

# THIS UNIVERSITY BELONGS TO THE STUDENT!

We need people who care about what's happening at our university.  
We need people who are probing and opinionated.  
We need people who give a damn about this university.  
We need people who think the system here at York is wrong and should be changed.  
We need people who think we're not getting a good education.  
We need people who feel the faculty is ignoring us.  
We need people who want administration changes.  
We want change.

# DIG IT
