TO THE FARMERS OF MIRAMICHI

We have been Manufacturing IRON FRAME MOWERS For the last four years, and are now offering to the farming community this, the BEST MOWER

combining greater excellence of mechanical simplicity together with greater durability and entire reliability for all the requirements of the field, than any other Mower extant.—In ejenstruction they are similar to the celebrated Waller A. Wood's Iron Frame Mower, and the Richardson Buckeye, both American Machines. Of the former there are over 200,000 in use, and the extrabrillary number of 20,000 were manufactured and sold last season, by the Wood Company of United States. We have over 500 of our manufacture now in use, every one of which (no exceptions) stands as a monument of the grand and unprecedented success of home manufacture and our enterpoise. A list of our Agents in this section of the Province will be found appended, and larmers are reduceted to ask information of them relative to our Mowers in use in their respective localities, which will establish beyond doubt their unquestionable supernority over any other mower to be had in dur market.
