

SPORT NEWS GLEANED FROM WORLD'S CENTRES

ROYALS BATTLE TO TIE WITH GUNNERS

Freddie Diggs' Retort to Fan Arouses Considerable Merriment.

In addition to hurling a mean kind of a ball game, "Freddie" Diggs, of no-hit fame, pulled about the most effective reply heard in many a day on the South End grounds last night when the Royals and Machine Gunners played a tie. The colored star with the scoring standing 2 to 1 in his favor in the final inning was pushed into a hole by errors and uncorked a wide one with the tying run on third. One of the fans started "riding" Diggs. Apparently, it got under his skin and he strode up to the netting and invited the fan to come down on the grounds. As a final squelcher, "Freddie's" parting shot was "What do you want for fifteen cents?" The fans laughed loud and long over this retort and it was several minutes before the game got underway again.

On merits, Diggs deserved to win last night. He held the Gunners to four hits, struck out 6 men and knocked in one of his team's runs with a timely single. Entering the final inning, he faced Lenihan, who singled and went to second on McAleer's high throw. Carpenter grounded out and Lenihan managed to reach third. Cummings fanned. Johnny Noel grounded to Harper who juggled the ball and Lenihan came over with the count that saved the Gunners' bacon. The next man was an easy out.

The fielding of young McAleer at third for the Royals was outstanding. Although a mere youngster, this boy handled six hot ones last night with an error. He is proving a big help to three times up and stole three bases while Roy Nelson as usual made himself solid by his all-round good playing. Carpenter was on the mound for the Gunners and was little behind Diggs in effectiveness. Johnny Corrigan, star third baseman for the Portlands, was in the Gunners' lineup last night. He failed to hit but had three assists and two putouts with one error. Barry caught a good game for the Gunners with Sparks on first.

Box Score and Summary.

WESTFIELD LADIES WIN GOLF MATCH

Defeat Members of Fredericton Club by Score of 30 to 14.

The ladies of the Fredericton Golf Club were entertained by the ladies of the Westfield Golf and Country Club at Westfield yesterday. A match was played and the Westfield team won, 30 to 14. Luncheon and afternoon tea were served at the clubhouse, which was very attractively decorated with garden flowers in a color scheme of blue and rose with ferns. The weather was ideal and the visit of the Fredericton players was a greatly enjoyed social occasion.

How Will Epinard, Great French Horse, Make Out When Pitted Against America's Best?

New York, July 23.—What will be Epinard's fate this season? The great French horse is now in this country training for a series of races against the cream of the American turf.

Epinard's first start will be made at Belmont, the second at Aqueduct, the third at Latonia.

The Latonia event is likely to overshadow the other two in point of national interest because Black Gold, champion three-year-old of the current season, will be listed among the starters.

This recalls the visit of Papyrus to this country last fall. Papyrus was greeted as the super-horse of the European turf, just as Epinard is now. Papyrus was sent against Zev, the then champion three-year-old of the States, and was roundly beaten. Zev won in a canter by four lengths. Papyrus was never in the running.

Climate Beat Papyrus?

After the race veteran horsemen expressed the opinion that Papyrus was a much better horse than the result indicated. "No horse can come from one country to another and get perfectly acclimated in less than six months' time," they contended.

How will this theory hold in Epinard's case? The French horse has only recently arrived. In less than two months' time he will be swinging into action against the fastest horses in this country. Will he succeed where Papyrus failed? Time alone can tell.

Epinard is a beautiful horse with every characteristic of a champion. Competent observers say Epinard is a much better horse in every respect than Papyrus, being sounder, of legs and much longer gaited. So far the French invader has shown no ill effects and appears to be acclimating splendidly.

Black Gold's Big Race

Some of the thoroughbreds that are sure to start against Epinard are Ordinance, Ludkin, Wise Counselor, Zev, Grey Lag, Mad Hatter, In Memoriam, Chacole, Chihowie, My Own and Black Gold.

Because Black Gold has had the most spectacular record of any American horse this season he stands out as Epinard's foremost challenger, and the meeting between the two is likely to excite as much interest as the one between Papyrus and Zev did last year.

