The well-known proprietary medicine firm of the J. C. Ayer Co., Lowell, Mass., have recently opened an office in the Bell Telephone Building in order to give closer attention to their Canadian business. It is not generally known that they already have a large laboratory in Montreal, having manufactured there for several years. The intention is to make the business thoroughly Canadian and to strengthen the facilities here so as to keep pace with a constantly growing demand.

The J. C. Ayer Co. are not only one of the largest manufacturing concerns of their kind in the world, but they are among the largest advertisers, spending a million iollars every year in advertising, mostly with have unearthed what they believe to be a vice to be extension of the Dayton vein on their ground.

\$3000 for a Haircut. Havana, May 6.—The Spanish buil-fig ter, Mocalvo, while en route to Span from Mexico, came ashore at Havana.

He was arrested for drunkenness, and Capt. Pitcher, who imposed a fine, ordered also that Mocalvo's hair be cut.

This was done and the Spanish builfighter now claims damages to the amount of \$3000, contending that on account of having his hair cut he would not be permitted to enter the bull-ring, it being necessary to have a queue.

THE DOSE PROVED FATAL.

New York Swallowed a Toil-

et Preparation.

WM. H. HOLLISTER, Esq., Of Messrs. Kountze Bros., Bankers, New York.

This Company commenced the business of fire insurance on May 15th, 1899, and has already received in premiums, after deducting all charges for re-insurances, rebates, etc., over \$160,000.00 upon which the loss ratio has been but nominal.

Its Shareholders consist of many of the most prominent and successful business men in the

prominent and successful business men in the Dominion, and the Company is enjoying great advantages thereby, because of their influence and the business they control.

The premiums on Canadian business have always shown a regular and steady increase, as per the following table, covering the preceding ten years:

- - \$5.836,071.00 | 1895, - - - 6,168,716.00 | 1896, - - - 6,512,327.00 | 1897, - - - 6,793,595.00 | 1898, - - - 6,711,369.00 | 1899,

The success of the two principal Canadian Companies, the "Western" and the "British America" of Toronto, is well known, and their record for regularly paying substantial dividends, white at the same time increasing their assets, has

kept the market values of their stocks far above par.
The market values of the stocks of the British Companies

doing business in this country average over 800%; and the average of the American companies operating in Canada is 26,3%. The dividends paid by the latter average 15.33%, while the average dividends of the English companies are even higher. The assets in Canada of all the companies engaged in the busines of fire insurance have increased during the past ten

reinsurance, which this Company can write thereon.

Subscribers to this stock to the extent of five ing the immense sums received as interest upon investments, a large margin of profit.

The ratio of losses to premiums received in Canada for 1899 was the smallest for ten years, the average being 56.02%. The loss ratio of the "Victoria-Montreal" from May 15th, 1899, the date upon which the Company commenced business, to Dec. 31st, of the same year, was only 15.04%; while the loss ratio, on its total premiums from the date of its starting business to the present time has not exceeded 15%; showing that every care has been exercised in the selection of its risks.

Strong corporations in every branch of industry have incomshares are entitled to a rebate of 20% on all premiums of insurance on their property placed in this company.

Assets, December 31st. 1883, - - \$11,731,519.91 December 3:st. 1898, - - 20,684.785.30

Increase in ten years. - - \$ 8,953,265.39 The total fire assets of these companies, (excluding the life assets of the corporations combining life with fire insurance) advanced during the same period by nearly \$50,000,000.00 and in addition to the acquisition of this enormous sum, large dividends have been regularly paid to the shareholders.

Owing to better fire protection appliances and water supply, superior construction of buildings, and a more careful inspection thereof, the percentage of fires confined to the buildings in which they originated, as compared to the total number of fires, has within the past few years greatly increased. The danger of conflagrations has therefore been much lessened, and the chance of a large loss disturbing the average of the year's operations been rendered more remote. The "Victoria-Montreal" will, so far as it is possible to do, abide by the rules and rates of the Canadian Fire Underwriters' Association,

Strong corporations in every branch of industry have incomparable advantages over those of small calibre, and fire insurance offers no exception to the general rule.

With the large cash capital which the "Victoria Montreal" will have, it will be in an unassailable position, and will be able to most successfully compete for business. By its ability to spread its risks over a wide area, which, with proper management, is the essence of the science of underwriting, and with its large income, it will necessarily, being entirely independent of local conditions, make a substantial profit year after year, with much greater ease and to a much greater extent than would be possible for a company operating upon a smaller scale.

The connections which the Company has been fortunate enough to make, are and will be to it of the greatest possible benefit. They will assist it to become one the largest fire insurance companies of this continent, and enable it to reach a high place among the strongest financial institutions of Canada. A property owner will thus see that, independently of the dividends to be paid on the shares, which there is every reason to believe will be large, and will alone amply repay the investment, the agreement referred to above will enable him to realize, in addition thereto, an amount equal to interest upon his shares at from TEN to TWENTY PER CENT. per annum.

With the advantages above enumerated;—a good business already established, the large and profitable field which is open for its operations, the influence of a superior class of Shareholders, conservatism and energy on the part of its directorate and management, and a strong financial position, it is believed that the shares of the "Victoria-Montreal" offer exceptionally good opportunities for investment, and that the results thereof will be highly satisfactory. This privilege is to remain in force for a period of five years.

Subscription lists will be opened at 10 o'clock a.m., on Tuesday, May 8th, 1900, and will be closed at 3 o'clock o.m., on Friday, Way 11th, 1900, or earlier, the right being reserved to reject any application. Subscriptions for stock and remittances in payment thereof to be made by cheque, registered letter, Post Office Order or

TERMS: 10% payable upon application; 15% upon allotment; 25% on July 1st; 25% on September 1st; and 25% on November 1st.
