A Boston wool grader recently found a watch embedded in a layer of fat in a piece of Western wool, picked it up, wound it, and found it would not like any other useful watch. It had probably dropped from some clockmaker's pocket as he was rolling up the fleece.

### GOSSIP.

An old lady was telling her grandchildren about some troubles in Scotland in the course of which the chief of her clan was beheaded. "It was nae great thing of a head, to be sure," said the good old lady, "but it was a sad loss to him."

A country doctor was once riding over a wild stretch of down, and asked the lonely shepherd how he managed to get medical assistance for his wife in the isolated cottage where they lived. "Well, sir," replied the shepherd, in all good faith, "we dun't ha' no doctor; we just dies a nat'ral death."

"I'm ready," shouted a pompous orator, "to meet calmly any emergency that may arise."

At this moment the platform collapsed, and the speaker exhibited great perturbation.

"How about that one?" they asked him later.

"That one did not rise."

Though they affirm

A deadly germ

Lurks in the sweetest kiss,

Let's hope the day

Is far away

Of antiseptic bliss.

To sterilize

A lady's sighs

Would simply be outrageous—

I'd much prefer

To humor her

And let her be contagious!

Mr. D. MacLennan, presumably for export to the Argentine, recently bought from Lord Lovat, at a high price, the very superior two-year-old Shorthorn bull, Lovat's Best, by the champion breeding bull, Royal Star, out of Maid of Underley, the sire of which was the well-known Collynie bull, Proud Duke. Lovat's Best is a bull of splendid merit and breeding, and was being prepared for this year's summer shows.

When George Westinghouse, as a young inventor, was trying to interest capitalists in his automatic brake, the device which now plays so important a part in the operation of railroad trains, he wrote a letter to Commodore Cornelius Vanderbilt, President of the New York Central Railroad Company, carefully explaining the details of the invention. Very promptly his letter came back to him, indorsed in big, scrawling letters, in the hand of Commodore Vanderbilt: "I have no time to waste on fools."

Afterwards, when the Pennsylvania Railroad had taken up the automatic brake and it was proving very successful, Commodore Vanderbilt sent young Mr. Westinghouse a request to call on him. The inventor returned the letter, indorsed on the bottom as follows: "I have no time to waste on fools."

Mr. Robert Miller, Stouffville, Ont., writes: "I have, since writing you last week, sold the following Shorthorns to R. H. Reid, Pine River, Ont.: The very sweet imported cow, Lovely, descended from the Longmore cow, Lovelace, by Knight of Strathbogie 2nd (79172), a Secret, bred by Mr. Wilson, of Pirbright, Miln. Her dam was Lovelace, by the Miln. bull, Mandarin (65884). This young cow is carrying her second calf, and should, in Mr. Reid's care, prove the foundation of a good herd. She is in calf to the greatest of latter-day Golden Drop bulls, Royal Prince (71490). Few have bred like him, and few are bred like him. His sire and dam were both great winners, and his dam was the granddam of Golden Fame. To Mr. K. N. Campbell, of Miln. P. Q., have just sold the Duchess of Gloster bull, Baron Gloster—49225—, a splendid, thick, big bull, was second to his almost full brother at Bowmanville last fall. His dam is a good milk and good feeder, and he is one of the best general-purpose bulls I have had. Have just sold two beautiful black ponies for showing. They are 13 1/2 hands high, well mated, kind and fast, with high action. I breed a great many such from the best Hackney stallions I can find, and imported Welsh mares. They make the finest of the horse kind."
