Stronger Shoes—Costing No More

Better looking and longer lasting School Footwear is the rule at Francis & Vaughan for good reason. They sell far more than others—they get better quantity prices out of the makers, and the saving thus effected is put into extra reinforcement. Therefore, expect stronger Footwear here without paying extra for it.

You see it in the higher grade of Calf leathers, in the oak tanned sole leathers that outlast others two to one. You see it in the special insoles and the oak leather counters that hold the shoes together longer.

PROPERTY SALES  
The following property transfers are recorded:  
R. S. Gilbert Estate to W. F. Hather, property in Ward street.

Seven Per Cent. on Strong Power Co.

Seven per cent. is unusual in Public Utility Bonds.  
Well placed and well earning properties make it more so.

The Bonds we have purchased of the Lower St. Lawrence Power Co. have these and other attractive features that sum it up as out of the ordinary.

The Bonds, maturing in 1947, are non-callable. The seven per cent. income holds good in a clear way for all the next 23 years.

The market of the company is likewise interesting. It is earning at the rate of \$92,000 against Bond Interest of \$52,000. Successive years will increase the net earnings, as happens with power companies generally.

Extending its service through the Gaspé country in a way that multiplies its market in a fine farming and pulp area, this young company will create pulp mill customers, etc. The Bond proposition is one favoring at seven per cent. only those Investors early in the market. Denominations \$1,000, \$500 and \$100. Price at present—par.
