Gardeners who would have such crops as radish, lettuce, spinach and other vegetables ready for use early in the season, would find the lothos or even the cold frame, of great advantage. By the use of the former warm weather crops, such as poppers, egg plant and melons, can be hastened in the spring so as to ensure their maturing before cold weather sets in in many parts of Canada.

While heating manure has to be used with lothos for raising the temperature, the cold frame depends upon the sun shining through the glass sash to warm up the soil and start growth. Pamphlet No. 19 of the Dominion Experimental Farms, and distributed by the Publications Branch of the Department of Agriculture.

WEDDINGS

MUNN—TUCKER

St. Bridget's R. C. Church at Renou was the scene of a very happy event Wednesday April 23rd, when Miss Irene M. Tucker was united in the holy bonds of matrimony to Thomas G. Munn, eldest son of Mr. and Mrs. D. Munn of Pineville, the nuptial ceremony was performed by Rev. E. S. Murdock. The bride looked very becoming in a traveling suit of navy blue serge with a large white picture hat and "French Drape Veil" she was attended by her sister Miss Mary Tucker, who was handsomely attired in a gown of navy taffeta silk with hat of contrasting material. Mr. Ward Tucker cousin of the bride did the honors to the groom. After the wedding ceremony the bridal party were driven to the home of the groom, where a delightful tea was served to a number of invited relatives and intimate friends of the contracting parties, the house was tastefully decorated for the occasion the coloring scheme being carried out in green and white. The bride and groom who are both popular received some very pretty and useful presents the groom's present to his bride was a substantial cheque. The evening was spent in music games etc. after which the guests departed wishing the young couple a long and happy wedded life.

culture at Ottawa, describes the construction of hotbeds and cold frames as well as the system of using them.
