(a) secures co-operation of the governments of the provinces of Canada;

(b) recognizes the principle of voluntary choice by the individual;

(c) makes adequate prior provision for sufficient medical research, the training of adequate numbers of doctors and other medical personnel; and

(d) immediately provides for those persons who are unable, for financial reasons, to provide medical services for themselves.”

After further debate, the question being put on the said proposed amendment, it was negatived on the following division:
