GREAT BRITAIN SPECULATES AS TO APPOINTMENT

High Qualifications Are Necessary For Post

BYNG'S POSITION

Reasons For His Retirement Considered to Have No Political Aspect

By HERBERT BAILEY. British United Press.

LONDON, June 18—Who will be the next Governor-General of Canada? This is the question that is beginning to excite official and social circles here. Some time must pass before any decision is made, inasmuch as Lord Byng's term does not expire for another 14 months and because protracted consultations will have to take place between the home and the Dominion governments and the King.

Officials here have already formed definite views as to the qualifications necessary for the important and responsible post.

PRINCE HENRY NAMED

The name of Prince Henry is again being mentioned and it is noteworthy that he alone of all the Princes will be present with his august father when the latter opens the new Canada building on Monday, June 20, while his interest in all things Canadian has been patent for some time past.

MAY BE MONEY. No significance is attached here to Lord Byng's declining to accept another term as Governor-General of Canada after his five years of office expires next summer. The grounds of refusal are believed to be purely personal and the question of finance may enter into the situation.

Lord Byng is not a rich man, and it is known that he has often to dip in his own pocket to meet the expenses of his position. The Colonial Office points out that there are no political reasons affecting his decision, and it is also evident that having been once Governor-General of the Dominion of Canada he cannot accept a post in any small part of the Empire, while the major posts are all filled.
