at \$3 lb., stock is large and very complete. Some sizes of bands are short, but stock with be complete on first arrival from Liverpool.

I'm I'lates —A lot has been placed on the mirk at Goe, under our quotations. We hear of considerable nots afteat, which will no doubt fully stock the market.

Cur Nalls—Prices are firm, stock being already scarce. Makers are declining further orders, as it is anticipated that they will not be able to fill those already in their books without an extension of time.

THE BOOT AND SHOE TRADE.

Amer, Milland & Co. | Linter & Co. per Munics, Dully & Johnson | Smith & Cochrane Smith & Edminson.

Smyth & Eliatricon.

Like NG the past week orders to a fair extent have been coming to and the same state of the same st been coming in and been filled by the manufacturere Stocks on hand are, we understand, not over large, but no difficulty is experienced in completing all orders received. Prices are firm and without alteration.

THE LEATHER TRADE.

Hua & Richardson. | Seymour, M. H. Scepmour, L. K. Shaw F. & Bros. Smyth & Edv. Insch.

With a Edulmen.

If Fregret our inability to announce any very marked improvement to the control of the control marked improvement in this branch of business sie so our last report. There has been rather more inquiry for particular classes of stock, which are in light .upply, but no animation of consequence

SPANISH SALE—Has strived sparingly, and stocks have not increased, so that the quantity in market is immed, and any axirademand prior to heavier receipts would tend to harden prices.

SLAUGHTER SOLT.—There has been some little demand, but nothing pressing: in other respects there is no charge.

Sabulative Sole.—Intere has been some little dramand, but nothing pressing: in other respects there is no change.

Hanness.—The receipts are still very trifling, and prices continue to favor collers, owing to the similifunction of the series.

Waxed Dyrke.—Considerable quantities have been received from the United States, the actual cost of which hald down we are unable to quote, but it is presumed to be 2s low if not lower than howe manufactured. Canadian is received only in small lots and sells readily at quotations

liter and Printing—The finer descriptions around better demand, while interior is still comparatively periected, and sales cannot be forced except at a reduction.

PATENT AND ENAMELLED.—Are very quiet, with no sales of large lots making at present.

CALFARINA.—The same scarcity of prime stock continues; consequently French is being cut almost continues.

continues; consequently French is being out almost exclusively.
States.—There has been rather more call for medium, while extra heavy are less in demand.
SHEEPRINS.—Light russels are still inquired for, apart from this there is no change.

HIDER—I'rices are very firm, and sales are reported as high as 10c for green saited. The stock is low with no considerable lots offering.

MONTREAL PRODUCE MARKET.

y mour, C E.

MIE lateness of the season has unfavorably affected almost every article of produce, and there is as jet no movement of consequence to note. Several vessels are now beginning to load for the Lower Provinces, and the ocean steamer and one or two sailing vessels will probably be in port shortly, which will, ere long, impart some activity to the market.

FLOUR.-Receipts of the week have continued moderate, and prices have been pretty steady. Since the opening of navigation to quebec and beyond, a better demand has existed, and holders showing more dispoatton to meet buyers, a fair amount of business has been transacted. Within the past few days several round lots of Saperfine have sold mostly at \$3.40, and smaller parcels of good to choice and strong brands have gone at \$8.40 to \$8.60, according to sample, none but strictly choice, however, commanding over \$3.50. The higher goods are in small compass, and rule firm at quotations, the transactions, however, are of a comparatively retail character. The better samples of the lower grades command ready sale at quotations; but such as are largely composed of Middlings, and deficient in colour and body, are still neglected. Rag Flour has latterly met a better demand, and prices have slightly improved. Latest sales of strictly choice bring about \$4,15 to \$4 20.

Rve Fraue-Has engaged less attention, and any round parcels changing hands have been at some

Reference of the sengaged less attention, and any round parcels changing hands have been at some abatement from the highest rates obtained. Latest reported transactions have been at \$5.85 (Armeral. — Some round parcels have changed hands but in most instances prices have not transpired Good Upper Canada ranges from \$5.70 to \$5.75, and Lower Canada about \$5.50 to \$5.60.

With all — Guotations may be regarded as nominal, in the absence of transactions.

Prask.—No esies of note on the spot, a few car loads ex store lately brought 35c, per \$0 ths.

OATS.—We have no wholesale transactions on the spot to note, rates for small parcels are 41c, to 43c, according to quality.

Barley.—Nominal, about 61c to 63c, per 45 lbs. according to quality.

Barley.—Continues in steady demand without any material alteration in price. Prime is enquired for at about \$13.50. Prime Mess would sell to a limited extent at \$15.50 to 155, but the stock is trifling. Mess is hield firmly at \$19.50 to \$30—the latter price is however merely paid by retail. Land—is still very dull—the low price of butter exerts a depressing effect upon this article, and prevents it entering as largely as formerly into consumption even at pracent low rates. Culments, &c.—are slow of sale at irregular prices.

Buttern.—Receptist have latterly considerably exceeded the expectations of the trade, and parily owing to the low quality of a good deal of the stock, and parily on account of the lee bridge at Quebec having only now given way, allowing vessels to leave, the proportion than here, and present prices seem now likely to continuous ill the close of the season, and it is probable that new butter will open with a very different range of prices from what have been current the last few years.

Seeds — Timothy is very dull and in overstock, few sales are made, and prices may be considered nominal. Clover remains steady and unchanged.

Asies.—Potash sit quote tand continues without much alteration either in pice or in demand. Pearls are active and sell readily at quota
