

At eight o'clock, Masses of Thanksgiving were sung in the Parish Churches, and prayers offered up for the speedy restoration of the Temporal Power.

There was Solemn Benediction in the Cathedral at seven p.m., followed by the "Te Deum" chanted by a full choir. Then came what to mere spectators seemed the most interesting of the day's proceedings—the illumination. Never did Ottawa witness such a sight, the streets were alive with people, upon whom the thousands of lamps and lanterns shed a light almost equal to that of the glorious Orb of day. The aged Pius was everywhere represented, wearing that placid look which gathers his children so closely around him, and causes the blush of shame to rise to the cheeks of his enemies. The transparencies bearing the inscriptions *Vive Pie IX! All Honor to the Pope! Hail to the Infallible King!* were much admired, but one above all drew particular attention both on account of its appropriateness and its significance—*Ireland and Rome—Inseparable!* On the summit of the Convent of Notre Dame was raised a lofty illuminated Cross, and from the Cupola of the Academy of the Christian Brothers, brilliant rockets at intervals shot up into the air, and various pyrotechnic devices lent their splendor to the general pageant.

But I find I am occupying too much space, and will simply add that every Catholic family took part in the display, and therefore the honor is due to no particular person but to all alike.

SHAMROCK.

Ottawa, June 23rd, 1871.

We beg to call attention to the advertisement of the Orphans' Pic-Nic, which is to be held on Thursday next, 13th instant, on Mr. Howley's Grounds, St. Antoine Street, West. These extensive and beautiful grounds have been kindly placed at the disposal of the Pic-Nic Committee by Mr. Howley. As extensive preparations are making to render this years Pic-Nic as successful as the former ones given in aid of the Orphans, we are sure our readers do not require any further prompting to induce them to attend in large numbers the Orphans' Pic-Nic of 1871.

LACROSSE.—The Shamrocks—The Champion Club—Vs. Caughnawaga Indians.—On Thursday, June the 29th, on the Montreal grounds, the above-named Clubs commenced a match, which, owing to the conduct of the Indians, was not completed. After a spirited contest of twenty-five minutes, the Shamrocks "gouled" the ball and it becoming evident to the Indians during the second game, that their chances of success were nil they acted in such a rough manner, as to cause the match to be broken off. The Shamrocks' conduct and play, were all that fairness could ask, and although the match was not finished, the honors are undoubtedly theirs.

THE CENSUS OF IRELAND.—Some of the facts of the Census have been brought to light. The population of Ireland is a little over five million. The population in the towns of Ulster is on the increase. That of Belfast is given at 174,394; of which 55,501 are Catholics. The remainder are divided amongst the several Protestant sects, of which the Presbyterian is the most numerous—60,811; and next rank the Episcopalians 48,043. The balance is divided amongst the many minor sects.

On Tuesday evening, 27th ult., in the Academic Hall, Church of the Gesu, Bleury St., the drama of "Pancratius, the Boy Martyr," from Cardinal Wiseman's "Fabiola," was presented before a large and appreciative audience. The proceeds to be devoted to the relief of the Holy Father. The parts were well sustained, and in noticing the satisfaction evinced by those who were present we give the occasion its most fitting commendation.

LE METIS.—This is the title of a new French paper, published at St. Boniface, of which the first number has reached our office. It announces the safe arrival of three Sisters of Charity from Montreal, under the charge of the Rev. Sister Charlebois of the General Hospital of Montreal.

THE CATHOLIC WORLD.—July, 1871. D. & J. Sadlier & Co., Montreal.

The current number contains the following articles:—An Irish Martyr; Mary Clifford's Promise Kept; The Present and the Future; The House of York, Chapters VII. and VIII.; Saint Cecilia; Disillusioned; Origin of Civilization; Pau; St. Mary Magdalen; Memoir of Father John de Brebeuf, S.J.; Our Lady of Lourdes; Mr. Froude and Calvinism; Love for Animals; Catholicity and Pantheism; Sayings of the Fathers of the Desert; The Italian Guarantees and the Sovereign Pontiff; The Rose; New Publications. Terms: \$4.50 per year, in advance. 45c. single copy.

DOMINION DAY.

Saturday was observed generally as a holiday throughout the city, which, however, was very quiet during the day, the fineness of the weather having induced immense numbers to seek recreation in the country, for which the numerous excursions afforded ample opportunity. Besides those of a more public kind, pic-nic parties in great numbers, made up of friends and acquaintances, were organized and started off in search of health and relief from the dusty town.

From early morning flags were displayed on all the principal buildings in the city, and were to be seen floating in all directions round about, almost every residence having the ensign or Union Jack flying, the slope of the Mountain looking lively with the colours blowing out in the breeze. A very brief notice is all that we can find room for this morning, as the printers who deserve a holiday as much probably as any other class, were given the opportunity, so far as the demands of the public would admit of, to share the enjoyments of the day. —Herald.

ST. PATRICK'S SOCIETY'S PIC-NIC.

