

TWO NEW CASES.

More Smallpox Has Broken Out at William Head Quarantine—The Patients Are Dawsonites.

Two more cases of smallpox have broken out at William Head, the patients being a couple of Dawsonites named Turner and McCormick. They complained of being unwell several days ago, and were kept in the hospital, and closely watched for the manifestation of symptoms. This morning they gave unmistakable evidence that their ailment was none other than smallpox, although it is understood that the character of the cases is not alarmingly serious.

What effect this new outbreak will have upon the question of detention of the others in quarantine is not of a certainty known, although Dr. Watt, this afternoon, stated that possibly their stay will not be more protracted on account of the new phase to the situation. The other patient is progressing favorably toward recovery. The fact that the new cases have been closely followed by Dr. Watt and staff from the beginning of the indisposition until the outbreak, is a sufficient commentary on the circumspect manner in which the quarantine officials are handling their department. The fortnight's detention at William Head expires on Tuesday next, and depends entirely on existing circumstances as to whether it will be necessary in the interests of public health to extend the time another fortnight or not. At any rate the public may rest assured that the quarantine officials have the matter well in hand.

THE POLICE COURT.

Refractory Bluejacket Turned Over to the Naval Authorities—Other Cases.

A quintette of juveniles appeared in the police court this morning. Two of these were charged with the theft of some lead, and pleading guilty, were fettered by the magistrate, who gave them some wholesome advice before dismissing them. The other three were charged with an offence peculiarly characteristic of the small boy in some climes—the theft of some fruit—apples. They were also warned and discharged. A charge of drunkenness was registered on the minute book against a citizen, but as he did not appear before the tribunal his bail of \$10 was exonerated. Charles Routhley, the bluejacket who with Harding, another son of the sea, was responsible for the fracas in the lobby of the Victoria theatre on Thursday evening, was charged with creating a disturbance. He pleaded guilty, and was turned over to the naval authorities to be dealt with. The wounded man, Harding, was not badly hurt, and will recover in quick order.

The proceedings were interrupted this morning, during the removal of the furniture, which was taken from Mrs. McCabe's residence on Meier street by Jas. Lash, who came up for hearing in the speedy trials this morning. The furniture, which had been in the court room since the preliminary trial of the accused, was removed to the other tribunal.

TWO YEARS IN PRISON.

Marcovitz Sentenced to a Term in the Penitentiary. This morning, Marcovitz, the Hungarian, who was yesterday convicted of assault upon a five-year-old girl, came up for sentence before Mr. Justice Martin. The prisoner protested his innocence, but was reminded by the court that the weight of evidence was against him.

Mr. Justice Martin then pronounced sentence on the prisoner, condemning him to two years' imprisonment in the penitentiary. J. B. Lash also came up for speedy trial this morning. He asked for an adjournment in order to find a necessary witness, Harrison, whom he alleges induced him to remove the stolen goods. He states that Harrison approached him, told him he was in trouble with his landlord, and that he wanted to have the goods removed quietly. He gave Lash \$5 to do this, and Lash thereupon removed the goods.

In order to allow the police an opportunity of finding the real or imaginary witness, His Lordship ordered an adjournment for one week.

JUBILEE HOSPITAL BALL.

The Decorations in Assembly Hall Are Handsomer Than Usual This Year.

The Assembly hall is decorated this year handsomer than ever before for the jubilee hospital ball, which will be given on Thursday, Nov. 8th. The supper room is decorated with the colors of the hospital—red and white—and hung with festoons of leaves. The illuminations will also be made in colors, through the kindness of Mr. Hinton. The tables, as usual, will be in charge of the ladies associated with hospital work. Through the kindness of the commander-in-chief at the naval station the ladies have been rendered valuable assistance in the decorations by a corps of bluejackets.

In the ball room proper ships' ensigns have been draped in a most artistic manner, and the flags of all nations are presented. Here, too, there are festoons of holly leaves and arches of evergreens. Along the walls will be given out some most striking effects. The Fifth Regiment band will be in attendance and will render a good musical programme. The sitting rooms will be in charge of Mrs. W. F. Barton, the Misses Penherton and the Misses Dunsmyth, while the Women's Auxiliary and the Daughters of Erin are looking after the general arrangements.

On the following evening there will be a children's ball, to which old and young are cordially invited to attend and enjoy the pretty scene. Donations of flowers and anything in the commissary line will be thankfully received by the ladies up to Thursday, forenoon.

