

**THE "BT" LITTER CARRIER**

Note the double purchase in lifting and the simplicity in construction.

No machine on the farm is used as many days in the year, or saves as much hard, disagreeable work as a Litter Carrier. A boy can fill, wind up and push out in a "BT" LITTER CARRIER four barrows of manure with ease, no matter how much mud or snow there is in the yard. The manure can then be dumped into a wagon or sleigh, and put directly on the land, with very little if any more labor and time than is required to pile it in the yard with the old method, where the greater part of the fertilizing value of the manure is wasted.

Write for free catalogue showing best method of erecting Litter Carriers, and telling why you should buy a "BT" LITTER CARRIER.

**BEATTY BROS. FERGUS. ONT.**  
We also build Steel Stalls and Stanchions and Hay Carrier Goods.

**This Cylinder Shows Why The "EUREKA" Root Cutter**

is the best on the market. See how it is designed. Grooved knives, with the grooves on one blade opposite the teeth on the next. Instead of slicing or pulping, the "Eureka" turns out roots in shreds — thin narrow strips —

suitable for any kind of feeding. The "Eureka" shreds from one to two bushels a minute, and turns so easily that a child can operate it.

In the "Eureka" the feed is kept free from dirt, the feeder bottom being made with iron rods, thus allowing all dirt to drop out before it can reach the shredding cylinder.

The sloping form of the cylinder makes the machine a self-cleaner. Write for catalogue which explains fully.

**The Eureka Planter Co. LIMITED Woodstock, Ont.**

**Goes Like Sixty**

**Emery rod and Towel drier—found Only on Pandora**

**McClary's Pandora Range**

When a knife is dull a Pandora owner never wastes time hunting for a "steel." She just walks over to the emery rod attachment to Pandora, gives knife six or eight passes over the high-grade emery, which puts on the keenest kind of an edge.

This combined emery rod and towel drier is a patented attachment you cannot secure on any other range. Just one of the many improvements that go to make Pandora the handiest range you can buy. 14

1 1/2 TO 50 H.P.

Catalogue 14G tells why. Sole in and out of doors.

**SCOTT MACHINE CO., LIMITED**  
LONDON, CANADA.

**Pans Tell**

One dishpan shows the only piece used inside Sharples Dairy Tubular Cream Separator bowls. The other dishpan shows the disks from a common separator bowl.

Is it not easier to handle, wash and turn the light Dairy Tubular bowl? Is it not common sense to expect the simple Dairy Tubular bowl to run steadier and resist rust, knocks and wear longer than a common bowl with a dishpanful of disks inside? Of course it is.

The manufacture of Tubulars is one of Canada's leading industries. America's oldest separator concern. Sales easily exceed most, if not all, others combined. Tubulars probably replace more common separators every year than any maker of such machines sells.
