8 lb milk and 199
5, or nearly double.
I result of feed and
1 A-1 sire. One cowerd in 1915 gave 8,—
dilk, and in 1916 her vas over 19,000 pounds;
Ik a high standing at the a winter fair. Herd rework leads to good results.
Will evidently pay to keep ck of what cows are doing ow, and note then what they can be induced to do. Just write to the Dairy Division for milk record forms, they are tree, and get full satisfaction and etter returns from improved cows. Test the herd, make each cow pay. Lieut. F. C. Mellor Son of T. C. Mellor, Kentville. Killed in action July 1st, 1916.

HARRY B. MAHAR son of Wesley Mahar, Kerty Killed in action Jan. 5, 1917

Harry B. Dickey son of H. S. Dickie, Canard Killed in action June 15, 1916 L.-Corpl Grant E. Magee son of J. A. Magee, Pt. Williams Died in training, Kentville Feb-ruary 2, 1916.

Sapper Preston Illsley
Berwick, N. S.
Killed in action April 11, 1916.

American engineery timistic over experiment being made with the progress is certainly. The plan is to weld u and thus do away with etting, necessarily a signess is figured that cessful use of the welding research as rapidly as by existing the sar rapidly as by existing the construction now about equals newconstruction, while the tonnage needs of the Allies are increased with each increase in the strength of the army overseas. It is a close race that is being run between the construction crews on land and the destruction crews on land and the destruction crews at sea, although the ever-increasing efficiency, both in construction and in defence, holds its promise of ultimate victory. The Entente would be immensely heartener assurance that science?

""The property of the same and the surface that science as well as a surface that science as well as a surface that science as well as the same and the surface that science as well as the same as well as a surface that science as well as the same as well as a surface that science as well as the same as a surface that science as well as the same as a surface that science as well as the same as a surface that science as well as the same as a surface that science Norman H.
