

## ZEALANDIA. SASKATCHEWAN

Zealandia, Sask., March 28th, 1910

We came to Zealandia five years ago from North Dakota. We farmed there for twenty years and have prospered more in five years here than we did in Dakota in the twenty years. We started with 640 acres and now have 2080 acres. Last year we had an average of  $32\frac{1}{2}$  bushels of wheat per acre, on 600 acres, all of which graded No. 1. Northern.

PAUL J. JOHNSON & SONS.

---

Zealandia Sask., March 31st, 1910.

It gives me pleasure to state that I came into this District in the Spring of 1904, considering it the best I could find. My anticipations have been fully realized. One year ago I purchased an improved quarter section. The gross returns from this quarter last year were above the price paid for the land. I wish to state that this is not an isolated case. There are many.

A. N. SWETMAN.

Many such letters could be secured from prosperous farmers, but space for publication would not permit. Come, see, believe.
