**LETTERS TO EDITOR**

**Letter from Alderman T. W. Butler.**  
Editor of Advocate:  
Dear sir,—  
I notice in "The  
Leader" a letter signed "Voter"  
referring to my qualification as  
Alderman.  
Apparently there is some indi-  
vidual in the town, (who is  
ashamed of his name), that feels  
very sore over my election. It is  
also apparent that he belongs to a  
class which are everlastingly  
dragging their religion into every  
little political scrap that arises—  
it is also clear that we have  
among us a "Voter" who is not  
far removed from the days when  
the inhabitants of this country  
winged their poisoned arrows from  
behind a tree.  
I did not enter the list as a  
Catholic. I have too much love  
for my Church and Faith to drag  
it into the mark of every little  
political squabble, or in fact any;  
and too much veneration for the  
ashes of my ancestors, whether on  
this, or the other side of the  
Atlantic, to dig them up to sand  
the arena for every prize fight,  
political or otherwise.  
I went into the election as a  
Canadian citizen, resident in the  
town of Newcastle, and if this  
law giver, who runs into his hole  
like a rat, and squeals from behind  
the plaster, knew anything about  
the first principles of interpreting  
statutes, he would see that the  
very law he quotes makes me a  
resident of the Town of Newcastle.  
The original election held to  
incorporate the town of Newcastle  
is confirmed by the first section of  
the Newcastle Act, and by the  
twenty-third section, the district  
in which I reside is made a PART  
of the said town of Newcastle; and  
it does not matter for what pur-  
pose it is made a part of the Town  
of Newcastle, so long as it is a  
PART. We were not consulted  
when this legislation was obtained,  
but we have submitted to it, and  
the Town has acted on it, and our  
property is assessed by the Town  
Council of the Town of New-  
castle. The assessment books of  
the Town show me assessed for  
\$1500 real estate; and I live on  
this real estate; and surely I am  
not, in a responsible British  
country, liable to taxation with-  
out representation. My farm is  
mortgaged for \$40,000 expended  
last summer by the Town for a  
new stone school, just as well as  
the property in the Police district  
of the Town of Newcastle.  
We have three districts in the  
Town of Newcastle, the Police and  
Fire district, which covers the  
central part of the Town; then  
there is an outlying district, which  
extends to the original boundaries,  
which is not assessed for police  
and fire purposes; and no one ever  
thought of claiming that its  
residents were not qualified both  
to vote and represent the Town.  
The district in which I reside, by  
special legislation secured by the  
original Town was made PART of  
the town of Newcastle under the  
section referred to and quoted at  
length by this same "Voter". Of  
course I do not expect that the  
half fledged contortion of legal  
intelligence which provides the  
"Voter" with his law, can see that  
PART of a surface must be within  
its lines. I note the similarity of  
the educational qualities that has  
been providing "The Leader" with  
literature of late, and am not  
surprised that I am called "Tom,  
Dick and Harry". I am however  
surprised that I was not called  
"Tom, Dick, Harry or Scallawag."  
As to having no interest in the  
town only what I can get out of  
it, is again a misrepresentation. I  
believe I am taxed as much in the  
town as "Voter." I have been re-  
ceiving legal fees from the town  
for years. These, I not only sur-  
rendered to be an Alderman; but  
have promised, both in my card  
and on the public platform, to con-  
tinue rendering these services  
without fee. And if "Voter"  
knew as much now as he pretends,  
and was honest he would know I  
could not hold the position and  
draw any fees or make contracts  
with the town.  
Yours respectfully  
T. W. BUTLER.

**PROHIBITION BILL  
HAS BEEN PASSED**

Halifax, N. S., April 21—The  
House of Assembly gave the pro-  
hibition bill its third reading at  
six o'clock this evening when it  
was sent to the Legislative Coun-  
cil for concurrence. That body  
took the bill up at 8 o'clock and  
by midnight had given it the first,  
second and third reading.  
The liquor interests tried to get  
an amendment through the Coun-  
cil, requiring a three-fifths major-  
ity of the voters of Halifax in the  
referendum, which shall take place  
if this city is to be brought under  
the act. The Council, however,  
refused, and it stands that a major-  
ity of the votes cast in this pleb-  
iscite for or against license shall  
be sufficient. The Council made  
one amendment which provides  
that it shall be illegal under the  
act to form a club to secure liquor  
for its members. The House will  
prorogue at 3 o'clock tomorrow  
afternoon.

**More bread and Better bread  
—And the Reason for it**

**A STRONG FLOUR** can only  
be made from strong wheat.  
It costs hard wheat is acknow-  
ledged the strongest in the world—  
and that is the kind used for  
Purity Flour.  
Of course this special process is  
more expensive to operate but it  
means a lot to Purity flour users—  
that's why we use it.  
It means that Purity Flour is  
made entirely of the highest-grade  
four parts of the strongest wheat  
in the world.  
It means a high-class, strong flour  
and therefore yields "more bread"  
and better bread.  
Purity may cost a little more  
than some flours, but results prove  
it the cheapest and most econom-  
ical after all.

Solve These  
Every-Day Problems

**Problem I. Bad Roads**—  
The old way was to cross unimproved  
roads and to wait for a horse and  
wagon to take you to the other side.  
The new way is to telephone for what  
you want, and make because you get the  
information in a thousand part of the  
time.

**Problem II. Weather Forecasts**—  
The old way was to wait on a hillside  
for a messenger, and to guess the weather  
from the wind and clouds.  
The new way is to telephone every morn-  
ing to the weather bureau and to get  
the weather forecast and to know  
the old way.

**Problem III. Prices Current**—  
The old way was to ask a neighbor or  
to go to the store to get the prices of  
the things you need. The new way is  
to telephone and to get the prices of  
the things you need in a few minutes.

**Problem IV. Emergencies**—  
The old way was to wait for a doctor  
to come to the house, and to wait for  
the doctor to get to the house. Effort  
in this direction often proved as its  
only result the information: "doctor is  
out."  
The new way is to call up the doctor on  
the phone, and know instantly what can  
be done pending the arrival of the  
doctor.

**Problem V. Help**—  
The old way was to allow one to go on  
being lonely, or to wait for a messenger  
to bring you to the doctor. Effort  
in this direction often proved as its  
only result the information: "doctor is  
out."  
The new way is to make the phone your  
friend—your helper, your helper, your  
friend.
