

MONTREAL SCOURGED BY FIRE. THE TANNERIES, OGILVIE'S MILLS, AND ALEXANDER STREET, VISITED.

About half-past two on Wednesday morning, the 12th inst., a fire broke out at the Tanneries in some sheds lying between Delisle and Workman Streets, and made considerable headway before any assistance arrived. The burnt buildings were all frame structures which should not be allowed in such a place at all, there was not even a single brick partition to stop the progress of the flames, but no one has to be blamed for this but the Tanneries Council. Several houses on Workman and Delisle Street were burned down, principally owned by French Canadian laborers. The greater part of their furniture was also burned, and it was pitiable to see the poor people with misery and despair depicted in their countenances running about. The fire was completely got under about five o'clock the following morning.

OGILVIE'S MILLS. Thursday morning, about half-past eight, an alarm was given from box 57 for a fire discovered in the extension on the eastern end, in the elevator wing of Ogilvie's Mills, St. Gabriel Locks. There was great assistance given by the full city staff of the Fire Brigade but nothing could prevent the loss of a great amount of property. A man named Delois Dionne was burned or suffocated; he leaves a wife and family to mourn his sad and untimely end.

ALEXANDER STREET. It seemed as if there was something curious in the wind as to so many successive fires, but after the fire in Alexander Street it is suspected that incendiaries are at work for the purpose of robbery. About half-past two on Friday morning a fire was discovered in Emerson's shed between Hermine and Alexander Streets. All the reels were quickly on the ground, but the fire could not be prevented from extending to 17 Alexander Street on the north and 9, 7, 5, and 3 on the south. No. 11 and 13 were entirely destroyed. A poor widow named Mrs. O'Brien, who depended on boarders for her livelihood lost all and barely escaped herself. She was not insured. Some blankets, &c., which were left out on the road were stolen. The fire was effectually extinguished about 5 o'clock on Saturday morning.

OBITUARY.—One by one, the old and respected landmarks which connect the present generation of Irish Roman Catholic citizens with their fore-runners of the early immigration to Canada, who settled in Quebec, and, through a myriad of difficulties, aided and directed by a master mind in the Soggyr who, some I sent especially by Providence to mould them together and establish their future destinies in the community on a permanent basis, are dropping away, leaving blanks that will not be easily filled. The death of Mr. Patrick McMahon, at the patriarchal age of 84, which has just occurred, at the residence of his son-in-law at Sillery makes another of these blanks, which is the more noteworthy from the close relationship of the respected deceased to the worthy founder of St. Patrick's Church. Mr. McMahon was a first cousin of the late respected pastor of St. Patrick's, to whom the Irish citizens owe so much to-day. He was a native of Abbeyleix, Queen's County, Ireland, was for many years engaged successfully in trade in Quebec, was the father-in-law of the late Michael Kenny, who so nobly sacrificed his time and life in the interest of the orphans of 1847; and also of our respected fellow citizen, Mr. Joseph Cantillon. In Mr. McMahon the Irish citizens of Quebec have lost one of the last links that connected them with their most trying days in this country, but, at the same time, they can look back with no little pride and affection to the days in question and to the name which so ably helped them to weather the storm. The large attendance at the funeral of the deceased showed how fondly and deeply that name was enshrined in the hearts of the Irish Catholics of Quebec.—Budget.

THE GIBBON CASE.—It is said that the decision in this case will not be rendered by the Privy Council before the end of October, or early in November.

FATAL ACCIDENT.—Another death has been caused through a child throwing coal oil upon a lighted stove, the victim in this case being Oscar Misse, aged 8 years, and son of J. A. Misse, notary, Lagachetiere street, formerly of Valleyfield, and now residing in Montreal. The poor child died after a day's long and horrible suffering. He had seen the stove lit by the aid of coal oil, and amused himself pouring some of it on the flames from a can, which caught fire, exploded, and burned him severely that he has no hopes of his recovery could be entertained. We would warn people against the dangerous habit of lighting their stoves with this dangerous liquid.