MONEY IN MINING.

(Associated Press.) New York, Nov. 3.—In the ten months ending October 31st the metal mining companies in the United States reported to the Engineering and Mining Journal paid a total of \$42,638,671 in dividends.

THE SWING OF LIBERAL VICTORY

(Continued from page 5.)

want to get rid of men imbued with selfish ideas and make out of Canada one great nation which will be the pride of the British Empire. (Cheers.)

Now I will take up the Chinese question, and I want to go back to the beginning, to the days of Buntzen and Shakespeare, who I believe did the best they could. When they passed away then we had the reign of Prior and Earle. What did Col. Prior do on the Chinese question? Ask him? Absolutely nothing. If the Conservative party is in power to-morrow

Col. Prior Would Do Nothing

to restrict Chinese immigration. In 1890 the Liberal party took this question in hand. The Conservative party would not touch it. We tried to make them realize that it was a burning question and after I brought it up Col. Prior had to do something. Who are the men that demand Chinese—who want cheap labor? It is the management. It is the Turners and others that stamp. Who brought the Japs in? If you take the trouble to look it up you will find that the men who brought in these Japs are the men who are supporting the Conservative party. Down in the East we were four men against great odds. The East is strongly opposed to taxing them. They are of the idea that the doors should be thrown open to them, and that we should Christianize these Chinamen and Japs and make them better. Well, I will give them that job to do. (Laughter and applause.) The churches too are arrayed against us, and the capitalists say we must have cheap labor to develop the country. If British Columbia, with its vast wealth, is not able to pay a living wage to a white man to develop it then in the name of God let it stay where it is. (Cheers.) The Liberal government in four years did as much for us on this question as did the Conservative party in sixteen years. Sir Wilfrid said in introducing the bill increasing the Tax on Chinese

that he did not consider it final. The royal commission was appointed at the request of the trades and labor council of Vancouver. When they make their report it may educate the people of the East as to the true state of affairs. The Conservatives had appointed a commission to look into these matters, but it was a biased commission, and its report was of no benefit. To-day we had good men on the commission, men who would go about the matter in a proper manner, and as a result they will have such an overwhelming mass of testimony that some measure that will be introduced which will prevent this province from being overrun with a class of men who, although they may be good enough for China, are not good enough for us. The Liberal government is doing all this to-day. Again I say to every man who has to earn his bread by the sweat of his brow, I hold that it is your duty to record your vote in favor of Riley and Drury.

Col. Prior magnifies facts about the government not doing anything for British Columbia. The Yukon-Teslin line of railway would have been a good thing for this country, and I fail to see what reason anyone had for not supporting the government on that question. We were told it was a dead and a steal. The Conservative party has been mixed up in so many of these deals and steals that it makes everybody is like itself. The Conservatives at that time were anxious to have the road go via Edmonton. The speaker then went into details regarding the Yukon-Teslin bill, which are familiar to all readers of the Times. He then continued:

I don't know that the Conservative party ever did much for British Columbia. True they built the post office in Vancouver and paid a high figure for a building that is now being continually braced to keep it from tumbling down. The work was not given to British Columbians either, the contract being given to a man from Brookville. True they built the railroad, but they had to do that. People simply had to get out to a country where God's sunshine is so abundant. The party spent so much time

Fighting Among Themselves that they had no time for anything else. The old Conservative party died of dry rot. If you want a speech of two hours in length on the corruption of the old Conservative party, I can give it to you, and I will give it to you before the 7th of November.

The increase in trade since the Liberal party came into power is something wonderful. New life has been infused into the whole trade of the Dominion and to-day we are exporting more than ever before. To-day Canadian goods are on the markets in Great Britain under their own name. Four years ago it was as American goods they found a place.

In conclusion, I ask you as good citizens of Victoria, when the Liberal or Conservative are you going to turn back the hands of time by electing a Conservative government? Are you going to turn your backs upon the man that has done so much for Canada? I know that I cannot conceive of such a thing, for I know that you will be true to your own interests.

The speaker concluded amid applause.

ALEX. HENDERSON.

Hon. Alex. Henderson spoke but briefly, as it was then nearly midnight. He reminded the audience that a Victoria man, Hon. Edgar Dewdney, was running against Mr. Morrison, and had promised, if elected, to come and live in New Westminster. "The electors are now considering," said Mr. Henderson, "whether he is worth the risk. But we do not intend to deprive you of Mr. Dewdney. I think he will be more useful in Victoria." (Laughter and applause.)

