SIR OLIVER WON'T ATTEND

The Chief Justice and Not the Lieutenant-Governor Will Prorogue the Legislature.

THE NEW TEMISKAMING RAILWAY

Was a Live Topic Yesterday—Opposition Retreated Their Objections to Lack of Information.

Before the legislature adjourned last night Premier Ross announced that he regretted to say that the Lieutenant-Governor, Sir Oliver Mowat, would not be present when the House formally prorogued, but the government, he added, had secured the necessary permission, and the Chief Justice would perform the ceremony.

The Temiskaming Railway.

The Temiskaming and Northern Ontario Railway Bill was the all-important topic at yesterday's proceedings of the House. The House went into committee on the bill, and the appointment of the Board of Commissioners to supervise the line's construction, and the general lack of information on the subject, were the opposition's principal grounds for objection to the bill.

Passed Third Reading.

The following bills were given their third reading: To incorporate the Middlesex and Elgin Inter-urban Railway Company, Mr. Robson. To incorporate the Southwestern Traction Company, Mr. Robson. Respecting the Algoma Steel Company, Limited, Mr. Farwell. To confirm certain by-laws of the Township of Cornwall, Mr. McLaughlin.

To change the name of the Town of Tillsonburg.

Mr. McKay.

Respecting the Algoma Tube Works, Limited.

Mr. Farwell.

Respecting the estate of William John Moore, deceased.

Mr. Truax.

Agreements Ratified.

The Commissioner of Crown Lands asked the House to ratify the new agreements between the government and the Sturgeon Falls Pulp Company, Neskonong Pulp and Manufacturing Company and the Blanche River Pulp and Paper Company, and made a motion in this effect. He also gave an explanation of the terms of the agreements, which have already been published.

Mr. Whitney said the opposition's policy in connection with pulp wood grants was unchangeable.

Mr. Whitney said the opposition's policy in connection with pulp wood grants was unchangeable. He believed that it was improper to give away large tracts of country to corporations without the people first understanding the agreement. He added that the government had never given a clear, honest explanation of agreements entered into with corporations. The agreements were ratified.

Temiskaming Railway.

The House went into committee on the Temiskaming and Northern Ontario Act. The Commissioner of Public Works

Commissioners Unnecessary.

Mr. Whitney lodged a decided objection to a clause in the bill, which provided that from three to five commissioners should be appointed to supervise the construction of the road. Was it necessary, he demanded, that a road 100 miles in length should require five men at \$1000 a year to oversee its construction? He held that it was absurd, and the government was simply providing for five of its supporters.

Mr. Whitney's Remark.

The Attorney-General said that Mr. Whitney's remark was unbecomingly and that he had heard of a Board of Railway Commissioners consisting of less than five members.

Mr. Matheson thought the Commissioner of Public Works should undertake the work. He didn't have much to do and could spare the time.

Mr. Crawford thought that, and then, if the work was not carried out, he would be held responsible, and there would be no hiding behind a commission.

Mr. Whitney: The fact that these commissioners are only to be paid \$1000 a year is proof positive that they are not needed. If they were good men, capable and experienced, they would not give their services for any such a small sum.

Mr. Powell gave the notice for it.

The government's intention to use the line along the route was to help for the cost of building the line. The Commissioner of Public Works answered that the bill gave the government power to set apart townships for the purpose.

Wanted More Information.

Mr. Carscallen held that before the House committed itself some reasonable idea of the cost should be given before they were asked to endorse the enterprise. He complained that the Ministry had been remiss in their duty in not bringing down more information.

The Commissioner of Public Works said that the government engineer had estimated the total cost of the line at \$2,250,000, and for this sum he (the speaker) had been assured the line would be built.

Hon. J. R. Stratton generally decried the course that the government had pursued in the matter, and should not enter into any other business, and should be paid a fair salary so that it would not be necessary for them to do so.

MAY STRIKE ON MAY DAY

Bricklayers Refuse to Compromise and Hold Out for 45 Cents an Hour.

THIS IS AN INCREASE OF 10 CENTS

Painters Will Stand By Their Demand—Big Dayton Strike Reported Settled.

It looks as if the union bricklayers of the city will strike on May 1. The employers have offered to compromise, and the offer has been refused by the men. At a meeting of the Bricklayers' Union last night in Richmond Hall, the communication was read from the employers, who offered to pay 41c an hour. The men decided to refuse the offer, and will demand what they first asked for, 45c an hour.

At present the bricklayers receive 35c an hour. They have a work-day of eight hours.

At a meeting of the Painters' Union last night in Richmond Hall it was decided to stand by their demands, notwithstanding the threat of the employers to declare it a lock-out if the men present they are receiving 25c an hour for an eight-hour day.

Word was received in the city yesterday that the long-drawn-out strike in the National Cash Register Company's works at Dayton, Ohio, had been settled. The strike was inaugurated about two years ago, and several thousand men were affected. No particulars of the settlement were given in the message.