THE IRISH PROTESTANT BENEVOLENT SOCIETY.—This society's annual picnic takes place next Saturday at St. Helen's Island. An excellent programme of sports and games has been prepared, while a regatta, in which valuable prizes are offered, adds to the day's attractions. Among others are a canoe race and a jolly-beat race, open only to sailors of sea-going vessels; while the novelty of a swimming race over a mile course, is added to the list. The ferry boat will make frequent trips.

On Saturday morning, about half-past ten, another disaster took place, which makes last week a most dreadful one with regard to loss of life and property in Montreal. A frame building in course of erection off Louisiana street and behind 470 St. Joseph street gave way, burying some men, causing fatal injuries, and severely injuring others.

SCANDAL.—About half-past eight o'clock on Saturday evening Elizabeth Cassidy, wife of William Nolan, threw herself into the water about 100 yards east of the Longueuil Ferry. As she rushed towards the water she cried out, "I am lost, I am lost." There were several spectators on the bank, but none of them were able to help her, although she struggled in the water for some time. Domestic infelicity is said to have been the cause of the act, and she had tried to kill herself about a week ago. She was about 24 years old, and had one child nearly two years of age, which she tried to take with her, but a younger sister of hers kept the baby and thereby saved its life.—Herald.

APPLICATIONS.—Applications will be made to the Dominion Parliament for the incorporation of the "Canada Collecting Company" which is intended to effect the collection of debts and claims throughout Canada; to make advances of money on claims, debts, etc., and to settle affairs in bankruptcy. Its head quarters are to be in Montreal. It starts with a capital of \$35,000. Mr. H. Dumais, advocate, and others are the petitioners. Also to incorporate the "Canada Photographic Company" to be located in Montreal and carry on photography in all its branches.

A DIocese Two Hundred Years Old Will be that of Quebec in the latter end of September. Accordingly the Archbishop is about to celebrate the two hundredth anniversary in a becoming manner. Let it be understood that when the Diocese of Quebec was founded, in 1674, it included within its bounds no less a territory than the whole of the valleys of the Mississippi and St. Lawrence, and good wide stretch of land besides. In 1667, M. de Laval, the first Bishop came to Canada, but then the Diocese was considered as part of that of Rouen, in France. Afterwards, when the new Diocese was created, the above illimitable territories composed it; but now, so great have been the ramifications from Quebec to New Orleans, that in the place of one Bishop there are now eight Archbishops, forty-five Bishops, and more than 4,000 priests. The Archbishop of Quebec is preparing for a grand re-

union of the Bishops, either in person or by proxy, on the two hundredth anniversary, to take place at the ancient capital of Canada, and the ancient Episcopal Seat of this immense old Diocese, Quebec. What a gathering will there be, from the mouth of the Mississippi, where Archbishop Perche sits in episcopal and editorial chair, to the Gulf of St. Lawrence, where stands the impregnable rock of Quebec, symbolical of the rock of which the Canadian Church was built.—Philadelphia Catholic Standard.

The new line of the city-passengers railway track on St. Denis, was opened to traffic on Saturday.

The French Canadians in the United States are, to a certain extent at least, seeking repatriation, and a petition has been prepared with this end in view for presentation to Lt.-Gov. Caron of this Province, and signed by 287 persons.

The steamship Norma, which collided with the James Reed near Die on Tuesday night last, arrived in port this afternoon. She has a hole in the star-board side of her bow long enough for two men to pass through together.

