AMERICAN LADY CORSETS.
There seems to have been a spontaneous endorsement of the "American Lady" corsets in the large centres of the United States. They have risen in popular favor just as the American Beauty rose has done. There is a convincing style in the lines of this make of corset. The F. W. Daniel & Company have the selling rights for St. John. Many new spring styles are shown.

THE MUNICIPAL HOME.
The proposal of the Eastern Trust Company to ask for an option on the Municipal Home property which will come up at the special meeting of the Municipal Council this afternoon was considered by the city commissioners at their meeting this morning. Their attitude was an unwillingness to dispose of this property to private interests unless they are assured that such a sale would not interfere with the plans for development in connection with the harbor works in Courtenay Bay; also that the sale would not be made unless the amount realized would be enough to provide a new building large enough for present needs and for some time to come and also for the purchase of as much land as would be needed in connection with the institution.

PAY FEARFUL TOLL TO DESIRE FOR GOLD

Loss of Mind And Loss of Life in Tramp Into The Yukon

Prince Rupert, B. C., Feb. 25.—Of three prospectors who started a month ago from Atlin, a placer camp on the Yukon line in search of gold, one nearly starved to death, one lost both feet and one became insane from cold and died. The men headed for Silver Creek. They had to break their own trail and traveled light expecting to replenish their stores at a trading post near John lake.

The trading post was found abandoned. One man sent back for supplies lost his way and was rescued by Indians when nearly dead. The mind of one of the two remaining, a Swede, named Lindemann, became affected and his desire for warmth jumped into a camp fire. Redmond pulled him out, but he died. Redmond buried Lindemann in the snow and turned the dogs loose, following them wherever they went. They finally led him to an Indian camp and the Indians took him to Atlin where both feet were amputated.

SHRINERS' PLANS FOR THE IMPERIAL COUNCIL

Dallas, Texas, Feb. 25.—The executive committee of Hella Temple has changed the time of departure of the imperial council de luxe special when the imperial officers and representatives and their ladies are to be given a complimentary one-thousand mile tour of Texas. Instead of leaving Dallas on Friday, May 16, the two special trains will leave on Thursday, May 15.

Past Potentate Edward J. Hamilton, of Syria Temple, of Pittsburg, is in Dallas arranging for reservations for the nobles and ladies. Pittsburg Shriners are planning one of the greatest pilgrimages ever taken by an Eastern Temple. Before arriving in Dallas the nobles will have sailed from New York to Cuba and from Cuba across the Gulf Stream and the Gulf of Mexico to Galveston. When they have returned home the Pittsburg delegation will have covered 1820 miles by water and 2088 miles by rail.

Galveston, Tex., and Memphis, Tenn., are both out after the 1914 meeting of the shrine.

FLEMMING OPPOSED TO ANY CHANGE

(Continued from page 1.)

Citing Mr. Bouillon's statement that the cost of keeping up an expensive bridge would not warrant a departure from the longer route via Ferry's Point, he argued that the very slight increase in distance via Westfield should not operate against the route. Mr. Clemens took up the cost of bridges at different points and argued that from these premises against the heavy expense that would be incurred crossing the Mistake and the Kennebecasis at Westfield to Fairville would not be greater, perhaps not so much as in the route now under contract to Gondola Point. But from Fairville to St. John the land damgers would be heavy. In his concluding remarks Mr. Clemens said there was no proof that the Grand Trunk Pacific would come to St. John.

Mr. Lively contended that by the time the harbor bridge could be built the Grand Trunk Pacific terminals would be ready and the argument of the added freight expense to the west side would be gone. He spoke of the obstruction a bridge would be to the harbor and was strongly in favor of the shortest possible route.

A. D. Helyoka of Woodstock did not want anything done to delay the completion of the road. Woodstock was in favor of the shortest route to St. John. Mr. Baxter, for the Fairville Board of Trade, took the position that the best expert engineering advice should be had to determine what was the better route and abide by that. That board was opposed to the Valley Railway passing into the control of any private corporation.

S. L. Peters of Gagetown made a comprehensive speech covering many points of the present route. They were favored by John R. Dunn of Gagetown, favoring the Westfield route; Morris Scott of Gagetown, who wanted more information; S. Sherman Peters, who favored the view of S. L. Peters; and representatives from Greenwick, Hampered, Kingston and Meductic also expressed their views pro and con.

M. W. Doherty of St. John favored Mr. Baxter's view of more expert advice. Mr. Wood of Queens made a plea for the road to go via Westfield.

The Premier

Premier Fleming in his reply said it would be a great task to open up the question of route again. He did not give any of the delegations much hope that the contract route would be departed from, though he said that if the coal and iron deposits in Queens existed they would have to have proper transportation facilities.

He read an important letter from Mr. Bouillon, district engineer of the Grand Trunk, opposing the Navy Island entrance and giving his reasons.

One of the most important things he dealt with was the great expense of the Gondola point bridge which would not be warranted to save such a short distance. The premier did not finish his remarks until nearly two o'clock, which prevents any detailed report.

PERSONALS

Dr. Frank J. Hogan, of North End, returned home this morning from Boston. K. J. MacLure returned today from Fredericton.

Mrs. Fred Miller and Mrs. Howard Prime left today at noon to spend a week with the latter's parents, Rev. R. P. and Mrs. Colwell, of Hampton Village.

The Messrs. Green and Ruby Wentworth, of London, Eng., sisters of Rev. F. H. Wentworth of this city, arrived in the city on the S. S. Tunisia yesterday and will spend a vacation here. It is possible that they will make their home in St. John.

The condition of Thomas Gilbert, who is C. M. Kerrison has gone to Boston on a business trip.

John Fenney, of the Public Works Department, St. John, spent Sunday in Fredericton.

It was complained today from the west side that there was considerable delay caused in procuring stretchers in one of the sheds there when an accident occurred this morning. It was said that the stretchers in one of the sheds were locked up and the man who had the key was not to be found at the time, and the one complaining suggested that it might be a good scheme to have the key of the locker kept in a safe position in the shed, instead of being in personal possession.

COMPLAINT HEARD

THIS TRAIN

For the first time this winter it was found necessary yesterday to use the flanger on the I. C. R. between this city and Moncton. The snow hardening on the rails made it difficult for an average speed to be maintained. It has not yet been found compulsory to use the snow plow. The drifting snow in the northern section of the province delayed the Maritime going into Moncton, holding it back about five or six hours this morning, although it was on time from Moncton to this city. The Montreal also was delayed today, being about two hours and a half behind time, while the Boston was held up about forty-five minutes.

Good ice at the Vic tonight.
