Why Towns Grow into Cities

From village to town and then to teeming city, the onward march of progress moves forward to the sound of falling water. Water power transformed into electricity is the force that has stimulated Canada's industrial and commercial growth.

Then before his congregation had had time to recover from its amazement, the minister launched into an explanation of his reason for departing from the usual custom.

"The church," he stated, "must keep pace with the times. It is essential that it concern itself with the things of to-day, rather than those of past general-
