IGNORANH, VICIOUS, BITTER.

Gompers Styles Employers in Organized Opposition to Labor Movement -Annual Meeting A. F. of L.

Pittsburg, Nov. 14.—Old city hall was crowded yesterday when President Samuel Gompers called the American Federation of Labor to order for the opening of the silver anniversary of organization. All the delegates representing every state in the union, Canada, England, and other foreign countries, were present.

Canada, England, and other foreign countries, were present.

President Gompers reported that the 118 international unions in the Federation consist of, approximately, 27,000 local unions of their respective trades and callings. He deplored the fact that ignorant, vicious and bitter antagonism has been leveled against our humanizing movement by a number of so-called employers' associations and citizens' alliances. These men, for their own immediate and temporary greed of gain, associatemenselves in organization for the purpose of depriving workmen of that right and benefit.

Conditions in Canada.

Conditions in Canada.

Speaking of the conditions of labor in Canada, he said:

in Canada, he said:

"The condition of the labor movement of the Dominion of Canada is constantly growing and becoming of a more satisfactory character, not only to our movement in the United States, but to the workers of the Dominion themselves, despite the fact that they have the same contention and opposition to meet as confernit as In the retion to meet as confront us. In the re-cent past they had in addition there-to an element which advocated a labor movement isolated from that of the rest of the American continent. The rest of the American continent. The officers of the Canadian Trades and Labor Congress call attention to the fact that this movement is now practically confined to but one person who finds time to tour the Dominion as an agent for the Canadian Manufacturers' Association. The officers confidently expect that in the near future this division will be entirely eliminated by reason of the growing intelligence of the workmen, who, in the beginning, attempted to enroll themselves in such an isolated body, but who have be an isolated body, but who have become convinced of its folly and have joined the international trade union movement."

From Napier, New Zealand, Herald:
Two years ago the Pharmacy Board
of New South Wales, Australia, had
an analysis' made of all the cough
medicines that were sold in that market. Out of the entire list they
found only one that they declared
was entirely free from all poisons.
This exception was Chamberlain's
Gough Remedy, made by the Chamberlain Medicine Company, Des
Moines, Iowa, U. S. A. The absence
of all narcotics makes this remedy
the safest and best that can te had;
and it is with a feeling of security
that any mother can give it to her

Remedy is especially recommended by
its makers for coughs, colds, croup
and whooping cough. When taken in
time it prevents pneumonia. This
remedy is for sale by all druggists. Ottawa, Nov. 14.—Hon. Mr. Prefontaine announced yesterday that the investigation into the Bavarian accident would probably open on Thursday, before Judge Routhler in the Vice-Admirally Coart. E. T. Newcombe, Deputy Minister of Justice, and Wm. Cook of Quebec will represent the Crown. pain for eight long years from a terrible eczema on the scalp and face. The best doctors were unable to help me, and I had spent a lot of money for many remedies without receiving any benefit. My scalp was covered with scabs, my face was like a piece of raw beef, my eyebrows and lashes were falling out, and sometimes I fel' as if I was burning up from the ter rible itching and pain. I then began treating myself at home, and now my head and face are clear and I am entirely well. I first bathed my face with Cuticura Soap, then applied Cuticura Ointment to the afflicted parts, and took Cuticura Resolvent for the blood. I was greatly relieved after the first application, and continued use of Cuticura soon made a complete cure.

## TERRIBLE PAINS ACROSS BACK

SUFFERED EIGHT MONTHS WITH KIDNEY TROUBLE. WOULD HAVE TO STAY IN BED FOR THREE DAYS AT.

