PROVINCIAL NEWS.

FREDERICTON, May 5.—During the last three days the riven has risen about a foot. This indicates a rush of water in the streams and that the lumber drives should be coming out better than last week. The latest re-liable reports date back to last Tuesday or Saturday, and in reading that time should be allowed.

Robt. Potts, who had charge of the log driving for John Morrison, arrived home last evening, having safely delivered all of his logs within corpora-tion limits. Mr. Potts left for home on Tuesday last. Then there were no up river logs running. The water is not at a good pitch for easy stream driving, and some of the operators will have a hard time in getting their logs into safe waters

McCallum is yet in the brooks, and It is thought will come out safely. His operations were at Baker Lake, and his cut is estimated at about 6.000.000.

Kilburn, on the North West, is have ing a hard time. He is still in the brooks and the water is not at a good pitch for easy work. He has about

Gilman' Bros. and Burden, who op-erated on Black River, are bringing their logs along well, and will get safely into corporation limits. Their cut is 5.000.000. Sweeney is reported as having a

hard time of it. On Monday last he was building a dam to force the driving. His cut is 3,000,000. DuChene, on Blicak River, is making very satisfactory progress. Already he has 1,000,000 within corporation limits, driven by Mr. Potts. The

3.000.000. W. J. Nobles of Burnt Land Brook is having a very hard time, and probably some of his drive will hang. He has 3,000,000.

balance is coming easily. His cut is

On the Allegash, Dickie, with 4,500, 000, and Stevens, with 3,000,000, are also having a very hard time owing to low water.

Neill McLean on Nigger Brook, is coming out safely with 3,000,000. Donald Fraser & Sons, on Green River, are reported as experiencing much difficulty, and may have to hang some of their drive if the water does not soon rise. Their cut is about

R. A. Estey arrived home last evening from his operations on the Tobique. He reports all drives as either in corporation limits or coming along so well that they will soon be The driving season on the Tobique has been a remarkably short and successful one, many of the drives reaching corporation limits last week This is the first time in many years, if ever before, that heavy drives on the Tobique have reached corporation G. H. McLean, 72nd, Margaretville, N. limits previous to first of May. Mr. S., 61; Corp. D. Mossman, 75th, Block Estey's drive of 3,500,900 reached corporation waters on Saturday night. Hall & Murchie, who operate on Big

and Little Cedar brooks and on Little Tobique, have their drive of 6,000,000 all safe in the corporation. Three Brooks, got his drive into the

limits on Thursday last. He has Senator Baird's drive of 2,500,000 is

safe out of Three Brooks and into the main river. McNair on the Right Hand Branch of Tobique has his drive in Trousers lake. The ice has not yet come out of the lake, and his logs are not moving.

He, however, has a big lake and plenty of snow behind him, and will come out all safe. He has 5,000,000. Geo. Upham has not had quite such good luck with his drive of 2,000,000 on the Wapsky, and he is not yet in safe waters. There is, however, lots of snow, and doubtless Mr. Upham will

Robert Aiken is reported as having his drive on the Aroostook in safe waters. He is bringing out about 4,-

On the Miramichi it is stated that Timothy Lynch and M. Welch have their drives out of the brooks and in safe waters. The same applies to William Richards, but this report is Jacob Hazelton and other Resti-

gouche operators are also reported as coming out safely. Taken all around for lumber driving both on the St. John, Miramichi and Restigouche

