(Canadian Press)

Cleveland, July 18.—Babe Ruth is using a new bat, which he has named "Old Sam." It is the gift of Sam Crawford, former star outfielder of the Detroit Tigers, himself a home run hitter before the days of the lively ball.

"Old Sam" came to Ruth on July 1, since when he has made 27 hits, including six homers, in 59 times at bat yesterday's games.

New York, July 18.—Carl Mays, clever underhand pitcher for the New York Yankees, stood upon the mound in Cleveland yesterday and tossed the ball to the Indians to get started.

The Browns, playing on the home grounds, made a fitting finish to their series of five straight wins over the Red Sox by winning 10 to 1. Danforth struck out ten of the Bostonians and allowed only seven hits.

In Chicago the Philadelphia Americans were unable to find the hall and the series 8 to 1, a homer by Hauser saved the visitors from a shutout.

The Robins, working on their home grounds, won the deciding game of the series with the Pirates in one inning rally, taking all their six runs in the fourth. Pittsburgh failed to score in the fourth. Philadelphia in the latter's home, when Tony outpitched King for a final score of 2 to 1.

House Demolition in Group in Prince Edward Street Begun.

The powers that be have dealt another blow to Harrigan's Alley, that famous group of tenements which once flourished in Brussels—now Prince Edward street—between York and Richmond. This morning workmen started to demolish one of the old buildings that formed the group.

There is another old building on the estate which has started to come to earth on its own initiative. It is located in the rear of the property, near St. Patrick street. A building located near it was removed recently and apparently its chief means of support were thereby taken away, with the result that it is now inclined at a very sharp angle.

Belyea At Quebec; "Great Race But The Better Man Won"

HILTON SPEAKS OF GRUELLING CONTEST WITH GOLLEN FOR DIAMOND SCULLS

Not in Top of Form Because of Drop in Temperature, But Does Not Make This Excuse for Defeat—In Good Trim for St. Catherines Contest.

Quebec, July 18.—"It was a great race," said Hilton Belyea of St. John, speaking of the recent Diamond Sculls championship contests at Henley, Eng. The veteran sculler returned on the C. P. O. S. liner Empress of France last night, and soon afterwards proceeded to his train. He is going direct to St. Catherines, Ont., to defend his Canadian title at the regatta which takes place in about a week.

The St. John oarsman said that he rowed the race of his life against Golten, who defeated him in his second heat. He said that the course was very good, although a trifle narrower than on Canadian courses. Asked as to what he attributed his defeat, Belyea modestly said that the better man won.

"I went out there to win if I could," he remarked, "and I was fairly beaten but only by a length," he added with a rueful smile.

Both exhausted at the finish, he said that he and the victor were completely exhausted at the end of the gruelling contest. He added, however, that his condition on the day of the final, was not quite so good as on previous days. He attributed this change to the sudden drop in temperature, saying that it grew quite cold on the "big day" and, as he was not accustomed in the same degree to the conditions there, this might have had something to do with his defeat.

"However," he concluded, "I am not saying this to excuse for my defeat. I am simply stating the facts, and I repeat that Golten is a wonderful oarsman."

Belyea said that he is feeling in fine condition to defend his title at St. Catherines but expects strong opposition. There were two shells belonging to the oarsman and he was given special handling and forwarded to St. Catherines today.

At St. Catherines, Ont., July 18.—Hilton Belyea is to defend his title of Canadian single sculling champion which he has held since 1921. The University of Philadelphia will go after the Canadian title this year. Gollon, of Philadelphia will go after the Canadian title this year.

FIRPO NOT READY YET FOR DEMPSEY

New York, July 18.—Jimmy DeForest, veteran trainer of boxers who prepared Jack Dempsey for his championship fight with Jess Willard at Toledo and also trained Luis Angel Firpo for his fight with Jess Willard recently declared that it would be a mistake to send Firpo against Dempsey inside of six months. He asserted that while the South American is a natural fighter and knows a great deal more about boxing than some critics are prone to give him credit for, he still needs quite a little polishing and more experience before he will be ready to engage Dempsey in a fight for the world's heavyweight championship.

"I think that Firpo should engage some of the lesser lights before he would suggest matching him with Dempsey," DeForest declared. "They are judging by what he has shown against Willard. They forget that he entered the ring with instructions to fight with his left and he would take his heavy right to beat Willard. I know that Jess could not stand the gauf and I haven't been fooled very often in my boxing career."

Stickers Ignore Leaders. London, July 18.—Expectations that the unofficial dock strike which began in Hull July 2 would end when it was called off formally in London, July 11, after it had been weakening for several days, have been unfulfilled and within the last twenty-four hours the situation has grown worse.

The strikers continue to ignore the leaders of their union, and are intimidating many of the older men, who are reported to be eager to return to work but who fear violence from the younger strikers. The dock workers as a whole are showing an ugly spirit and have caused some rioting which, though not on a big scale, has been enough to compel interference by the police.

More than once the "bobbies" have used their clubs to disperse strikers who threw stones at those who returned to work and called them "scabs." Only last night the neighborhood of the docks in ferment for several hours. Employers have notified the strikers that unless they return to work today outside labor will be brought in and, if necessary, the Government will be asked to give whatever protection these workers may need.

The strikers' reply to this ultimatum has been to make things hot. The outlook at the moment is decidedly disquieting.

FEARS WEAKENING OF TIE WITH THE MOTHER LAND

Orange Grand Master's Annual Report in Winnipeg. Alleges Propaganda to Loosen Bonds—Predicts Canada Will Have Population Greater Than That of the British Isles.

(Canadian Press) Winnipeg, July 18.—To secure national unity it is essential that the people of each part of Canada should understand the viewpoint all-declared Hon. W. D. McPherson, K. C., of Toronto, grand master and sovereign of the Grand Orange Lodge of British America, in presenting his annual report at the opening session of the Grand Lodge today.

"The east and west," he said, "have each a set of different local problems and interests, which it is desirable that all of us should appreciate and study, in the hope that, as far as possible, justice should be done and all good works unitedly for the up-building of our common country."

"The time will come, within this century, when the population of Canada will be as great or greater than that of the British Isles," continued the grand master. "Our highest destiny is to achieve within the circle of the British commonwealth, and those who are trying to loosen our affection for the motherland, and to weaken the ties that bind us together, are not true to our duty."

An active though subtle propaganda, intended to sever the bonds that unite Canada, remained the most serious danger, he declared. "Our highest destiny is to achieve within the circle of the British commonwealth, and those who are trying to loosen our affection for the motherland, and to weaken the ties that bind us together, are not true to our duty."

While the political structure, which was put together over a period of three centuries, remains intact, the liberties of the world were safe; if it were destroyed by disintegration, forces in want of a new order would be set free which would not be achieved under present conditions, declared Mr. McPherson. Propaganda had been carried on in Canada, and then to break, one of the ties that bound the Dominion together through the motherland, he declared.

The constant efforts of those who are clamoring for the increase of our autonomy is reflected in the proposal to discontinue the right of appeal to the privy council, and in other directions to assert the independence of the Dominion as a separate entity, the Dominion's asserted the grand master. Officers Elected.

Re-election of most of the principal officers of the Grand Block Chapter featured the Tuesday evening session, the balloting resulting, in part, as follows: Grand Master—G. B.