Doan's **Kidney Pills** CURED HIM

Mr. Thomas Fitzgerald, Hazeldean, Ont., writes us as follows: "I was a great sufferer from kidney trouble for eight months. I had terrible pains across the small of my back. I would have to stay in bed for three days at a time and could not do any work. I tried several remedies but of no avail, and also plasters but they were of no use.

one day a neighbor of mine advised me to try Doan's Kidney Pills. I was so much discouraged I told him I was tired of trying remedies, but he urged me to try one box so I purchased one, and before I was through using it, I found a change for the better so I got five boxes more, and I have had no trouble with my kidneys since. I would not be without Doan's Pills in my house."

It is really not difficult to cure kidney trouble in its first stages. All you have to do is to give Doan's Kidney Pills a trial. They are a never-failing cure for all forms of kidney trouble. They quickly relieve the conjested, overworked kidneys, and gradually bring them back to health.

Doan's Kidney Pills 50 cents per box or three boxes for \$1.25, all dealers or The Doan Kidney Pill Co., Toronto, Ont.

Giving the Baby Sleeping Drafts "Just to Quiet Him."

Very often it happens, especially then mothers are ignorant, that they appreciate the value of sleep so highly that when baby will not go to sleep in the ordinary way they give "a dose,"
"a composing mixture," "a little soothing sirup," "a sleeping draft" or one of the numerous preparations sold under various names "just to quiet him." Some mothers will even give the baby a little gin to make him sleep. The mother who acts thus makes a fatal mistake. It is scarcely possible to find words which will express strongly enough the evil of this prac-tice. Mothers who get their children off to sleep by methods like these are committing the greatest cruelty.

They are doing what they can to in-jure not merely the bodily health but the brain of the child. Infants who are "sent to sleep" with soothing doses too often grow up stupid and dull. They are not sharp like other children.

There are indeed people who say that when children who are frequently dosed to make them sleep grow to be men and women their moral sense is blunted, and there is the fear that they may become raurderers, thieves and criminals.

Should this be true, who is to blame for the crimes which are committed? If mothers understood the price which would have to be paid in the future for the hour or two of quiet gained by the quieting dose now they would surely be willing to have their own sleep broken for the rest of their lives rather than bring such mischief on a help less little baby.

Very frequently, however, the poor

little mortal escapes all risk of this kind, for he is quieted only too effectually. "He goes to a quiet place—the grave."

fifteen inches above them another rail is placed, against which the shoe pockets are attached. The sides of the screen are separated by a strip of wood four inches wide, to which the wings are fastened by means of hinges. This piece will allow the screen to be partially closed with shoes in the pockets.

The wings are to be covered with some effective material, such as china silk, cretonne or silkoline, and fastened at the edges with small tacks, over which gimp may be placed and caught down at regular distances with brass headed nails.

Pockets of denim in a color to match the draping material are made and se curely tacked in place against the middle cross rail, and on one of the wings a narrow foot shelf or ledge may be supported on brackets that are screwed fast to the side uprights of the wing.— New York Herald.

Charlotte Russe.

Charlotte russe is one of the easlest as well as one of the best desserts ever invented. It is a pity that so many women accept the poor substi-tute sold at the bakeries. The mixture used by bakers is, of course, not cream at all. No one knows what it is, in the majority of cases. Real charlotte russe filling is whipped cream, mixed with other materials as desired. For example, a very good charlotte is made with whipped cream, powdered sugar to taste and chopped nuts. Glace fruit of every description is also used. It is very easy to devise new mixtures, and after a time one has two or three prime favorites of which the family never tire. The cake used may be plain sponge cake or lady fingers. Small paper molds are to be purchased, when individual charlottes are wanted. As a rule these are better than the large-molded about the second molded charlotte, as each person is-given more cake.—New York Post.

Care of Our Best China. Yes, there is science in it. Do not forget when washing gilt edged china or any delicate china with gilt designs that it must not be wiped dry. It should merely be placed on the table or in a large pan to drain until dry. Wiping such china will wear off the gold. China of this kind should never be washed in water containing borax, ammonia or soap. A piece of flannel-ette should be placed over each of the gilded plates and saucers that are piled together in the china closet. This protects the gilt from scratches.
