HAMILTON, Jan. 11.—(Special).—The trial of Thomas Finton, charged with the murder of his father, Elijah S. Finton, a Saltfleet farmer, on April 26, 1910, came up before Judge Teetzel in the court house here this morning. The case has attracted a great deal of attention, and long before 10 this morning, the hour at which the hearing was to begin, the court room was jammed. During the day the crowd inside grew so great that a number of people who were standing were pushed thru the glass doors. The counsel in the case are George Tate Blackstock, K.C., and S. F. Washington, K.C., for the crown, and George Lynch-Staunton, K.C., and S. D. Biggar, K.C., for the prisoner.

THE CANADIAN PACIFIC AND ITS RATES

The real substantial issue of the people of the Canadian west, as well as of the people of the east, the issue of all Canada, turns on the rates for passengers, for freights, for telegraphs, for express, of the Canadian Pacific Railway. What did Sir John Macdonald mean when he put in the original act authorizing the bargain with the syndicate who built that road, by what is called the ten per cent. clause?

OPTIMISTIC AIR IN PORCUPINE GOLD FIELDS

World's Special Commissioner Writes of New Points Springing Up Regularly—Railway Communication Is the Great Need of the Country.

THE WORLD IN PORCUPINE

The Toronto World has sent a special commissioner into Porcupine gold fields. Charles Fox, an experienced journalist, formerly of the Cobalt Nugget, and before that engaged in a responsible capacity on The Grand Rapids Dispatch, left Kelo Mines yesterday morning for Porcupine City. He will represent The Toronto World in Porcupine gold fields. A five-room portable house, purchased from Sovereign Construction Company, Lumsden Building, Toronto, equipped with furniture supplied by the R. Simpson Company, was shipped to Mr. Fox on Tuesday. This house will be on the ground at Porcupine City by Saturday, and at once The Toronto World will have a home of its own in the new gold fields.

KELSO MINES, Jan. 10.—(From the Man-on-the-Spot).

Just as the flow of travel during the holiday week was to the outside country, now has the tide of travel set back towards the gold camp, and each evening train from Toronto brings men of note in the mining game, as well as the prospector and the miner. Stage men declare the numbers going back to the camp are not yet up to normal, but that each day brings in a few more than the regular traffic. Heavy storms between Englehart and Timmins have interfered with the train service, and if trains here arrive at their destination in this country, not more than two hours late, it is considered good. There is an air of optimism over Porcupine that reaches the ears of every man on the mine. It is said that general confidence of success in the end, which means at the least the country, will be thoroughly developed.

LE CANADA WANTS CURB ON POLITICAL PRIESTS

Episcopal Interference Necessary, It Declares—Endorsation of Nationalist Movement.

MONTREAL, Jan. 11.—(Special).

The French Liberal press, especially, is out in open protest against the interference of the clergy in favor of the Nationalist movement. Le Canada says that the ministerial newspapers are denounced as dangerous, and in one instance the reading of a Liberal paper is forbidden in a certain college, while Le Devoir, with its coarse language, lies and appeals to prejudice, and the student a bishop even going so far as to send one of his priests out on a mission in favor of such a paper. Before such a state of things Le Canada wants to know where it is all going to stop. "We have, however, the assurance of the leaders of the church that they are against this exploitation of religious sentiment in favor of any political cause; that the holy see absolutely condemns the reading of political newspapers in their seminaries, and in a word, the church, by its doctrine, has always placed itself above political passions. "We believe, therefore, that direct episcopal action will have to be resorted to in order to put an end to this intemperate zeal. Certain priests, by their excessive intolerance, will soon have created the painful idea that religious and political interests are in common, and that in order to be a good Catholic one must be a good Nationalist. It is, indeed, time to put an end to such reasoning."