This, beyond all doubt, was the Pic-nic. Whether viewed financially or socially, we find that redundancy of success and genuine enjoyment about it which is so agreeable an adjunct of a Pic-nic for charitable purposes. A glance at the Treasurer, Mr. D. Lyons, at once revealed the happiness which the certainty of a well-filled purse afforded him. He was like the spring well on the grounds, bubbling over with unaccountable glee, his eyes, like the waters, sparkled in the sun-light, as he was doubtless thinking of the good work to be done with the new funds. Speaking to him, he had just one sentence with which he answered all interrogatories, "Success! Why, there was never anything like it!"

As Mr. Lyons, though, perhaps, not quite so demonstratively exuberant, felt and spoke all the other officers.

The dancing platform, about 100 feet long, surrounded with seats under shade and fruit-trees, the magnificent view from the top of the hill and the old observatory, the lake, the romantically beautiful little island, the swings, St. Bridget's brass band, the string band, the games, the races, the glorious weather, some thousands of Irish benedictines and bachelors, with their wives and sweethearts; the most perfect order, an evident desire to please and be pleased evidently animating all, and this Pic-nic was evidently appreciated by all who, like ourselves, had the good fortune to attend it.

In the course of the afternoon we noticed that not only was everybody Irish there, but almost every distinguished body else. Amongst others, His Worship the Mayor, accompanied by members of the Council; Hon. L. H. Holton, M. P. Ryan, M.P.; P. Cassidy, Q.C., M.P.P.; City Attorney B. Devlin, Esq.; A. Ogilvie, M.P.P.; E. Murphy, Esq., President St. Patrick's Temperance Society; Marcus Doherty, and a great many other gentlemen.

The games, for all of which there were many competitors, afforded very much delight to the spectators, but above all, the sack race, which was hugely enjoyed by all.—Herald.

ST. MICHAEL'S COLLEGE—DISTRIBUTION OF PRIZES.

(Toronto Globe, 28th ult.)

The distribution of prizes at St. Michael's College took place yesterday morning in the grove in rear of the college building. There was a good attendance of ladies and gentlemen interested in the progress of the students. His Grace the Archbishop, Bishop Farrell, of Hamilton, and several of the fathers were present. After a selection by the college band, Master Merrick played a solo on the piano. This was followed by a debate upon the relative superiority of the calling of farming, the learned professions generally, and the clerical profession; supported respectively by Mr. McGrath, of Biddulph, Mr. John O'Connor, of Pickering, and Mr. John Carling, of Irishtown. The young gentlemen supported their respective positions by strong arguments, and in a way that displayed ability on their part and careful training in this important branch of education. After some more music one of the students read an address in Latin from the students to His Holiness the Pope, which was handed to the Archbishop.

Rev. Father Ferguson announced that the students had requested the professors to send the money that was to have been expended in prizes as a contribution to the Pope. The professors had acceded to this request, and the money would accompany the address. In place, therefore, of prizes, certificates would be distributed to those to whom prizes would have been awarded. Father Ferguson then read the list of the successful competitors. After the reading of the list, the Archbishop addressed a few words to the students, expressing his gratification at the progress they were making, and counselling them as to their future course. Alluding to the debate of the students, he spoke of the dignity and high mission of the clerical profession, and said the church in this country was very much in need of more young men who would devote themselves to the profession of the priesthood.

At the close the students gave three cheers for the Archbishop, and three more for Bishop Farrell.

—Gazette, June 30th.

ACKNOWLEDGMENT.—The Rev. Father Hogan returns thanks to the members of the Old Shamrock Lacrosse Club for their donation of \$150 to the fund for the erection of a marble altar in St. Ann's Church, being the proceeds of the match played on the 29th ultimo between them and the Caughnawaga Indians.

We are authorized to say that Mr. Carter does not intend to present himself for any other constituency. He has been invited to stand for Chateauguay, and also for St. John's but declined both invitations, being satisfied that a scrutiny will yet give him his seat as member for Montreal Centre. *Gazette*, June 30.

A timely discovery has been made in the British Columbia Land office, one which will have an important effect on Kaiser Wilhelm's decision in the San Juan boundary question. It is no less than an official map of countermains Oregon drawn up by Mr. Fremont in 1843, which places the boundary line in the centre of the Rosario channel and consequently South of this island. The document carries all the more weight from the fact that it was compiled from the papers of the Commissioners appointed to determine the general question in 1846, who had come to the mutual understanding that the boundary line should run through the middle of the channel, dividing the island from the mainland. The island is now jointly occupied by detachments of British and American forces. The Emperor will soon decide who is the true owner and who will have to withdraw. With the new light thrown upon this most muddled of all disputed questions, we can confidently await his decision.—*Gazette*.

A MURDERER FOLLOWED TO CANADA.—BUFFALO, June 25.—This morning, Michael Meeney knocked an offending negro named Ed. Watkins into the canal, where he was drowned before assistance could reach him. Meeney fled in a small boat to Canada, but Sergeant McHenry, with a squad of the Harbor Police followed, arrested Meeney in a saloon near the International Ferry Landing, and brought him to this side. Meeney has served a term in Auburn Prison.

