All kinds of roofs covered by our Fire and Water-Proof Cement-Paint at \$1.25 and \$1.35 per square, according to kind preferred. ?\$25247",?\$?};?",?\$2\$3;\\$?\$2\$252\$25252

FOR SHINGLES OR METAL OUR ROOFING CEMENT-PAINT IS UNEQUALLED. PRESERVES BOTH WOOD AND IRON, STOPS LEAKS AND DEGAY, AND MAKES OLD ROOFS AS GOOD AS NEW.

A SUPERIOR ARTICLE AT A LOW PRICE IS SURE TO BECOME POPULAR.

A SINGLE TRIAL OF OUR ASBESTOS ROOF SHEATHING WILL GUARANTEE ITS FUTURE USE.

HOW IT IS MADE.

The merits of this Roofing are that it is inexpensive, durable, adapted to steep or flat roofs, table, convenient, fire-proof, will not mildew, can be used over old shapets or tin, not affected guess or condensation, easy to preserve by renexal of conting, a splendid sheathing, water, i, air and vertain proof. Can be applied by unskilled labor.

DIRECTIONS FOR APPLYING.

Sweep the boards of the root clean of all nails, chips, etc., then commence at the eares gutter to lay the roofing; sail the lower eads, using ordinary lath nails with thin heads, shield by the caps. Then let the second sheet land over the first sheet two inchest, being stute; he all laps with the Coment-Paint, then nail as before and so repeat. Use great care in fitting arou

all laps with the Cemean-Paint, then nail as before and so repeat. Use great care in fitting around chimneys, guiters, etc.

Upon flat roofs nails should not be more than one and one-half inches apart from centure of caps, and two inches on steep roofs. The roofing should receive a cont of Cement-Paint the 19AY IT IS 1.A1D, unless it, gets wet; If caught is a shower wait until the Sheathing dries before coating and sanding. The Roofing Cement-Paint should be applied in string from redge to exerc. beginning at end of building and working across to the other end. Use all the Cement-Paint the Sheathing with absorb without running, applying the sand as you go. **Une m Gravet in any caps.**
