## Credit for You Means Employment For Canadian Workmen

Our House Furnishing Clubs are proving a great boon to hundreds of people who want to go on with their house furnishing, and yet do not care to make a big hole in their cash reserve.

By ordering their furnishings now, they keep employment normal, and whether the goods are all made in Canada or not, they are doing a great deal to keep the ship of state on an even keel. The Hon. W. T. White said in his budget speech:

"I look to the tariff principally for relief from existing financial conditions. Taxation imposed by increased customs duties would bear upon all classes of the community, and THUS ALL WOULD BE CONTRIBUTING TO THE COST OF THE WAR AND TO THE DEFENCE OF THE COUNTRY."

Come and see the Secretary Monday, if you want to be in on this