A PECULIAR CONCERN.—Some time since a firm under the style of Clermont, Daniels & Co. opened an establishment on Notre Dame street, and announced in such of the public prints as accepted their advertisements, and by means of circulars, that they had over \$100,000 worth of goods for sale, at prices 50 to 100 per cent. cheaper than retail stores all articles on their lists to be sold for \$1; the plan was stated to have become immensely popular, always giving entire satisfaction, and no risk could be run, as no payment was asked for goods until they were seen. Only shareholders were allowed to purchase at \$1, others to be supplied at the regular retail prices, and parties were to become shareholders by buying a certificate, of which the following is a copy:—"No. (in this instance 188,877) Clermont, Daniels & Co.'s second grand sale for 1874. Certificate.—For sale of schedule B, at Montreal. This certificate entitles the holder to one choice of any article on the list of goods in schedule B, for one dollar, and to the right of selection at time of sale at our store in Montreal or to the right to receive the goods selected by express, C.O.D., with privilege of examination before paying for them, &c., &c." Each certificate was sold for 25 cents; agents were advertised for profusely throughout the Province, and each agent was allowed 5 cents on the sale of each ticket. As a consequence, the firm have recently been in receipt of a very large number of registered letters, and complaints being made on suspicion that the affair was a swindle, the Postmaster has given orders that such letters shall not be delivered; the result is, that this morning, when the order took effect, 150 letters were retained. The truth will probably be shortly elicited. No goods were to be sold until the 31st of the present month.—Evening Star, Aug. 17th.

SAD ACCIDENT.—On Monday morning, about half-past eleven, the horse of Mr. Hazleton, grocer, Papineau Square, attached to a wagon, took fright while standing at Ogilvie's Mills, and dashed down William street, running over Mrs. Riendeau, of Grand Trunk street, who was on her way home. She was severely wounded about the head and neck, and was taken to the Point St. Charles Police Station, when she died about half an hour after the accident. She was about 24 years old, had been married three years, and leaves one child.

KINGSTON DIocese.—The Rev. Mr. Spratt, from Glengarry, has been placed in charge of the R. C. Church and congregation of Wolfe Island. A popular priest has thus been secured as successor to a very worthy and beloved incumbent.—British Whig.

NEW STEAMBOAT COMPANY.—The new steamboat company have made arrangement for the building of four large and commodious steamers, to ply between Lewistown and Ogdensburg, and connect there with boats to be furnished by the Richelieu Company. The new boats are to be about the size of the steamer New York, formerly running on the south shore, and are to be fitted up in first class style with all the latest improvements, and unsurpassed in speed.—Brockville Enterprise.

A peculiar kind of contagious disease has been prevailing among the horses of Cartwright township for the last two or three weeks, says the South Durham News correspondent. The glands of the throat first swell up, and then the nose breaks out in a dry warty eruption. The animal appears dull and low spirited for a few days. The disease does not appear to be dangerous as no deaths have occurred yet. There is not much treatment required, only keep the animal quiet for a few days and put him on soft feed.—Lindsay Post.

POINT FORTUNE, August 8.—Last night as the steamer "Fawn" was preparing to start with a tow of barges, the front of her boiler blew out, causing damage to the value of between two or three thousand dollars, and injuring the engineer badly. This is the second time of the like.

Harvesting has progressed for the past two weeks and nearly all the fall wheat has been housed in good condition. The yield will not be much short of an average while spring wheat will be a full crop; oats, peas and barley never looked better and will be a very heavy crop; potatoes will be good notwithstanding the ravages of the bug.—Doboyceen Corr. of Lindsay Post.

IMMIGRATION.—Out of the 310 immigrants who arrived at the Kingston Station in July and were located here the large proportion of 163 were English, a result of the labor strikes in England. Of the balance 75 were Scottish and 66 were Irish.—British Whig.

CHEAT MONEY ORDERS.—After the 1st of September next, money orders for sums of four dollars and under are to be granted by all money order Post Offices, for the low price of two cents. This provides a cheap and safe mode of transmitting small sums through the P.O. It will no doubt, be largely availed of by parties at a distance paying newspaper subscriptions.

Farmers are very busy just now in housing their grain harvest. Crops are unusually good in this township this year—much above an average. The hay has all been well saved, and is also more than an average crop.—Dillon Corr. of Lindsay Post.

RAIN AND BAD CROPS.—A private letter from St. Thomas, Montserrat, Province of Quebec, says that rain has fallen every day since the 27th of July, and that the crops in that section are of the poorest possible kind.—Kingston Whig.

