SAXONY'S KING DEFIED

BY HIS DIVORCED WIFE

Says She Will Insist on Seeing Her Children According to Agreement.

BERLIN, Nov. 6.—The Countess Montgomerie, the divorced wife of the King of Saxony, has been determined to have access to her children. Although nearly four years have elapsed since she eloped with the Belgian tutor, she makes repeated attempts to reopen negotiations for the purpose of seeing her children regularly.

The king has now informed her lawyer that he refuses to enter into any kind of negotiations or communications with his former wife, who will be permanently prohibited from seeing her children. To this the countess has replied that she will take measures to see her children without permission. Thereupon she received an answer from Dresden warning her that if she makes any attempt to enter Saxony for the purpose of seeing her children she will be forthwith expelled from the country. The countess made an attempt to enter the royal palace of Dresden to see her children on December 22, 1904, but was prevented, and immediately afterward a decree was issued expelling her from Saxony and ordering her exclusion if ever she attempted to cross the frontier.

ST. JOHN STAR.

ST. JOHN, N. B., NOVEMBER 7, 1906.

A GOOD SUGGESTION.

There could be no better suggestion having in view the prosperity of St. John than that made through the columns of the Star yesterday by a number of prominent citizens for the organization of a 75,000 club. That something must be done, and done quickly, if this city is to keep up with the rest of Canada is evident to all. We have not gone ahead very much in the past ten years in so far as actual growth is concerned, although of course the winter freight traffic has led to the development of the port and in the natural life of the city we have introduced numerous advanced ideas. But our population is scarcely any larger than it was ten years ago, thousands of our citizens are seeking homes elsewhere chiefly because the opportunities offered here are not sufficient to make them remain, and our industries have not materially increased, and in fact when the development of many towns and cities in other parts of the country is considered we appear to be almost standing still. This is not in any way due to lack of natural resources or advantages. We are geographically in as good a position as any city in Canada for manufacturing purposes, for though in certain respects a few other places may have seeming advantage St. John is better situated in other facilities. There are towns even in the Maritime Province which are nothing less than hives of industry and which, if their natural advantages alone were considered should not now be in existence, but the enterprises of a comparatively few energetic men great things have been accomplished. There is no reason why the same may not be done in St. John. All we need is united action, to every resident here interested, ever man, woman and child to feel that this is his or her home, that the prosperity of each individual must and does depend upon the prosperity of the city as a whole, and to assume a personal share of responsibility in bringing about better conditions.

In the past there has been practically no effort towards this end, solely because no existing organization has ever considered itself called upon to perform the necessary work. It is true there is a new industries committee of the board of trade, but these few men could scarcely be expected to devote to the work that time and energy which would be necessary for the proper accomplishment of the end in view, and at any rate new industries form only one feature of the larger scheme of expansion.

The hearty co-operation of all would be necessary. The direct object, drawn from the name of the club, would be to bring the population up to double its present number, and to do this would of course involve many other points, including the securing of new industries, the development of natural resources, and an extensive campaign of advertising. Such a work can be carried on only by a new organization and the suggestion is before the people of St. John is that such a body be formed. The conditions here, it must be admitted, are not such as will warrant immediate success as in the case of Vancouver for instance. There the main object of the association is to direct into the proper channels the tide of immigration, while here we must first secure the immigrants. This can be done, anything can be done, if only the people who should be interested will do their proper share of the work. The suggestion is an excellent one, let every person in the city think it over and when the first active steps are taken let all join in the movement.

AMONG THE MISSING.

It is worthy of note that at the meeting arranged in the High School on Monday evening in the interests of kindergarten work in the city of St. John there was not in the audience a member of the schoolboard or an alderman. Mayor Sears presided and was the only civic representative in attendance, yet the matters discussed were of no inconsiderable importance, and the work which was brought before the people is of a nature which must in a very few years be generally introduced in the public schools. The policy adopted by these governing bodies seems to be to learn as little as possible of the matters over which they have control. The old order of things in education is passing away, the nations of thinkers are being succeeded by nations of doers, and St. John will, a few years later than every other part of the world, fall in line with the movement towards the adoption of teaching into the public schools. We are devoting our energies to the instruction of a very

BOUNDARY QUESTION

Conference to be Held at

Ottawa Next Monday

Ontario Government Confident of Obtaining a Portion of the Territory Adjacent to Hudson's Bay.

(Toronto World.)

Premier Whitney, Hon. Mr. Foy, the Attorney-General and Hon. Mr. Matheson, the Provincial Treasurer, will be present on Ontario's behalf at the conference to be held in Ottawa one week from today between representatives of the Dominion Government and of the Provincial Governments interested in Manitoba's demand for the extension of the territory lying north of the Province northward to the shores of Hudson's Bay. The decision fixing the date named for a discussion of the subject was reached at the recent conference of Provincial Premiers. The Ontario Government has been giving the matter considerable attention, and will make best presentation possible of Ontario's side of the case. How that is said to be very strong. In Government circles, and has been shown in various ways. For instance, the question of an extension of the Temiskaming & Northern Ontario Railway to James Bay, the southern portion of Hudson's Bay, has already been more or less seriously talked of, and in the summer of 1905 preliminary surveys to Moose Factory, near the mouth of Moose River, which empties into the bay, were made, \$7,500 having been voted by the Legislature for that purpose.

