INSTRUCTIONS AS
TO PREVENTION

Dr. C. G. Melvin, Chief Health
Officer, Tells How To Pre-
vent Spread of Spanish In-
fluenza.

Dr. C. G. Melvin, chief health officer
of the city and county of St. John,
thinks it well to give to the public
the following advice or instructions
as to the prevention of the spread of
Spanish influenza, which is spreading
at an appalling rate over the eastern
states:

First—Isolate the patient in upper
room, well lighted and aired.
Second—Permit no one to enter the
room excepting a physician, a clergy-
man and the nursing attendant.
Third—Patients should not leave
room until the fever is gone and the
cough (if any) has ceased and
any discharge from the nose and
throat dried up.

Fourth—Clean handkerchiefs (paper
ones will do) should be used and
burned at once after use.
Fifth—Other members of the family
should wear a good, but non-por-
ous, spray to their nostrils and throat
daily. One teaspoonful of common
salt in a quart of boiled water is sug-
gested.

Six—During sickness and after re-
covery all soiled bed and body cloth-
ing should be boiled for at least half
an hour.

Seven—After recovery the room
should be thoroughly aired for two
days, the windows wide open, wind-
ows and wood-work should be
scrubbed with hot water and washing
soda and walls whitewashed, papered
or painted.

Eight—Persons with suspicious
symptoms, such as chills, fever or
unusual pains in the head, back or
limbs, should remain at home and
immediately obtain medical atten-
tion.

With reference to guarding any
community from the disease, Dr. Mel-
vin says that short of absolutely
prohibiting travel of all kinds,
which is regarded as clearly
impracticable, there is little that
can be done to prevent the spread
of influenza from community to com-
munity. This is clearly seen, he said,
in the history of its former outbreaks,
more especially in the rapid and
seemingly inevitable spread of the
present one. The local authorities
here, he said, are taking every step
practicable to mitigate the disease and
restrict its spread in the community
as much as possible. They have also
requested every practising physician
in the city and county of St. John to
notify them of any case and give the
names and addresses of the patients.
