where

Montreal, Oct. 24.—Sir Wilfrid Laurier left this morning for Quebec, but before his departure the Prime Minister of Canada told his friend, Hon. George A. Cox, that ten days would elapse before a successor to Hon. Mr. Tarte would be appointed. The opinion is strengthened here every day that ex-Mayor Prefontaine is booked for promotion, which will either be a portfolio or the Speakership. With Mr. Tarte in the cabinet, Mr. Prefontaine would not have accepted a minor portfolio, but now that his old enemy has gone it is supposed that the ex-Mayor will take anything that comes his way.

It is noticed that the member for

count of the persistence of the rumors passing the Public Works portfolio over to the Province of Ontario. This move is believed to be in the Premier's mind, hesitancy on Sir Wilfrid's part to take a department from this province and thus give Mr. Tarte a splendid text for a score or more articles in La Patric.

Be this as it may, Sir Wilfrid has given it to be understood that there will be no more protection. A delegation from the Reform Association of this diy waited on the Premier to-day. Sir Wilfrid, in his reply, after thanking the association for their entire support, stated that the question of tariff had now, of course, become one of paramount importance. For the present, at least, no change would be made in it. He would have to confer with his colleagues on the subject. The matter would have to be gone into thoroly, and then if it was decided to make an nounced at once. In concluding his remarks, the Premier referred to the difficulty of making the appointment of a Minister, and took occasion to thank the special subject. The matter would not discuss the Tarte incident, and took occasion to thank the special subject. The matter would not discuss the Tarte incident, and took occasion to thank the special subject. The matter would not discuss the Tarte incident. The shot took effect and the engineer fell dead at his post. The robber then proceeded to rifle time at his house on O'Connor-street to-day. The selection of a successor has narrowed down to Messrs, Brodeur and Prefontaine. While Mr. Sutherland may be given the Public Works Department, as hinted in some durters, there are those who think that the Montreal Liberals will oppose it going to an Ontario man.

LEADER BORDEN'S RETURN.

Montreal, Oct. 24.—Mr. R. L. Borden, Mr., reached here this evening, accompanied by Mr. Northrup of East Hastings. The Conservative leader said he to Deer Lodge, about fifty miles away. Bloodhounds were sent out at once, and search for the robbers beginned to the subject. The matter would not discuss the Tarte incident. It was thought at first that eight men were engaged in the hold-up, but the latest advices are that one man alone perpetrated the murder and probbery. hesitancy on Sir Wilfrid's part to take
