INTERESTING FACTS CONCERNING WOMEN

In Colorado, a club of prominent young society girls has been formed to study the science of government, and they have learned how to cast their ballots intelligently, and also how to refute the unjust attacks on equal suffrage in their state.

THE STRUGGLE IN ENGLAND. The so-called "king's speech," which is read at the opening of each new Parliament, is always written by the cabinet ministers. It lays out the programme of legislation that the government proposes to take up at that session.

COLLEGE AND ALUMNAE. To refute the argument that public school teachers do not need more pay because they are chiefly women and do not have to support a family, a committee from the Detroit College Equal Suffrage Club has made a study of the salaries of teachers to find out how many have husbands to support.

WASHINGTON WOMEN VOTERS. The women lent a strong hand to the good government forces in the successful reform movement in Seattle, which resulted in the recall of Mayor Gill and the election of George W. Dilling.

ADVANCE OF WOMAN SUFFRAGE. Hardly had the suffragists got through rejoicing over the victory in the California Legislature, when the news came that the Kansas Legislature had taken similar action, by a vote of 27 to 12 in the Senate and 64 in the House.

THE EFFECT OF THE WASHINGTON VICTORY and of the general advance in public opinion is also seen in the enlarged legislative votes given for woman suffrage in Michigan and Montana.

AN AGED FISHERMAN, on his way to join his son in California at the request of the latter, brought over a live shank ram rock. "I hope it will live," he said, looking wistfully at the pot as it swung from the beam.

AROOSTOOK POTATO MEN MAY COMBINE

According to a Bangor man and former newspaperman, who returned a day or two ago from Aroostook county, a number of important questions are being agitated among upriver residents, particularly among the potato combine.

Edgar Trowbridge, a milk dealer of Orange, N. J., drives to the depot every morning at 4 o'clock to get his milk supply. Saturday morning he stopped at a store on his way to the depot and was dealing with a customer.

"Consumption"

Three Doctors Attended Her. Dr. Wood's Norway Pine Syrup Cured Her.

It has long been known that the balsamic odor of the newly cut pine tree is invigorating and refreshing.

"SLEEPLESSNESS."

Thousands of people all over this land toss and turn all night on a sleepless pillow. The eyes do not close in the refreshing slumber that comes to those whose heart and nerves are right.

Some are troubled with weak and smothering spells, others palpitation of the heart, others have their nerves unbalanced; but whatever the cause—it comes entirely from a derangement of either the heart or nerves or both.

Mr. H. J. Wood, of Detroit, writes: "I am glad to have the pleasure of telling you what Milburn's Heart and Nerve Pills did for me. I had been weak and nervous for some time, and I had been unable to get up in the night as I could not sleep. I tried many medicines but found nothing good until I used Milburn's Heart and Nerve Pills. I took three boxes and it is three years ago since I did so, and I haven't been troubled since."

Milburn's Heart and Nerve Pills are 50c. per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

ARMCHAIR REFLECTIONS

By H. L. Spencer

Memories of the farm that was the home of my early years are revived by the spring sunshine pouring in at my chamber window. It had been "hewed out of the wilderness" as I was told, about twenty years before I was born, and included about eighty acres of cultivated land, to which thirty or forty more were added during my boyhood.

Our farm was a dairy farm. My father fed nothing to his stock that he did not feed to his family, and he kept stock to consume pretty much everything he grew. Consequently his land did not "run out."

We grew 85 to 90 bushels of shelled corn, 25 to 30 bushels of wheat and 40 to 60 bushels of oats, 400 to 500 bushels of potatoes, 100 to 150 bushels of turnips, and 4 to 5 tons of timothy hay per acre.