He predicted a general Liberal triumph on election day, and advised Victoria to fall into line in order that she might join in the jubilation. (Prolonged applause.) A vote of thanks to the chair, the visiting speakers and the quartette was moved by R. H. McLean, G. McLean, and G. McLean, and with cheers for the Queen and the candidates the meeting dispersed.

WHERE IS SIDNEY ARNOLD?

Provincial Police Are Looking for a Victoria West Man—Disappeared Last Saturday.

Although not officially notified that the man has disappeared, the provincial police officers are making inquiries with a view to learning the whereabouts of one Sidney Arnold, who has not been seen since last Saturday. At that time Mr. Arnold was in Esquimalt, and it is said he had Messrs. Prior and Earle's nomination papers in his pocket. According to advices received at police headquarters he has vanished without leaving a trace.

Mr. Arnold lived in a private boarding house at Victoria-West. He took an active part in politics and acted as chairman at the opposition meeting recently held in Esquimalt. His disappearance is hard to account for, and his friends are growing anxious as to his whereabouts.

AT PARSON'S BRIDGE.

The electors of Parson's Bridge district held a very successful meeting last night in Price's hall. Mr. Helgesen, who acted as chairman, gave a very interesting discourse on politics in the good old days, when open voting was in vogue—being a tribute to the memory of the late Hon. Amor DeCosmos, one of the fathers of confederation. Politics from the farmer's standpoint, were ably discussed by Mr. Helgesen.

Mr. Annette, as an old New Brunswicker, went fully into the Intercolonial railway question, supporting his arguments by facts and figures, which were most conclusive and ably combating the arguments that have been advanced by Col. Prior to the farmers.

Mr. George E. Powell then gave a comprehensive review of the questions of the day.

There is no doubt whatever that there is a great surprise in store for the Conservatives as far as Metchosin is concerned, judging from the unqualified success of the meeting.

A STRANGE CASE

Doctors Said It Was Consumption of the Blood, and Recovery Was Looked Upon as Almost Hopeless—Dr. Williams' Pink Pills wrought a Cure.

From the Herald, Georgetown, Ont. Our reporter recently had the pleasure of calling on Mr. Wm. Thompson, paper-maker at Georgetown, and a well known and respected citizen of our town, for the purpose of acquiring the details of his son's long illness and his remarkable recovery through the use of Dr. Williams' Pink Pills. Mr. Thompson kindly gave us the following information, which will speak for itself: "About two and a half years ago my eldest son, Garnet, who is fifteen years old, took what I supposed to be inflammation in his left eye. He was taken to a physician, who advised me to take him to an eye specialist, which I did, only to find out that he had lost the sight of the eye completely. The disease spread from his eye to his wrist, which became greatly swollen, and was lanced no less than eleven times. His whole arm was completely useless, although he was not suffering any pain. From his wrist it went to his foot which was also lanced a couple of times, but without bringing relief. The next move of the trouble was to the upper part of the leg, where it broke out, large quantities of matter coming from the sore. All this time my boy was under the best treatment I could procure, but with little or no effect. The trouble was pronounced consumption of the blood, and I was told by the doctors that you would not come across a case like it in five hundred. When almost despaired, I knew what to do for the best, a friend of mine urged me to try Dr. Williams' Pink Pills, saying that he had a son who was afflicted with a somewhat similar disease and had been cured by the pills. I decided to give Dr. Williams' Pink Pills a trial and secured some of them at the drug store, and after my boy had taken two boxes I could see the color coming back to his sallow complexion and noted a decided change for the better. He went on taking them and in a few months from the time he started to use them I considered him perfectly cured and not a trace of the disease left. He lost his blind eye, the sight of which he had lost before he started to use the pills. He has now become quite fleshy, and I consider him one of the healthiest boys in the community. If any person is despondent of knowing the merits of Dr. Williams' Pink Pills you may direct them to me, as I can highly recommend them to any person afflicted as my boy was."

Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nervous system, thus driving disease from the system. Avoid imitations by insisting that every box you purchase is enclosed in wrapper bearing the full trade mark, Dr. Williams' Pink Pills for Pale People. If your dealer does not keep them they will be sent postpaid to the nearest Dr. Williams' Medicine Co., Brookville, Ont.

FARMERS' INSTITUTE.

A Very Successful Meeting Held at Alberni Last Saturday.

