Westfield is in great need of a doctor. Dr. J. B. Gilchrist, who has been practicing at Greenwood has given up his practice there and gone to Sussex. This means that there is not a resident M. D. between Fairville and Hampton. It is surely not very convenient for the general public. This community has been without a doctor for somewhat over a year.

An unusual sight at the time of year could be seen here on Monday when the river was clear of ice as far as the eye could see either up or down river, with the exception of a strip below the Norton bridge. One was easily reminded of the summer time, and for years such a thing has not occurred. The continued cold of the last few days is closing it again. Dr. E. Macdonald had in his possession this week a couple of sprays of willows with the white catkins bursting out as they usually do in April.

A Young Peoples' Society has been organized in this community and meets on Friday evenings in the Methodist church at Hillandale.