IT IS TRUE EVERY BIT.—Some people fancy that because they take a paper the publisher ought to print in its columns long pieces of "poetry," or anything else they may wish to lay before the public "free gratis, for nothing," even though the public may have very little interest in the matter. We suppose that when such persons sell an article of their production for \$3, they are willing to throw in a dollar's worth of something else, that the purchaser may obtain the full value of his money. We occasionally run against individuals of this stamp, who, when their requests to publish verses cannot be complied with, vent their ill will by ordering their paper discontinued. If they knew what happiness it affords publishers to be rid of this class of customers, they would probably seek some other pretext for their action.—Waterloo Times.

POINT AU PLO, Aug. 15.—Shortly after the St. Lawrence left her wharf in Quebec with a large number of pleasure-seekers for the watering places, a sailor belonging to the boat named Francois Deschen, in endeavouring to adjust the boat-fender missed his balance, and fell headlong into the water. He sank and was never seen again. The boat stopped and made a search, but to no avail. The unfortunate man leaves a young family at Murray Bay to mourn the sad news. A collection of a hundred and

fifty-seven dollars was raised on board among the passengers for his widow, who is said to be in a very critical state of health.

New hay is now selling in Fenelon Falls at \$10 per ton, which does not indicate a scarcity of that article; and a short time ago a Verulam subscriber said that the crop of oats was the best he had ever seen in his life, adding that if ever they were down to a shilling a bushel again in this part of Canada it would be in the fall of 1874. That potato-bugs are unpleasantly numerous cannot be denied but although we do not doubt that they have done the amount of damage our friend says they have in the township spoken of, we have reason to believe that their ravages have been much less marked in the immediate vicinity of Fenelon Falls.—Gazette.

QUEENSTON, Aug. 16.—On Saturday evening the dwelling house of Mr. Brown, Niagara township, about two miles from this village, was destroyed by fire. Almost all the furniture was saved. No insurance. Considerable sympathy is felt for Mr. Brown in his affliction, as his family are just recovering from severe illness.

SAWPORT, Ont., August 17.—A fatal accident occurred this morning. Dr. King left Sawport to pay a professional visit in McKillop with a pair of horses and buggy; about noon intelligence was brought in that the horses had run away, and that he was lying in a dangerous condition at the house of Mr. Shannon. Medical aid was procured, but after examination little hope was entertained of his recovery, and about one o'clock he died, not having spoken or shown any signs of consciousness after being found.

St. Thomas, Aug. 15.—A serious accident happened here this morning by which a young man named Wellington Toupin sustained serious injuries by falling from the top of a scaffolding. He was assisting Mr. E. Churchill in putting a patent felt roof on the new Arkell Block, and in stepping from the ladder to the scaffold slipped and fell to the ground, a distance of about forty feet.

LONDON, Ont., Aug. 15.—The programme for the Governor General's reception here, on Monday, the 26th instant, is as follows:—Arrive at 6:30 p.m.; reception by the Mayor and members of the City Council, a reception committee and a guard of honour from the 7th Battalion; escorted to the residence of Major Walker, M. P., where the party will remain during their visit to the city; torch light procession at night; Thursday morning visit the Asylum and return to new park grounds, where an open air lunch will be spread, and His Excellency will formally open the park, naming it after Her Majesty, Victoria.

A Toronto gentleman reports the case of a driver of the Gafineau mail stage who, to the horror and against the protests of his passengers, took in a man only partially recovered from small-pox, whose sores were unhealed. Two male and two female passengers, with two young children, were in the stage.—Rev. Teimont Doucet is appointed to the parish of Mount St. Patrick.—At the South Chaudiere since the last account 327 cribs of 8,228 pieces are reported. At the Chats, 1,340 cribs. Gafineau booms, 510 cribs, of 39,393 pieces. Cleared for Quebec, 9,121 cribs.—The Council of the Dominion Rifle Association held a meeting yesterday to arrange the programme and prizes for matches on the 15th of September. The Government and other contributors will bring up the money and prizes to over \$4,000. The programme will appear early this week.—Globe Corr.

The St. John Telegraph says a public work of immense value to the Commerce of the Bay is about to be undertaken by the Government. Tenders are asked for a breakwater from Negrotown Point to within about a thousand feet of Partridge Island, thus leaving that important channel clear. The effect of this work, which may cost a quarter of a million dollars, will be to create a vast harbour of refuge for all the shipping of the bay, a harbour of vast extent and as calm as a mill-pond even in great storms.

