

Drunkenness

IS A DISEASE, AND CAN BE CURED.

FIVE years ago we introduced our system of treatment of Alcoholism and Morphine habit into Canada, and to-day thousands stand ready to testify to its unqualified success.

“Lakehurst Sanitarium”

has become a household word in a great portion of our Dominion. Numbers of families, separated for years by drink, have been reunited through our treatment. Men, who have been so enslaved as to be only a burden of grief and shame to their families, have become respectable and useful citizens.

THIS IS THE ONLY SUCCESSFUL AND SCIENTIFIC
TREATMENT KNOWN.

Many imitations are offered. Remember, if you are a victim, you can be as free from it as the day you were born.
