Interesting and Romantic Results of Singing Into a Phonograph.

invention of the phonograph has lately led to more than one wedding, yet the fact cannot be denied.

At a recent bachelor dinner given by Mr. James Delaney, of 367 Manhattan Avenue, Jersey City, prior to his taking on the joys and sorrows of a wedded life, he informed his guests that his approaching marriguests that his approaching marriage was due to his having fallen in love with his fiance's voice as it came through a phonograph, many months before he ever saw her. The young lady who possesses so seduc-tive a voice, and whose professional name is Miss Emma Laurens, was a music teacher, and in order to in-crease her income she accepted an engagement to sing into the maof the Edison Phonograph ny. Into one she sang a pret-Company.

Mr. Delaney, who, by good fortune, is a lover of the phonograph, purchased some fresh records about a year ago, and among them was purchased some fresh records about a year ago, and among them was "When I Think of You." As he listened to the sentimental song as interpreted by Miss Laurene's mobile and sympathetic voice, the freedom of a bachelor's life seemed to lose some of its glamor. He began to think about the singer, whether she was young and pretty and unmarried, until at last he made up his mind to find her, and, if everything turned out well,

TO MAKE HER HIS WIFE. He knew his enthraller's name, for it was engraved on the record, and without delay he called on the so without delay he called on the Edison Company and asked for the lady's address. This, of course, was refused, but he obtained a profise to the effect that if he liked to write a letter and address it care of the company it should be forwarded to the proper quarter.

It gives one rather an ache in the mouth to reflect that a gentleman who died recently in London has left an estate of nearly £170,000 all from making artificial teeth says the St. James's Gazette.

Mr. George Daly, a traveller in phonographs, tells rather a curious story in connection with these machines. It appears that last year a phonograph belonging to a customer being out of repair, Mr. Daly called to put matters right. With him he took several records and after he had put everything in order he inserted a cylinder and started the machine. The song, a beautiful ballad entitled "Why are Roses Sweet?" by C. R. Hawley, was sung by a Miss Georgie Starr.

While the music was in progress a lady entered the room and sat down to listen, with a rather amused expression on her face. At the conclusion Mr. Daly politely inquired if she had enjoyed the song, to which the young lady replied that she had, though it was a somewhat curious coincidence that she should be indeed to extract teeth to sell to dentists for insertion in live men's mouths. An army of these ghouls followed Wellington. They were literated as sutlers, but, once night fell out came their pliers and out came their pliers and out came the battlefields. It is a horrible idea, but we are not so much more refined to-day. Only eighteen months ago somebody was exploiting the bones of our soldiers who had fought and died under Lord Wolseley in the Ashanti war. The poor relics were shipped to London, taken to an auction room to be sold as "curios," and only at the last moment was public opinion too strong to permit the wicked transaction to be carried through.