FREDERICTON, May 8.-Walter McFarlane of St. Marys died suddenly Saturday night between 11 and 12 o'clock. To say that the sad news caused a shock to the entire comunity this morning is only an attempt to express the feeling that prevails here today. No man was better known and no man in the vicinity occupied a larger place in the friendship and esteem of his fellows than did Walter McFarlane. He was about his usual business Saturday all day. In the afternoon he was in the city, and with Jas. R. Howie drove up to Kings-In the evening he was about the village, to all appearance as hearty and friendly as ever in his life. Before retiring between 9 and 10 o'clock he complained to Mrs. McFarlane of not feeling well. About 11 o'clock he woke his wife and said he was smothering. He got up, took a glass of water, but found no relief. He then said to Mrs. McFarlane he felt that all was over his end had come. She hastened across the street to call Dr. Mullin. On her return he again told her he would not recover, and in a few min utes became unconscious. By the time the doctor arrived he was dead, not more than twenty minutes after the

signed. Mr. McFarlane was a native of St. Marys. There he built up one of the most successful manufacturing businesses in Canada. In business his word was his bond; in social life his kindness and unselfish generosity endeared him to all. Few men in this county enjoy a larger measure of respect in every way than did the deceosed. He was in his fifty-sixth year. His wife is a daughter of the late Whitman Haines of St. Marys. He leaves three da ighters, Mrs. Robt. B. Adams, Mrs. Robt. Howie, and th youngest, about thirteen. The funer

will probably take place Tuesday a

NOW THE GARDENER KNOWS. Mr. William Sadd is a gardener, an has been for a long time. In that (pacity he knows, of course, much abou the diseases and complaints that har pen to plants and trees. Now, if I should notice that a certain kind fruit tree was always sickly and ur productive when planted in a partic lar soil, or under conditions not har to observe, he would look into the ma ter carefully, and, no doubt, present ascertain the true cause of the tro ble and obviate it. For (he would re son) two facts, occurring continual side by side, are likely to have sor positive relations to each other; proably that of cause and effect. To s these coincidents, then to find o what they mean, is the foundation all useful knowledge: it creates th

thing we call "science. This course of proceeding, I say, M Sadd would have taken, and beyond question did take as a gardener. But when it came to investigating his own case, and drawing an inference from observed facts, he showed less keenness and clearness of judgment.

This was not because his mind had failed from the disease which was troubling him, but because he was not used to exercising it in that direction. "For years," Mr. Sadd' writes, "I suffered from gravel and indigestion. I felt low and weak, and my work was a burden to me. I had but little relish for my food, and after eating suffered much pain at the chest.

"My bowels were obstinately constirated, and sometimes days in succession would pass without a movement. There was also pain and stiffness in the back, and difficulty in voiding the kidney secretions, which were thick and scanty.

"My sleep was much broken through these different causes, and at length I became so weak as to be unable to follow my employment as gardener. "At first I went to the University hospital and afterwards to St. George's hospital: but the doctors at these institutions did nothing to relieve me. None of their medicines seemed to suit my ailment

"One doctor said I had inflammation of the bowels. "In this weak and painful state I continued until December, 18880, when Miss May Coote, Wellington Road, St. John's Wood, told me of the benefit she had derived from Mother Seigel's Curative Syrup.

And this curious fellowship continues year after year. Probably one is the cause of the other. And as the stomach trouble came first, why may not that be the cause of the kidney and blad-

When Mother Seigel's Syrup removed the impediments from the digesting machinery, and awoke the skin and bowels to a sense of their duty, the urinary trouble was relieved and soon vanished That so old and deep-seated a case should have been so thoroughly cured shows how fully adapted to this dangerous and painful disease Mother Sei-

nary size PREMIERS ABUSE EACH OTHER

At the meeting of the Feneral Convention in Melbourne the true spirit of neighborly regard was shown in a lively exchange of compliments. Even the genial premier of New South Wales so far forgot himself as to call a brother premier (Sir Edward Braddon—a very quiet, inoffensive gentle-man) a lunatic! He also told Sir William Zeal that he was "beneath insult"-that was after Sir William had called him (Mr. Reid) "a contemptible fellow." It is high time our delegates returned.—Sydney Sunday

AT CLOSE QUARTERS NOW.

A prominent member of the govern-

ment is reported to have remarked recently to a friend that instead of keeping off the besieging army of plunder-ers by rifles the government has had to resort to bowie knives. This indicates that the besiegers have got within the first zone and are now in close proximity to the strong box. fighting is now at close quarters.