Black Gold has won four derby events since spring, starting with the Louisiana Derby at New Orleans. Next came the Kentucky Derby at Louisville, the Ohio Derby at Cleveland and the recent Chicago Derby at Chicago.

Black Gold would have to carry 113 pounds, according to the Kentucky age scale in October. Epinard, a four-year-old, would carry 122 pounds.

WOLVES DEFEAT ALL-STARS, 7-6

Victory Gives Them a Good Lead in the Pennant Race.

The Wolves beat the All-Stars 7 to 6 last night on the Acadia diamond in one of the most exciting games played there this season. The Wolves started out in the first inning with two runs. The All-Stars evened things in the second and the Wolves pushed an over in the third, two in the fourth and one in the sixth, which made things look blue for the All-Stars, but the latter came in and slugged their way to a tie in the sixth. The Wolves tallied again in the seventh, which score clinched the game. The feature of the contest was a double play to Wolfe. Score by innings: 0 1 1 0 0 0—7
M. G. S. 0 0 0 0 1 0—6

Summary.—Two-base hit, Cummings. Sacrifice hit, Cummings. Stolen bases, Harper 3, Diggs, 3, Noel, 3. Bases on balls, off Diggs 3, off Carpenter 3. Struck out, by Diggs 6, by Carpenter 3. Passed balls, Austin 2. Umpires, Brittain and Sproule. Time of game, 1 hour 35 minutes.

LEAGUE STANDING.

Wolves 7 10 2
All-Stars 0 20 0 40—5 7 2
On the East End grounds, the St. John's Wolves and the Acadia Cardinals clash tonight in another league fixture.

Games Tonight

Provided the weather man is gracious ball games are scheduled for the East, South, North and West Ends tonight. On the East End grounds, the St. John's Wolves will try to use the Clippers as a stepping block to reach the Portlands in the race for the City League pennant, which winds up next week. Counting tonight's game, the Saints have three more scheduled games to play and a few postponed and tied ones. It can be seen then that tonight's game is important. Murphy and Sterling will be the opposing twirlers.

Another throat-slitting party will be staged on the South End grounds between the Machine Gunners and the Saints. Whoever wins tonight, the Trojans are bound to improve their position at the top of the Gunners and Saints are their leading opponents. The Gunners had a narrow squeak last night against the Royals. Johnston or Brooks will hurl for the Gunners and either Dalton or Moore for the Saints. It promises to be a merry party.

In the Civic League, the Post Office meets the Customs on the North End grounds and the Nationals and Martellos clash on the West End grounds in the intermediate league.

COSTS HIM \$25.

A fine of \$25 was imposed by Police Magistrate Limerick in Fredericton on Albert Agon, or Agar, of Devon, who pleaded guilty to a charge of kidnapping his six-year-old daughter from the Children's Home, Woodstock Road.

IS PROMOTED.

The Canada Gazette in its last issue contains a notice of the appointment of Harry Charles Ellis from clerk to currency teller at the St. John Savings Bank.

Olympic Heroes

IL-H. M. ABRAHAMS. By FRANK GETTY

(United Press Staff Correspondent.)

New York, July 23.—It was back in 1919 that the United Press correspondent first saw in H. M. Abrahams the coming sprint champion of the generation. Out at the Queen's Club, London, one hot Saturday afternoon—one of those rare hot days in England—Abrahams, an undergraduate at Cambridge University, was competing against Oxford in the inter-varsity games. If ever there was a perfect piece of running machinery, it was this young Jew. Powerfully, yet litely built, he ran like an automaton. Those days, he was not as fast as he is now. He had not yet reached his peak. But he could run it in this consistently, winning his heats in 10 flat and the finals in better times. In the final, the fastest performer was the Cambridge youngster that it seemed inevitable that when he should get his full strength and the benefit of years of experience he would be unbeatable.

The nearest approach to Abrahams that we have in this country is Frank Hussey. The Brooklyn school boy's perfect form reminds one of the Englishman's. Jack Scholz is faster than Hussey, with that sailing drive at the tape; Padlock is faster, but Padlock "climbs" badly; seeing the erstwhile "fastest human" in action this year it is hard to figure out how he made his time. There is waste motion gone. Hussey, like Abrahams, is a product of perfect coaching, which leads to no waste whatever.