James Stonehouse, of the government dairying department, Assiniboia, gave a most interesting address on dairying, principally to dairymen, at a meeting of the Farmers' Institute held in Alberni on Saturday last. Mr. Stonehouse said that while Danish butter still held the lead among the older countries, and that since separators had come into the field, Canadian butter was rapidly coming to the front, although the standard must be raised still higher before the people of the Dominion can hope to compete successfully with all comers. Mr. Stonehouse also dealt with the necessity of dairymen raising the right kind of cows and of weeding out the unprofitable cows in order to get the best results as to milk and butterfat. That young cows must be bred and educated to that end is what we expect to make dairying thoroughly profitable. He went on to show how necessary it is to vary the feed according to the requirements of different breeds of cattle for the best production of milk rich in butterfat, and also stated that the contract of milking cows should be strictly attended to, especially in hot weather, the buildings ought to be kept scrupulously clean and well ventilated, not only for the sake of the cattle but also to prevent the milk from becoming tainted by cows from the stable to the trough.

After the meeting a general discussion took place, many questions being asked and answered very satisfactorily, much good information being elicited. After a very timely vote of thanks had been accorded Mr. Stonehouse, the meeting adjourned.

OSGOOD FIELD DEAD.

New York, Nov. 3.—Information has been received of the death of Osgood Field, formerly of this city. Osgood Field was born here in 1833. He was a grandson of Samuel Osgood, who was Washington's cabinet and also the first postmaster-general of the United States.

CASTORIA

For Infants and Children.

Will Sweep the Country.

Dominion Presbyterian: "Sir Wilfrid Laurier enjoys a unique popularity not only in Canada, but in the Motherland. It looks as if the Liberals, under his leadership, will again sweep the country; and, indeed, to the non-partisan onlooker, there seems to be no good reason for a change. The country is prosperous, the manufacturing interests were never more so; and it is not claimed that a change of government just now would result in a better or more economical administration of public affairs."

NOT COD-LIVER OIL but Scott's emulsion of cod-liver oil. They are not the same; far from it.

Scott's emulsion is cod-liver oil prepared for the stomach.

Let cod-liver oil alone if you need it. When your physician orders toast, do you breakfast on flour?

Pure cod-liver oil is hard to take and hard to digest. A man that can keep it down, can saw wood. He thinks he is sick, he is lazy.

We'll send you a little to try if you like. SCOTT & BOWNE, Chemists, Toronto.

What is

Castoria is for Infants and Children. Castoria is a harmless substitute for Castor Oil, Purgative, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other Narcotic substance. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays Feverishness. Castoria cures Diarrhoea and Wind Colic. Castoria relieves Teething Troubles, cures Constipation and Flatulency. Castoria assimilates the Food, regulates the Stomach and Bowels of Infants and Children, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria. "Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children." Dr. C. C. Osmond, Lowell, Mass.

Castoria. "Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARCHER, M. D. Brooklyn, N. Y.

FIGHT WITH HIGHWAYMAN.

(Special to the Times.) Vancouver, Nov. 3.—Thos. Dennison, government contractor for construction work on Cemetery road, was going home last night with \$800 when a big highwayman attempted to hold him up. A desperate fight ensued, in which the robber was thrown into the ditch and Dennison escaped with his money.

John Fleet, an old timer, died this morning from injuries received several weeks ago in an accident in the C. P. R. shops.

Negotiations towards the formation of a canners' association on the Fraser river to pool interests as to complete a degree as is done by the Alaska Packers' Association in the North, have practically fallen through.

Representative Harden, a member of the Georgia legislature, was seriously wounded, and Representative Cann and two other legislators were cut severely in a fight with knives which took place aboard a special train occupied by members of the legislature en route to Yalobusha, to attend the state fair. Representatives Harden and Hamby became involved in a quarrel, and the others were wounded in endeavoring to stop the disturbance.

Time is Life

The father? Gone for the doctor. The mother? Alone with her suffering child. Will the doctor never come? When there's croup in the house you can't get the doctor quick enough. It's too dangerous to wait. Don't make such a mistake again; it may cost a life. Always keep on hand a dollar bottle of

Ayer's Cherry Pectoral

It cures the croup at once. For bronchitis, whooping cough, hoarseness, asthma, pleurisy, weak lungs, loss of voice, and consumption, there is no remedy its equal. A 25c. bottle will cure a miserable cold. The 50c. size is better for a cold that hangs on. But the dollar bottle is more economical in the long run.
