

OFFICE OF THE DEAN

McGILL UNIVERSITY  
FACULTY OF DENTISTRY

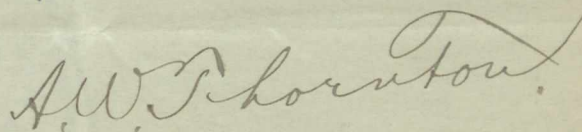

MONTREAL, .....

From the standpoint of our students now in attendance from the Western Provinces, I think we have everything to gain by keeping in as close a touch as possible with the source of supply from these Provinces.

I thought I would like to submit this matter to you before writing to Dr. Bruce. In the meantime I can do some thinking concerning the nature of a paper suitable for the meeting of the Canadian Dental Association in August next.

I am,

Very truly yours,

Dean.