ROCKWOOD, Aug. 15.—A serious if not fatal accident occurred at Mr. D. McCaig's last evening, by which a carpenter named Thomas Murphy nearly lost his life. He was employed shingling a barn in course of erection for Mr. McCaig, when he slipped and fell from the roof into the cellar, a distance of twenty-four feet, falling on some stones, breaking his back and injuring himself so seriously that very small hopes are entertained of his recovery. Medical assistance was soon procured, but it is found his injuries are too severe for him to survive.

LAUREN.—A most successful launch came off at Chatham on Wednesday last, of the Quebec, the second of the two propellers ordered to be built there by Messrs. Beatty & Co. for their Sarnia and Lake Superior Line, the Ontario being the first. The Quebec is the larger vessel. Her length is 202 feet; breadth of beam, 34ft. 6in.; depth of hold, 14 feet; her engine has two cylinders, each 36 by 34 inches, which will work up to 800 horse-power.—There are two boilers of the first-class, and they have been already fully tested. Her wheel is ten feet in diameter. Her tonnage is 900 carpenter's measurement, or 1,200 tons dead weight. The Quebec will proceed to Sarnia in a few days.—Globe, 17 Aug.

A strange effect seems to have been produced in Blenheim this summer, either by disease, lightning, or drought, on many trees. In a number of orchards the outer branches of the apple and pear trees are seemingly scorched and withered up. Also in the woods many pines and other trees are shrivelled up and brown looking.

St. Johns, N. B., Aug. 15.—The fire at Fleming's foundry last night destroyed a large quantity of valuable patterns and about eighty tons of coal, besides tools and machinery. The main building was saved. Insurance only \$800, in Liverpool, London and Globe.

Hon. R. L. Hazen, Dominion Senator, died at 8 o'clock this morning, universally regretted. Mr. Hazen was nearly the last representative of the most distinguished of the old loyalist families whose history is identified with that of New Brunswick's early struggles.

PAY UP.—Lives there a man with nose so red who never to himself hath said, "I'll pay before I go to bed, the debt I owe the printer?"—Brandon Republican.

Yes, there are some I know full well, but they, I fear, will go to—well—the place where there's no winter.—Panola Star.

You're blind, Star, you're reason's dim, or you'd not argue such a whim; 'e'en Satan had would not have him who fails to pay the printer!—Tupelo Journal.

We're glad that now the means are found to bring the back subscribers round—so when you're run your course of years, pay then at last your full arrears; but—no arrears to have to pay is better far, we think and say.—Lead Owner.

THE CATHOLIC RECORD.—August, 1874.—Hardy & Mahony, Publishers, Philadelphia.—The following are the contents of the current number:—1. What are the Wild Waves Saying? Chas. H. A. Esling. 2. Legend of the Singing Loper. Eleanor C. Donnelly. 3. Letters to a Protestant Friend.—Second Letter. Very Rev. Dr. Moriarty. 4. How Much He Loved Her. Mrs. M. M. Ward. 5. Life and Love. 6. Summer Musings in the Garden. Very Rev. Dr. Moriarty. 7. Mr. Speckles on Himself. 8. Alice Dornier's Sacrifice. 9. The Divine Institution of the Church Exhibited by the Faith and Practice of Catholicity in regard to the Bible. Very Rev. Dr. Moriarty. 10. The Assumption. 11. The Vatican Basilica. 12. New Publications.

THE MONTH AND CATHOLIC REVIEW.

AUGUST, 1874.—CONTENTS.

Articles, &c.—1. Rome at the Jubilee of 1600. By the Rev. F. Goldie. 2. Experiences in the Prussian Ambulances.—Part III. 3. The Fortunes of Virgil. By the Rev. H. J. Coleridge. 4. Chronicles of Catholic Missions—III. Three Years at Ormuz. 5. Iona. By T. B. P. 6. The Drama of Alexander the Great. 7. Harvey and His Times. 8. The Measures of Catholic Progress. 9. Catholic Review.—I. Reviews and Notices. II. Selections from Foreign Periodicals.—1. The Catholic Congress at Venice. (From the *Orcita Cattolica*.) 2. The Late Brief to Monsgr. Gaume. (From the *Etudes Religieuses*.)

QUARTERLY SERIES.—Notice to Purchasers of Complete Sets.—All the volumes of the *Quarterly Series* being now again in print, Messrs. Burns & Oates are able to offer complete sets, consisting of the ten volumes hitherto published, at a reduction of one-third of the published price. Single volumes as before.

Cases for Binding the 20th Volume (now complete) can be had at the Publishers.

All advertisements to be sent to Messrs. Burns & Oates, 17, Portman Street, W.

The "Month and Catholic Review" is sent post free to subscribers in America on prepayment of 24s per annum. Subscriptions may be paid at the office of this Paper.

BREAKFAST—EPPS'S COCOA—GRATEFUL AND COMFORTING.—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills.—Civil Service Gazette. Made simply with Boiling Water or Milk. Sold by Grocers in Packets only, labelled—James Epps & Co, Homoeopathic Chemists, 48, Threadneedle Street, and 170, Piccadilly; Works, Euston Road and Camden Town, London.

MANUFACTURERS OF COCOA.—"We will now give an account of the process adopted by Messrs. James Epps & Co., manufacturers of dietetic articles, at their works in the Euston Road, London."—See article in *Cassell's Household Guide*.

PILLS.—The lives of thousands are made miserable by the sufferings from this dreadful disease. If every one knew that he could be cured for from one to five dollars, how readily he would pay it. Yet such is the case, Fowle's Pile and Humor Cure in an almost infallible cure. We warrant every bottle, and if it does not cure and afford perfect satisfaction, the money will be refunded.

Consumption, Bronchitis, Dyspepsia, Feeble, Irregular Action of the Heart, and a long list of kindred diseases, are attributed to a low state of the nervous system. Owing to its bracing effects on those centers we may ascribe to Fowle's Compound Hypophosphites, the prompt and decided benefit received by patients laboring under these diseases.

REMITTANCES RECEIVED.

INSOLVENT ACT OF 1869—AND AMENDMENTS

In the matter of ALFRED HOULE, of the City and District of Montreal, Tinsmith and Plumber, Trader,

An Insolvent.

I, the undersigned, Andrew B. Stewart, of the City of Montreal, have been appointed Assignee in this matter. Creditors are requested to file their claims before me within one month, and are hereby notified to meet at my office, Merchants' Exchange Building, St. Sacrament Street, in the said City, on Wednesday, the twenty-third day of September next, A.D. 1874, at the hour of three of the clock in the afternoon, for the public examination of the Insolvent, and for the ordering of the affairs of the Estate generally.

The Insolvent is hereby notified to attend.

A. B. STEWART, Assignee.

Montreal, 17th August, 1874. 1-2

PROV. OF QUEBEC, SUPERIOR COURT.

District of Montreal.

DAME PHILOMENE BEAUDIN, wife of PAUL DUPUIS, Farmer, of St. Philippe, in the District of Montreal,

Plaintiff.

The said PAUL DUPUIS, Defendant.

An action for separation as to property has been instituted in this cause.

Montreal, 11 August, 1874.

J. E. ROBIDOUX, Attorney for Plaintiff.

1-5

INSOLVENT ACT OF 1869,

AND AMENDMENTS THEREON.

In the matter of HENRY GRANT, of the City of Montreal, Jeweller and Trader,

Insolvent.

The Creditors of the above-named Insolvent are hereby notified that he has deposited in my office a Deed of Composition and Discharge, purporting to be executed by a majority in number of his Creditors, representing three-fourths in value of his liabilities, subject to be computed in ascertaining such proportion; and should no opposition be made to said Deed of Composition and Discharge within three judicial days next after the last publication of this notice, the undersigned Assignee will act upon said Deed of Composition and Discharge, according to its terms.

A. B. STEWART, Assignee.

Montreal, August 14th, 1874. 1-6
