

QUEEN'S COLLEGE,
4th JUNE, 1857. 3 $\frac{1}{2}$ P.M. }

The Committee to whom the memorial of Dr. George, and letter of Mr. Borthwick had been referred, having reported the result of their deliberations, the following Resolution was adopted: The Board having appointed Dr. Cook, Mr. Spence, and Mr. McMorine to confer with Mr. Weir on the subject complained of, they reported that they had received from Mr. Weir an explicit declaration that he had not intended by the reasons of dissent which he gave in to the Senatus, to endorse or homologate the statements in the letter of Mr. Borthwick, nor did he believe that, fairly considered, they will bear this interpretation. And the Board having dealt with Mr. Borthwick, and obtained his acknowledgment that he had used language fitted to give wrong impressions—in particular that he had made charges against the order and discipline of the College, which, if these expressions be understood in their ordinary sense, cannot be substantiated, and are fitted very greatly to injure the College—which language he now deeply regrets; and further, Mr. Borthwick having withdrawn his complaint given in this day against Dr. George, and expressed his regret that he should have used the language contained in it, and expressed his desire to be received into Dr. George's class to complete his course as a student of Divinity, the Board agreed to admonish Mr. Borthwick to greater caution in future, and to give all due respect and obedience to the authorities of the College, into which they now resolve that he be admitted. And the Board do trust and expect that Dr. George, who has had just cause of offence in the paper which has given rise to this case, will allow the whole matter to drop, and receive Mr. Borthwick into his class. And the Board take this opportunity of renewing the expression of their entire confidence not only in the eminent ability, but in the unwearied diligence of Dr. George in the discharge of his important duties.

Meeting adjourned to same evening at $\frac{1}{2}$ past 7.
