and Local Superintendents' Reports, have been duly transmitted to this Department.

The basis of apportionment to the several Counties, Cities, Towns, Villages, and Townships for this year, is the population as reported in the census of 1861, which was also adopted last year, and I have no more generally accurate statistics of a later date.

Where Separate Schools exist, the sum apportioned to the Municipality has been divided among the Common and Roman Catholic Separate Schools therein, according to the average attendance of pupils at both classes of Schools during last year, as reported by the Trustees.

The gross sum apportioned to all the schools this year is about \$6,000 more than that apportioned last year.

It is particularly desirable that the amounts should be applied for not later than the third week in July, as it is inconvenient to delay the payment. There are, however, a number of municipalities which have not yet sent in their account of school moneys, now several months over due, and in these cases the payment must necessarily be deferred until the law has been complied with.

I trust that the liberality of your Council will be increased in proportion to the growing necessity and importance of providing for the sound and thorough education of all the youth of the land.

I am Sir, your obedient Servant,

Education Office,

E. RYERSON.