It is just a question of developing more strength to devote to it. Abrahams never seems to be tiring; he is always balanced, never wobbles, never loses an inch in the dash down his lane.

The United States had counted on first place in the 100 metres at Paris. Jackson Y. Scholz, N. Y. A. C. star, was looked to win this event. Abrahams had run in this country and had been beaten, and was not given full credit for being the runner he is. In the final heat, he upset all predictions and American hopes, and it was the flying heels of her Jewish subject showed the way to the fastest from the U. S. A. What had been overlooked was that Abrahams had run the 100 metres in 9.8-5—world's record time—less than a month before the Olympic Games were held.

It is the opinion of many critics that it will be someone like Abrahams who will definitely lower the world's record for the 100 yards and 100 metres. A forerunner of the type of Jack Scholz or Charley Padlock might do it once, by rising to a certain occasion with all

ARMY AND NAVY IN SOCCER TIE

The Garrison and R. C. N. V. R. Soccer teams played a 2-2 tie game last night on the Barrack Green, when the fans witnessed some good football. Both teams were in fine form. The game started promptly at 7.30 and a few seconds afterwards McNiven, of the Garrison team, missed an open goal. After the Navy players cleared the ball from their own goal they carried it to the Garrison's goal and Dunn, scored for the Navy. No other score was made before half time.

Fifteen minutes after resumption of play, the score was equalized once more when Chastain, of the Navy team passed the ball to his own goal-keeper who fumbled it and it went through the net. Shortly afterwards the Navy had three corner

STAR CATCHER OF CUBS INJURED

O'Farrell Sustained Fracture of Skull—Hit by Foul Tip.

Chicago, July 23.—The Chicago Cubs lost the services of one of their star catchers for about a month when Bob O'Farrell's skull was fractured in the first game of yesterday's double header with the Boston Braves. He was hit by a foul tip off McNish's bat in the first inning. The ball struck his mask, driving the tip of it into his forehead. At the hospital where the catcher was taken it was said that he had suffered a fracture over his right eye.

WILL HOLD MATCH RACE.

A match race between Billy Miller and Honest Jerry is slated to be held at Moosepath on Saturday afternoon.

Best two out of three half-mile races will decide the contest. Considerable interest is being taken by the racing fans in this event.

CUSTOMS TEAM DEFEATS LEADERS

Vanquish Water Dept. Nine and Prevent Them Clinching Series.

The Water Department team was frustrated in its effort to clinch the first series in the Civic and Civil Service League on the East End grounds last evening, when the Customs emerged from the contest with a two-run margin, the score being 11 to 9. The Water Department now has one more game to play in the first series, and to capture the series without the possibility of a tie, the team must win this remaining contest, which is with the Post Office team.

SAVED—Yet Under All Prices

If half the fussy men of St. John went in a body to a good tailor and offered hundreds of suit orders in one with cash down—what price could he manage?

If he were a wise tailor he would take this huge contract to a back street upstairs location, get a crowd of tailors together and so cut costs down that the price would drop down below ready-mades.

That's exactly the way the Triple C Tailors have organized—and that is why not only half, but the big majority of fussy St. John men come here for full tailored value—below the price of skimmed ready-mades.

Ball Problems By Billy Evans

QUESTIONS.

1. There is a runner on first base. With the batter in his box the pitcher stepped on the rubber with the ball in his possession. The pitcher made a motion as if to deliver the ball to the batsman, but instead swung around on his right foot until he faced first base, stepped directly toward that bag and threw the ball there. There was not the slightest pause or hesitation in the entire motion. The first baseman threw the ball to the second baseman who retired the runner from first at that bag. The team at bat contended that the pitcher had committed a balk and the runner was entitled to advance to second. The umpire, however, ruled otherwise and allowed the out, making the claim that the pitcher had not started his motion but made a direct throw to first. What about this play?—B. H. O.

2. Is it possible for a ball and a balk to be declared on the same pitch to the batsman?—K. M.

ANSWERS.

