Cochinchina, whence the Cochin coconut oil comes
which is used in making Baby's Own Soap.*

TORONTO EXHIBITION

PORTABLE
and
TRACTION

We invite our farming friends to see
our Portable and Traction Engines
at the Exhibition or at our new factory
on the Lake Shore Road, between
Scarleton and the Humber River.
Mimico Electric Cars stop at
the Door.

In some cases our Gasoline Threshing
Engines have threshed at less
than a quarter of the cost of steam
power. We have the best Gasoline
Threshing Engine in Canada and it
is without peer in America.

If you are not at the Exhibition
WRITE FOR CATALOG, stating for
what purpose you need an engine,
and about what power.

Our address for mail only is

1500 KING STREET WEST

Send us your address, and we will show you how to make a day absolutely sure. We will furnish the work and teach you free. You work in the evening where you live. Send us your address and we will explain the business fully, remember we guarantee a clear profit of \$3 for every day you absolutely work. Write at once.
IMPERIAL ADVERTISING CO., Box 807, Windsor, Ont.

as airy and graceful as a spider's web and as strong and tenacious as wire and steel sustaining trusses can make them.

We purpose devoting a special article to this subject in an early issue, when we hope to be able to lay before our readers a more comprehensive analysis of the present conditions of farm fencing and its place and immense importance in the development of our country, as well as its rank among the manufacturing, industrial and commercial interests of our people.

3.

A Gasoline Traction Engine

The McLachlan Gasoline Engine Co., Limited, will have something new at the Toronto Exhibition this year—a gasoline traction engine. This is the only concern in Canada that manufactures gasoline traction engines. They are built on the same principle as their popular threshing engines, of which they make a specialty; and theirs is, by the way, the only gasoline threshing engine that has been found capable of handling the large separators in the Northwest. They are extremely light and may be moved from place to place with the greatest facility, and the cost of running them is not more than a quarter the cost of running a steam engine.

In addition to their portable and traction engines, this company manufactures stationary engines for all purposes, both gas and gasoline, from 3 H.P. to 40 H.P., and marine engines. While the threshing engine is their specialty, their other engines are equally good. All are four cycle and none are "hit and miss" engines; they give an absolutely steady power almost entirely free from vibration, their larger sizes having double opposed cylinders. When seeing them at the exhibition, notice the smooth running.

The company's new factory is on the Lakeshore road, just east of the Humber River, where they will welcome exhibition visitors and others to inspect their premises and engines. (For mail only, address, 1500 King St. West.)

4.

The Central Business College of Toronto

No institution of learning in Canada enjoys greater publicity or stronger public confidence than the Central Business College of Toronto. The principal, Mr. W. H. Shaw, is a believer in the use of the press, and by supporting his announcements by the most thorough work possible on behalf of his patrons, who are so universally successful, he has brought his school into well deserved prominence. The Fall session begins on Sept. 25th, as per card in this issue.

5.

Maritime Exhibitions

The Nova Scotia Provincial Exhibition will be held at Halifax Sept. 13-21, and the P. E. I. Agricultural and Industrial Exhibition at Charlottetown, Sept. 26-29. Several expert judges from Ontario and Quebec will be in attendance at these exhibitions, and will address meetings of farmers in the farmers' pavilion every evening of the show. Among those who will deliver addresses are: Dr. H. G. Reed, Georgetown, Ont.; Robert Ness, Howick, Que.; C. M. McRae, Ottawa; John Campbell, Woodville, Ont., and Major James Sheppard, Que. (See Ont. Mr. E. B. Elderkin, Amherst, N. S., will preside at the meetings.)