On Sunday week, six or seven young people of both sexes had been spending the evening at a neighbour's house, at the River Rusaan, County of Essex, and on the road home a young man named Benjamin Legros commenced firing shots in the air from a revolver in a playful way, to see if the girls would be frightened. After firing every shot but one, he put the revolver in his pocket, and the trigger catching, it discharged its bullet into the eye of Miss Sylvester. The ball penetrated the brain, and the poor young girl died the following Tuesday.—*Globe*.

The root crops in Lennox and Addington look well this season, and the Napanee Beaver says there will be a superabundance of food in that section. The spread of grain of all sorts was much larger this spring than ever before, which was sown early and in excellent order. The rye crop never looked better; we have seen large fields of it, the stalks more than six feet high, good and stout. Grass is growing finely, and clover will soon be fit to cut. Barley is heading out, and although it is not very tall, the heads are large and healthy, and no doubt will be more than an average crop. Pears and oats look extremely well. Spring wheat is coming on nicely, and promises to be an excellent crop.—*Globe*.

POTATO BUG.—The Windsor Record and Journal says an experiment was made a few days ago with carbolic disinfecting powder on some potatoes which were swarming with the pests. The powder was only put on twenty hills and cleared them at once, though the remaining hills continued to swarm with the bugs. A correspondent of the Toronto Leader gives the following remedy as being very efficacious:—Mix carbolic acid (phenic acid) and water in the proportion of 1 wine-glassful of carbolic acid to a quart of water, and sprinkle the tops of the potatoes. The leaves, it is said, will not be injured by the mixture. Objections have been made to using Paris Green to kill the bugs, on the ground that it may injure the wholesomeness of the fruit, but we have heard of no bad effects arising from the use of it. Others object to the use of carbolic in any form, as damaging to plant life.

In the neighbourhood of Dunnville, the *Gazette* learns the wheat crops, especially fall wheat, promise to be almost unprecedented. The spring crops generally suffered severely from the want of rain in the early part of season, but the recent copious showers have been of great benefit, and the farmers are now by no means so despondent as they were a few weeks ago. The hay crops appear to have suffered the most, and will scarcely be an average crop.

BONCAYGON, Ont., June 26.—The Colorado potato bug made its appearance in the west end of the village yesterday afternoon in swarms. They at once settled on the potato vines, and in the course of an hour the vines were covered on the under side with eggs. Before 10 p. m. the eggs were hatched, and the bugs commenced to crawl about the leaves. The swarms came in a body, and in such numbers that they were at once noticed.

The Woodstock Review says, that in Oxford many farmers have already commenced cutting their hay crop, which it regrets to say will not average over one-half the usual quantity per acre. The grain crops have been materially injured by the continued dry weather, but should the balance of the season turn out favourable, an average yield of grain may yet be looked forward to. From the very acceptable showers received during the early part of the week, a vast deal of benefit will accrue.

Despite the gloomy predictions of farmers, the *Almonte Gazette* says there will be at least an average hay crop upon good bottoms. Grain, although spotted somewhat from an imperfect blight, owing to the peculiar weather during seeding time, bids very fairly, while there has been fully an average breadth sown. Clay land suffered a good deal during the drought, but where in good till, are rapidly overtaking the season. Root crops, although rather late, are healthy and promising.

ANOTHER PEST.—A correspondent writes:—"In your last week's paper I see terrible accounts of the potato beetle. It don't frighten us, because the grasshoppers we have by the bushel are so much worse than they (the beetles) can be. The loss of the potato crop is small, indeed, to what grasshoppers can do. West of Simcoe for twelve miles, and as far south as Lake Erie, there is scarcely a patch of clover left. Wheat is stripped of every leaf; and when the wind blows we have fields of waving grain and grasshoppers from three to seven on a head. They are not more than half grown, and as yet their wings are not developed. Our pasture fields and roadsides are bare—not even thistles and weeds left, with the exception of the sorrel; and like an invading army, still they come, worse than the Fenians, for you cannot drive them back. By digging trenches, which are soon filled by them, we get rid of some, for they cannot get out; and a curious sight it is to see several bushels in a pit, seemingly trying to scratch each other's eyes out. But still they come." —*London Daily Advertiser*.

BREAKFAST.—EPPE'S COCOA.—GRATEFUL AND COMFORTING.—The very agreeable character of this preparation has rendered it a general favourite. "The *Civil Service Gazette* remarks:—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Eppe has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills." Made simply with boiling water or milk. Sold only in tin-lined packets, labelled—JAMES EPPE & CO., Homoeopathic Chemists, London.

OTTAWA HOTEL, ST. ANNE.—Residents of Montreal meditating a retreat to the country during our summer heats, will find, if they decide upon the pleasant village of St. Anne as their summer residence, clean, quiet and comfortable quarters at the Ottawa Hotel, kept by M. Isidore Onais. This Hotel has lately been enlarged and repaired from top to bottom. The situation, just below the bridge, cannot be surpassed, and the proprietor has constantly on hand boats for the use of his guests. It is but a short distance from the Depot, which can be reached in ten minutes; and it presents every comfort and convenience that the health and pleasure-seeker can desire.