1. The calling of a balk is entirely up to the judgment of the umpire. In the case cited he ruled no balk and the side at bat must abide by the decision. From the way the play is stated, I would say the umpire erred. A pitcher to properly throw to first to catch a runner must first step in the direction of the base, then throw. It seems the pitcher, after making a preliminary pitching motion, wheeled and threw to first, which is a balk.

2. There cannot be two decisions on the same pitch. The moment the umpire rules balk, play is suspended, and no further action on the pitch possible.

MODEL YACHTSMEN GOING BACK TO LAKE

Members of the St. John Model Yacht Club tried a course on Courtenay Bay last evening in conducting races for model yachts, but have decided to hold future races on Lily Lake owing to the inconvenience experienced. There was a good strong breeze blowing but the tide was on the ebb and the lack of enough suitable row boats to foist the yachts caused no little trouble. The yachtsmen and a large number of spectators were disappointed.

The first race was for the 40-inch class. It was a boat to windward, to a buoy and then a run home. The "Maid of the Mist" owned by R. Belva, finished first, the "Louisa S" owned by H. Silliphant, second, and the "Phyllis" owned by S. Silliphant, third.

NATIONALS WON.

Last night's game on the Improvement League grounds went to the Nationals by default, as the St. Luke's were two players short, after Umpire McLeod had officially pronounced the game forfeited to the Nationals, an exhibition game was played, the Nationals winning, 9-4.

Batteries—Nationals, Northrup and Wittrein; St. Luke's, McMurray and Williams.

Weather permitting, the Martellos and Nationals will meet on the Queen Square diamond tonight.

INTERMEDIATE MEETING.

An important meeting of the City Intermediate Baseball League has been called for Thursday night at 8 o'clock in the St. Luke's church rooms by the president, C. M. Ellsworth. Each club is requested to have a representative present.

Circumstantial Evidence.
"I have a new baby brother."
"Is he going to stay?"
"I think so. He has all his things."

CARPENTIER READY FOR TUNNEY BATTLE

Expect to be Heavier Than When He Fought Dempsey.

New York, July 23.—Georges Carpentier will step into the ring with Gene Tunney at the Polo Grounds Thursday evening in excellent physical condition, he asserted yesterday. Having trained as hard for this as he did for the international battle with the heavyweight titlist, Carpentier believes he has a splendid chance of winning.

In proof of what he says, Georges went through some light work at his quarters in Great Neck yesterday, showing speed and, after an hour's labor, surprising stamina. He stepped on the scales after his workout and tipped the beam at 174 pounds.

"I will be heavier than when I stepped into the ring with the champion," said Georges. "I will just stay at that weight until after we weigh in Thursday afternoon; then I will relax completely, and by the time the first going sounds I will weigh above 178 pounds, and may reach 180. At that weight I will be strong and will be able to force the fighting with Tunney."

Tunney and Carpentier both wound up their heavy work yesterday. From Red Bank Tunney sent word that he was in the firm and was anxious to have the battle get under way. He says he never was in better condition and he indicated that he does not underestimate Carpentier, who will be a dangerous opponent, even though he is in his seventeenth year in fistie harness. Tunney believes that the fifteen-round distance will prove too much for Carpentier and that if he does, he will have little trouble in doing so after that session.

However, in the Carpentier camp no fear is held on this score, for it is maintained that Georges has trained himself in such a way that he will be able to stand fifteen rounds at about even pace. Tunney desires to set, not counting the possibility that Carpentier may land his famous right and end the bout within ten rounds.

Paul Berlenbach and Angie Ratner, who meet the semi-final, are reported in excellent shape for their twelve-round engagement. This also holds true for Harry Maset and Pay. Fritsch, Mason, the lightweight titholder of England, is held a favorite to win over Fritsch, but the latter has a host of optimistic friends.

Save Your Money With Fundy Gas

Get along on half the oil—half and less than half the repair expense—one-tenth the carbon—and less gasoline from more mileage—by sticking to Fundy Gas.

Fundy Gasoline has such higher power and smoothness that motorists boost it in a word for its "pep."

But the quality of purity that produces its "pep" creates economies in oil, in repairs, in carbon, in mileage.

Its greater purity and full freedom from kerosene or adulteration means a cleaner explosion—no lagging kerosene to cut into your oil and wear down