"Women," said Mr. Kittiwink, "are entirely out of place in such unfamiliar surroundings as the Alaska gold mines," "I don't see why," said Mrs. Kittiwink, looking up from her mending basket. "I'm sure I've always known how to handle a dust pan."

Funeral of the Late Rev. James Grav Saturday Morning.

The Cases of Cripps v. Price Death of William McFarlane, a Wel'-to-do

Farmer.

SUSSEX, May 7 .- The funeral of the Rev. James Gray, M. A., took place from his late residence here at ten o'clock this morning, and was attended by a large number of people from the town and surrounding country. The religious exercises were taken part in by various members of the presbytery of St. John, of which Rev. Mr. Gray was one of the oldest members. The service was solemn and impressive in its simplicity. Rev. J. S. Sutherland. the present minister of the Sussex Presbyterian church, offered prayer, after which the twinty-third psalm was sung by the choir of the church. The 90th psalm was then read by Rev. W. W. Rainnie of Calvan church, St. John. This was followed by prayer by Rev. T. F. Fotheringham, M. A. Part of the 15th chapter of 1st Corinthians formed the second lesson, which was read by Rev. D. J. Fraser, B. D., the moderator of the St. John presbytery. A short and very excellent and appropriate address was given by Rev. Mr. Sutherland, who spoke of the character and work of the deceased minister, and of the many changes that had taken place since the time when he first settled over the Sussex congregation. In the course of his remarks Mr. Sutherland read extracts from letters received by him from Rev. George Carson of Pictou, N. S., who expressed his regret at being unable to attend the funeral of his old pastor and friend, and spoke most feelingly of Mr. Gray's influence for good upon those who knew him best. At the conclusion of Mr. Sutherland's address, the services at the house were brought to a close by the singing of the Scottish burial hymn, O God of Bethal, by Whom Thy People Still Are Fed. The interment took place in the Kirk Hill cemetery. A very large concourse of people followed the remains of one who had been so intimately identified with what was best in life. The handsome casket was fittingly decorated with many cestly floral tributes of respect from

Cripps, a cross-action for assault, both of which have caused a considerable amount of ocal talk, came up for hearing before the stipendiary magistrate this afternoon at the Sussex court room. After consultation between Geo. W. Fowler, barrister for Cripps, and J. M. McIntyre, barrister for Price, the cases were summarily disposed of with the consent of the stipendiary. The case against Hugh Price was withdrawn and a nominal fine entered against William Price for common assault. The cross-action of Price against Cripps was also withdrawn. The magistrate complimented the attorneys for their evident willingness to prevent litigation between neighbors. There was a large crowd of spectators present in court anticipating a lively suit, but they were disappointed. William McFarlane, a well to do and

During the last eighteen months the osition of the uitlander in the Transvaal has become steadily worse. Not a week passes without leaving him a little poorer, a little more hopeless, a little more unhappy. "And yet, this being so," says the Englishman in London, the Frenchman in Paris, the German in Berlin, the American in New York and San Francisco, "you uitlanders do nothing, even say nothing. You call no public meetings, you make no united protests, you lay inert like brute beasts!" The reproach, although natural, is not just, Before the disastrous incursion of Dr. Jameson the uitlanders in Johannesburg had petitioned till they were sick, argued until they were hoarse, entreated until self-respect comm silence, agitated and agitated until they, being unarmed, defenceless, and discouraged, were finally prevented by law from even calling or attending a public meeting. So the silence of the uitlander commenced. Bound and helpless, what can he do but writhe? Since the collapse of the reform move-ment, the uitlanders have been like the gasping fish, landed high and dry on hot sand.—Johannesburg Star.

THE LATEST SWINDLE.

The very latest trickster poses as an author. He writes to an advertising typewriter, a lady for choice, saying that he has a great iteal of manuscript to be copied, but it is of incalculable value, and he requires a deposit of £1 security for its safety befor it can be forwarded. Once the trusting young woman has forwarded the deposit, correspondence ends.-In-