During the conference it is expected that the Ontario and Dominion representatives will discuss the possibility of the former for a Federal bonus for the Temiskaming & Northern Ontario Railway. Hon. Mr. Matheson in his budget speech of 1905 expressed the opinion that the Province had good grounds for asking the Dominion to make the road to the extent of \$2,000,000. In this year's budget speech he said on the same subject: "We have the right to the extent of \$2,000,000, and I have every expectation that we will receive a bonus. Whether we will get it for the whole line or not I am not aware." As at present planned and being carried out the road is 253 miles long.

INDIA'S GROWTH AND PROGRESS.

The number of persons to the square mile in India in 1901 (the last census) was 423.90. Of the total of 294,361,058 who constituted the population at the last census more than 200,000,000 were Hindus. The Christians number 2,232,241. There were an enormous number of widows over widowers in that country. Of Hindus there were 6,000,000 widowers and 19,000,000 widows, and of Mohammedans there were 1,300,000 widowers and 4,500,000 widows, and so on with the other races. The taxation per head in India has grown from 75 cents in 1885 to 84 cents in 1905, and the debt has grown in that time from \$285,000,000 to \$1,550,000,000. The imports rose from \$225,000,000 in 1885 to nearly \$2,000,000,000 in 1905, while the exports in the same period increased from \$285,000,000 to nearly \$515,000,000.

ENOUGH FOR ALL.

We murmur a lot when the skies are gray. We chafe when the weather is mean. We only smile when the sun sends his ray. And the path for our feet is green: "We're selfish enough to want all the shine. And want all the roses that grow. And want all the summer with blow. And want all the breezes that blow. We're bound in the gray and the gloom of the day. And we sometimes forget that the cheer is wanted a while by the people that smile. In some other part of the sphere."

AWESOME.

"I tell you, I stand before this painting, awed!" "No!" "Yes, sir. It gives me a new notion of omnipotence." "Well, I declare!" "Only to think, sir, that the Lord could make a sunset like that if he chooses!"

PERHAPS.

Miss Summergirl—"Can you float alone?" Mr. Financier (absentmindedly)—"I don't know. How large a loan do you mean?"

NO HURRY.

"All the little boys and girls who want to go to heaven," said the Sunday School superintendent, "will please rise." All rose but Tommy Twaddles. "And doesn't this little boy want to go to heaven?" "No-not yet!"

AT A LOSS.

Ben Butler was a terror and torment to the judges. On one occasion Judge Sanger, having been bullied and badgered out of all patience, petulantly asked, "What does the counsel suppose I am on this bench for?" Scratching his head a minute, Butler replied, "Well, I confess your Honor's got me there."

BIRDS OF FEATHER.

Sassenach Shooting "Tenant"—"Morning, Dougal. I think I heard the wild geese cackling this morning. Flighting south, I suppose?" Dougal—"Ay, just that. When'll ye be think of going yourself, eh?"

WILD MAN OF WOODS

IS POLICE DETECTIVE

Missing Since May, He is Discovered Wandering Alone in Filthy Condition.

VIENNA, Nov. 6.—A well known Viennese police detective, Karl Pfeifer, disappeared in May last, while making official inquiries in the neighborhood of Vienna. On July 13 the body of a man answering to the description of Pfeifer was found in an unfrequented part of the forest, and recognized by his wife and other relatives.

Last Friday the police reported to the city authorities that they had found alive near Herzogenburg. A gendarme patrolling the woods found him. He was in a dreadfully neglected state, his hair was hanging to his shoulders, his clothes in rags and in a filthy condition. From his incoherent utterances the unfortunate man appears to have slept since May in the open, fed on berries and dry bread, given in charity. Pfeifer has been brought to Vienna and handed over to the doctors for examination as to his mental state.

PRUSSIA EXPELS RUSSIAN REFUGEES

Propagation of Offensive Political Doctrines Resented by the Government.

BERLIN, Nov. 6.—Several hundred aliens were expelled from Prussia during the last few weeks, all being Russian refugees who sought a safe asylum in Berlin to await better times in their own country.

The Prussian Ministry of the Interior still regards the presence of large numbers of these Russian aliens as undesirable, owing to the fact that the majority are unable to prove that they possess sufficient means of subsistence or a regular occupation.

In a few cases the aliens incurred the disfavor of the authorities by propagating subversive political doctrines in Prussia. Orders were consequently given to carry out wholesale expulsions.

The police informed the aliens that they must leave Prussian territory by a certain date, otherwise they would be arrested and conveyed to the frontier by a police escort, and ejected from the country.

Some were ordered to leave within eight days, others within four, six or eight weeks.

Russian refugees are still flocking to Berlin, but the Prussian authorities are determined to carry out these expulsions continuously in order to prevent numbers of undesirable accumulating here.

P. E. ISLAND PRIEST HAS SERVED FOR FIFTY YEARS

He was born in Ireland, ordained at Charlottetown Aug. 31st, 1856, was 29 years at Vernon River, 16 at Iona, and the remainder of the time at Charlottetown and St. Peter's.

NEWEST IN GIRLS' HATS.

College Hats are the latest thing for girls and maidens in the big cities of the United States. They are now worn on every side, and will be one of the features of fall. M. R. A. Ltd., received a special shipment by express yesterday, and will commence selling them in the morning. The advent in this issue tells all about the colors and prices. Every hat supplied with a college pin.

At a meeting of the executive of the Seamen's Mission, held last night, it was decided to hold a public meeting to discuss the building plans of the society. A committee was appointed to make arrangements about the time and place of the meeting. It has not yet been definitely decided on which side of the harbor the new building will be situated, and this with other matters connected with the building project will be taken up at the meeting.
