THE EVENING TIMES-STAR, ST. JOHN, N. B., WEDNESDAY, AUGUST 13, 1924

## In the Old Burial Ground

Today the Times-Star completes publication of the list of those interred in the Old Burial Ground, as revealed by the inscriptions on the tombstones that have survived the ravages of time and weather. Judging by the comments that have been heard and the messages that have been received at this office, the matter has been one of much interest and citizens feel that Commission Harding has done a good thing in having this record made of the people of early St. John who were laid to rest in the city's first cemetery. ## NEW FEATURES FOR FALL EXHIBITION

Reports Are Presented At Meeting of Board of Directors.

At the meeting of the board of directors of the St. John Exhibition Association held in the association office yesterday reports on all matters dealing with the exhibition, which begins on Aug. 30, showed that things were well advanced. No contract has as yet been given to a caterer for the dining hall and it is still open for bids.

Space on the two main floors of the main building is absolutely sold out and some exceptionally fine industrial exhibits are looked for. There will be several novel exhibits this year, the chief one of which will be the dairy exhibit by three local dairies assisted by others interested. Twice daily there will be offered to the public demonstrations in the pasteurizing of milk, butter-making and other dairy operations.

Endeavors are being made to have all cheese manufacturing plants in the province and, if possible, all in the Maritime Provinces, arrange for exhibits of their wares this year. Exhibitions of cheeses not made in New Brunswick, such as Limburger and Roquefort, are also being sought.

A health exhibit in conjunction with these booths will point out the food values in milk products. Machinery used in the various processes will be displayed.

Big Free Show.  
The dog show and the poultry show give promise at this early date of being splendid displays. In the machinery hall, in the basement of the wing of the main building, it is hoped to have an up-to-date "made in St. John" exhibit. A health exhibit in conjunction with these booths will point out the food values in milk products. Machinery used in the various processes will be displayed.

Concerning the amusement end of the week's programme, the Hornbrook wild west show and balloon ascensions will furnish the thrills. Demonstrations of fancy diving and other acts of vaudevillean nature will be presented for the approval of the public. This will take place twice daily before the grandstand, no charge being made for spectators not entering the stands. Each and every evening the sky will be brilliantly lit with fireworks. A surprise feature may be shown the latter part of the week.

The pile will again furnish the public with its entertaining diversions. The merry-go-round, the Ferris wheel, the whip and other "joy bugs" will all be on hand.

Tickets on Sale.  
Strips of tickets were placed on sale yesterday. A reduction has been made in the admittance fee this year and six tickets may be purchased for \$2, whereas last year \$2 would buy but five tickets. The use of strips is limited and as the sale will close on Aug. 28 it is expected that they will go like hot cakes as in 1923. Tickets will be on sale at various drug stores in the city and will doubtless all be picked up before Aug. 28 has arrived.

The committee in charge of the

"Made in St. John" exhibit met in the Board of Trade rooms yesterday with David Magee in the chair. The cost estimates were discussed. A three-day canvass for exhibitors is to be made.

A CHANGE OF VIEW.  
(By Gertrude Foster.)

I have a friend—a dear one, too—but gee! I wish she'd borrow a pair of specs of different hue an' wear 'em just tomorrow. For if she had 'em but a day I know 't would be sufficient to show that in a serious way her old ones are deficient. She needs a pair with less o' blue an' more o' brown. Now, sometimes we start off to walk—just Nell 'n me 'n Mandy. A'settin' out with cherry tall 'n munchin' nuts 'n candy, we stroll along in merry mood, a-listenin' to the singin' o' happy birds—all through the wood their music keeps a-ringin', till Nell busts in on all our mirth with some-thing 'n still there—SHININ'. For when, to every other mind, the day seems most propitious, this same good friend is sure to find a cloud that looks suspicious.

## WOMAN, 102, SAVED FROM SUFFOCATION

Carried Down Fire-Escape, Unconscious from Smoke, by Policeman.

New York, Aug. 13.—Mrs. Bessie Cohen, 102 years old, was saved from death by smoke suffocation when a policeman discovered fire in the apartment house in which she lives in Brooklyn, and carried her unconscious down a fire-escape to safety. Dr. Price of St. Mary's Hospital revived Mrs. Cohen.

Patrolman Jack Greenberg of the Liberty Avenue station saw flames in Mrs. Schaffer's apartment on the ground floor of the building, which is four stories high and occupied by eight families. He turned in an alarm, roused all the occupants except Mrs. Cohen and ordered them out.

On the third floor live Mr. and Mrs. Max Kahn, son-in-law and daughter of Mrs. Cohen. When most of the tenants reached the sidewalk it was found that Mrs. Cohen was not present and a cry was raised that she was still in the building.

Greenberg went up the fire-escape. Heavy black smoke impeded his ascent, but he reached the third floor, smashed a window and groped about the rooms. Mrs. Cohen was found where she had been sleeping on a couch in the dining room. She had been overcome by smoke and lay breathing laboriously with her head under a number of pillows.

The patrolman, with Mrs. Cohen limp in his arms, got back to the window and out on the fire-escape. Firemen assisted him in getting Mrs. Cohen down from the first floor fire-escape landing to the pavement.
